Wistin. - The present winter has been one of unusual severity, but the sun is beginning to exert his power, and the snow is fast disappearing. The river has been frozen over the second time, and the presont bed of ice is not less than 15 inches thick .-Sleds and sleighs, heavily laden, have been traversing it for weeks past with as much impunity and as little fear of danger as if upon the public highway. The trade attracted hither is semething of an indication what might be expected if we had a bridge at this place. Our retailers of coal are doing a big business on the strength of the present free bridge. From twenty to thirty sleds at a time have crossed over. Much of the produce of Union and Snyder counties finds its way to this place, summer and winter, and the only obstacle in the way of increasing that trade four fold is the want of a bridge.

I rant, prepared to meet the urgent need of a safe and reliable cure for diseases of the throat and lungs. A trial of many years has established the fact that it is more efficacious in pulmonary affections than any other romedy. Its efficacy has now become so generally known that it is justly regarded in many countries as a medicine of indispensable necessity. In Great Britain, France and Germany, where medical scionce has reached its highest perfection, it is pre-

once has remaded its highest perfection, it is pre-scribed in domestic practice, and constantly used in the armies, in haspitals and other public institu-tions, where it is regarded by the attending physicians as the most speedy and agrocable remedy that can be employed. Scarcely any neighborhood can be found where well known cases of diseased lungs, which had bafiled the efforts of the most skillful and experienced doctors, have been permanently cured by it. These results are the most convincing proofs of the superior curative properties of this prepara-tion; and to them the authors point with peculiar satisfaction. While it is most powerful against con-firmed disease, it is extremely gentle as a medicine

Are the best in Use. FOR THE POLLOWING REASONS

They are more simple and durable, easier kept in order, make a stronger and more elastic stitch, a firmer and more beautiful seam than any other They sew all fabrics from two common spools, require no re-winding of thread, fasten both ends of the scam by their own operation, and though every fifth stitch is cut the seam will not rip. The Very Highest Prize, the Cross of the Legion of Honor was conferred on the representative of the
