JUDGE SHARSWOOD ON LEGAL TENDERS

Extract from His Opinion in the Case Borie vs. Trott.

"On the whole, then, I am of opinion that the provision of the act of Congress of Feb. runry 25th, 1862, declaring the notes issued in pursuance of that act to be lawful money and a legal tender, is UNCONSTITUTIONAL.

"This renders it unnecessary that I should consider the other question which has been made, as to the effect of the special agree ment to pay in lawful silver money of the United States. 1 am in favor of entering judgment for the plaintiff, but as a majority of the court are of a different opinion, judg-ment for the defendant."-Copied from the Philadelphia Age of 23d of February, 1864, where the opinion is published in full.

It may also be found in the Legal Intelli gencer of March 18, 1864, page 92.

In the same copy of the Age is a carefully prepared eulogy of the judge and this opin ion, in which is the following :

"Judge SHARSWOOD reasons upon and de cides the case as if he were some lofty spirit sitting far above and out of the contentions and strifes of the world.'

Will not the holders of greenbacks and Government bonds consider the judge as quite too elevated and ethereal for such earthly honors as a scat on the Supreme Bench ?

DE JUDGE WILLIAMS .- The opponents of Judge Williams are in a very bad predicament, in not being able to find any valid objections against him as a man and a jurist-They therefore content themselves by calling him a Connecticut Yankee. In their estimation it is a terrible thing that Judge Williams should have been born in Connecticut-the land of wooden nutmegs. It is true that the Judge was born on Yankee soil, but he has lived nearly all his life in Pennsylvania. But still he was born a Yankee, and never owned or lashed a negro. But that should no longer be an objection, even interred, while he cut off the heads and with the chivalry and those who sympathise with them. Of all the New England States, Connecticut is the only one where copper- having induced them to come forth by proheadism has the least chance of success, and surely our copperish friends should not be so hard on the sons of this renegade New England State. We have no doubt Judge Williams regrets the recreancy of his native State, which is manipulated and controlled by wiley and unprincipled politicians-but surely if it is a sin to be born in New England, our democratic friends should make some exceptions in favor of Connecticut. OUR CANDIDATE FOR REGISTER, &C. -We neglected to state, last week, that Mr. Bisel, our candidate for Register & Recorder, was not only a good English scholar, but that he also spoke the German language fluently. That Mr. Bisel is in every girl, whose bodies he cast into the flames ; respect well qualified for the office, which should be filled by a competent man, is a fact that no one can dispute. Soldiers who survived the war, vote as you fought. You braved danger and death to save the Government from destruction, and you fought bravely to' put down a rebellion which the outgoing Judge of the Supreme Court (Woodward) asserted was precipitated and provoked by the people of the North, and which the Copperhead candidate for the same position (Sharswood) pronounced chivalric and holy. Vote as you fought. Vote to put down rebellion. Vote to rebuke a usurper. Vote to encourage loyalty. Vote to preserve the integrity Pacha has attempted to delude his own of the Government. Vote to enforce the laws. Vote to punish traitors. Vote to make treason odious. Vote to secure those who trusted the nation. Vote to save the county ! If every Republican vote is polled in Pennsylvania on the second Tuesday of Ocgovernment." tober next, we will gain a Judge of the Supreme Court, maintain our strength in the Legislature, and re-elect every candidate for a county office the term of whose present occupant expires this year. But we want all our Republican votes polled. To do this, and thus maintain a Republican majority which has more than once struck terror to the heart of treason, we must all go to work for the Government to stop the Indian out at once and in earnest. ----A GREAT SHOWER .- The Lewisburg Chronicle says a friend at Mifflinburg set out a wooden bucket, during a heavy show. er, one night, and in the morning it was er, one night, and in the morning it was station just accepted by the Government, running over, making about ten inches of which carries the track 270 miles west of rain. As the annual average of rain, in this the Missouri river. latitude, is about forty inches, this would be equal to three months' usual supply. The bucket of his friend must have been, accidentally, set under a small water-spout. Our neighbors of the Gazette have enlarged and otherwise improved their paper. the assembling of armed men for pointical or other purposes is of frequent occasion, and that well disposed citizens are subject-ed to annoyan ce from armed persons posted as sentinels or videttes, it is hereby ordered The Gazette is now printed on a Taylor press, with new type, and makes a good appearance. We trust our neighbors will not find this an unprofitable enterprise. that such practices and all other acts tend-ing to disorder and violence must be at once

Judge Sharswood in Sympathy with the Rebel Congress, THE CIRCULATION OF GREENBACKS PRO BIBITED,

(From the Richmond Examiner, Jan. 28, The following bill, to be entitled "An act to prohibit dealing in the paper currency of the enemy," has passed both Houses of the gress. It originated in the House of Representatives, and was amended in the Benati resentatives, and was amended in the behave, by the insertion of the words distributed in the first section. The amendment will, at course, be concurred in by the House. The act will, doubtless, receive the approval of the President, and the country will then be relieved of the pernicious effects of a traffle which it is surprising any person professing to be identified with the South should ever have encaged in :

have engaged in : 1. The Congress of the Confederate States of America do enget - That no broker, banker or dealer in exchange, or person concerned in exchange, or person concerned in trade as a merchant, or vender of merchandise of any description, or any other person, except within the lines of the enemy, shall buy, sell take, circulate, or in any manner trade in any paper currency of the United States : *Provided*, That the purchase of postage stamps shall not be considered a violation

of this act. 2. That any person violating the provi sions of this act shall be subject to indict ment and prosecution in the Confederate Court holden for the district within which the offense was committed, and shall, upon conviction, forfeit the amount so bought sold, circulated, or used, or a sum equa thereto; and shall be moreover subject to a fine of not more than twenty thousand dollars, nor less than five hundred, and be imprisoned not less than three months, nor more than three years, at the discretion of said Court ; and it shall be the duty of the judge of the several Confederate Courts to this act specially in charge to the grand jury.

3. That this act shall not be construed to apply to any person acting in behalf of the Government of the Confederate States, by special authority of the President, or any of the heads of departments.

Judge Sharswood decided the circulation of Government bonds and money unconstitutional. He therefore stands on the same platform with his Southern brethren. Voters remember this.

THE CRETAN INSURRECTION

The following letter has been addressed by the insurrectionary government of Crete to the consuls of England, France, Russia, Austria, Prussia, Italy, Greece, Sweden, and the United States of America :

"ASKYFO DE SPIIARIA, August 9. "Messieurs les Consuls-The Generalissimo of Turkey, Omar Pacha, having failed in his last expedition, in spite of his immense military preparations, his numerous army, the strict blockade which he had instituted both by sea and land, and his promise to the insurgents, abandoned himself without restraint to the dictates of a ferocious heart. He burned all the villages of Sphnkia, with the exception of Commitato and Prosjals, which were partly destroyed. He cut down the trees and set fire to the bee hives, searched all the caves in which the inhabitants had hidden their small properties, opened the tombs and scattered the remains of the persons who had been long limbs of corpses recently buried. He surrounded caves where women and children, old men and sick, had taken refuge, and mises and protestation, caused them to be subjected to the most cruel tortures, and this at the moment he had assured M. Boutacoff, the Russian consul, that he had treated them with lenity. * * * Omar Pacha also put to death the nun Trajina, blind from his birth, Cali Papanicola, S. Vergaki, N. Reception of General Sheridan in

St. Louis. The people of St. Louis gave an enthusias-

tic reception to General Sheridan Monday night week last. The torchlight procession was nearly two miles long. Twenty posts of the Grand Army of the Republic were in the line, together with colored societies, fire companies and citizens. Speeches of welcome were made by Lieutenant-Governor Smith and General Carl Schurz. The following paragraphs are extracted from General Schurz's speech :

"But in you, sir, the people see more than merely a man who can wield a sword, ride down hostile battalions, and handle an army on the rough edges of battle. In you the people honor the glorious model of the American soldier. [Cheers.] The soldier who is no mere unthinking machine in the hands of a superior will, but who knows what he is fighting for, and whose brave soul will never rest until the victory of his arms has received its true value in the assured triumph of a great cause. [Great applause.]

"In you they honor the man whose eagle eye not only never failed of battle, but seized with equal certainty the decisive points of the great problem of our day, not only as the bold rider of Winchester and the hero of the Shenandoah Valley and the Five Forks, but as the hero of the Fifth Military District. TOOUR CUSTOMERS.

We take pleasure in announcing to Denlers in Fertilizers, and the Agricultural public, that we have within the past year increased our facilities for the manufacture of our Raw Bone Phosphate, to an extent unequalled by any other House in the United States or Europe. These facilities not only include the enlargement of our old established works in Philadelphia, known as the Delaware River Agricultural Chemical Works, but also the purchase of extensive and well stocked works at Chicago, II., with all the necessary machinery, ears, &c., to conduct the business. This establish-ment alone has produced, annually, over 5000 tons of dried Bones and Meat, and is capable of being largely increased. We desire, by the closest super-vision, to conduct these two concerns so that our cus-tomers will derive a practical benefit from their con-solidation, in obtaining a MANURE which shall maintain a standard and uniform quality, and at the lowest possible price.
