Tan food, which attained its highest point on Wednesday morning, has, more or less, inundated almost every town on the Susquehanna. Rumors were rife on Wednesday that one span of the Milton bridge had been carried off, but we are pleased to learn that the bridge, though in great danger, has not been seriously damaged.

Tus Shamokin Furnace was blown out, recently, for repairs, after a run of eight months. It will be put in blast again in a few days. Between 3 and 4 alley, were closed to prevent the water coming up o'clock on the morning of the 7th inst., the gas under the boilers exploded, setting fire to the roof of the aroused the indignation of some individuals below building. The Furnace employees, with the aid of a few residents of the vicinity, subdued the fiames, but not in time to save the roof.

new iron front building, on Market street, and will solfishness or maliguity, yet it is difficult to under. open, about the first of April, a large steck of Bry derstand how any intelligent mind could apprehend Goods, Groceries, &c. The new store, when in full any damage, or see anything wrong in a measure operation, will be one of the finest and best in Sun-that could injure no one, and yet greatly benefit bury. Messrs. Moore & Dissinger are energetic others. But such, we learn is really the case. These bury. Messrs. Moore & Dissinger are energetic business men, well known in this place and vicinity, and will, no doubt, do a large business.

THE GROVER & BAKER SEWING MACHINES are generally considered the most simply constructed machines in use, and as any kind of sewing can be done with them they are preferable to any other .-Miss Caroline Dalius, the agent atwhis place, is putting up a number of these machines, and also gives instructions how to work them, which is another advantage to those who purchase of her. Miss Dalius is thoroughly competent, and we take pleasure in recommending her to those who wish to purchase a machine and engage the services of an experienced instructress.

APPOINTMENT OF A NEW PRESIDENT JODGE .-Banjamin S. Bently, Esq., of Williamsport, was ap-

pointed by Gov. Genry, on Tuesday last, President Judge of the new Judicial district composed of Lycoming county. The appointment of Mr. Bently will give general satisfaction, being a gentleman well qualified for the position. It was ramored at one time that Judge Maynard would be appointed, but we hear that he was not a candidate for the

NEW COUNTERPEIT .-- A dangerous counterfait five dollar National Bank bill is believed to be in extensive circulation. FROM OF THE PALLA. & EALS RAILMOLD .-Resources of the Pail.A. & Enis Railhoad... The Eric Disperch, of a recent date, published an abstract of the Inform of this road, its construction and geographical peculiarities, connections and re-sources of busines, dc., from which we copy the following which is of local interest: "The Philadelphie & Eric Bailroad, formerly called the Sunbury & Eric Railroad, connects with the Northern Central at the north side of Market street, in the borough of Sunbury, thunce continu-ine along the acting of Dars street instrumently for

ing along the centre of Deer street, northwardly, to the borough limits. Immediately north of the town, upon a tract of land containing forty-two acres, are situated the shops of the Eastern Division, which consist of an engine or "round-bonse," with stalls for twenty-lwo engines, a machine shop covering 18,105 square feet of ground, a smithshop, 7,638 square feet, with all the necessary engine and boiler tooms, office buildings, turn-tables, traverse tables,

etc., the whole being under the charge of Thomas J Hamer, general foreman. At this place the company have laid over fourteen thousand feet of siding to facilitate the transfer of freight to and from the Northern Central and Shamokin Valley and Pottsville Builroads. "A short distance north of the shops the road crosses the south channel of the north branch of the Susquehanna river by a new and substantial Howe truss bridge 966 feet long, built during the Summe of 1866, under the immediate superintendence of W. H. Brown, then principal assistant engineer, at a cost to the company of nearly \$50,600. From the north end of this bridge the road traverses the Sha-John F. Albright, Administrator of T. D. Al-

which is crossed by another bridge of the Howe truss pattern, 1,072 feet in length, to the town of Northumberland. Here the company have just completed new passenger and freight depote, at a cost of nearly sixteen thousand dollars. At this point connection is made by the Lackawanna & Bloomsburg Railroad with the Wyoming coal fields, and all the principal towns on the north branch of

the Susquehanna river. "From Northumberland the Philadelphia & Erle Railroad commences the ascent of the west branch and its tributaries, which it follows by easy grades for more than 150 miles. Between Northumberland and Muncy the road passes through a well cultivated country, crossing the Chilisquaque creek by a covered bridge of one span, near which is an extensive any mill belonging to Dodge & Co., of Jerrey City; thence to Lewisburg station, distant nine miles from Sunbury, around which a considerable village has sprung up, and from which point a branch railroad is now being built to the borongh of Lewisburg, on the opposite side of the river, in Union county.

"Catawissa Junction, 12 miles from Sunbury, is Smith's graphic account of the old lady who vainly the intersection of the Catawises Railroad, thence passing Milton, 124 miles from Sunbury, Watsontown, 16 8-10ths miles to the northwest corner of Northumberland county. At a distance of 22 miles north from Sunbury the road crosses the west branch river and the west branch canal by a new Howe truss bridge of eight spans and 1,250 feet in length ; thence continuing along the west side of the river, passing the stations of Montgomery, Munay, Loyal-Or did they think the little water emptied into the sock and Montoursville to a point below Williamsport, distant 39 miles from Soubury, where it rethe body and force of the mighty volume of water in the river? If not, what did they expect? They certainly did not expect that, with the sluices closed, thriving young city to near the west end, where the thriving young city to near the west end, where the saved to Clothing bayers by keeping in mind the waves would come in, pile themselves upon Williamsport & Elmira Railroad branches off to ench other like regular courses of solid masonry, and suddenly come down the chimneys, while if these sluices were left open they would gently crawl through and disappear. Have these philosophers ever seen or heard that the filling of the chambers of the lock below the dam sensibly re-length, thence passing Susquehanna, Jersey Shore, luced the depth of the water in the basin above ? Pine and Wayne stations to the Bald Engle Creek If they did, there might be some slight excuse, as which is crossed by a bridge 492 feet in length the chamber above the railroad bears about the same relation to the river as that of the lock to the water in the dam. We have no doubt that a drop of water of the dam. We have no doubt that a drop of water added to a bucket, already full, will rate it some, making small running repairs to ergines and care. and that drop our philosophers discovered in the A small force only is employed here at present .-From Lock Haven the road continues along the

south bank of the Susquehanna to Queen's Run dam, where it crosses to the north side by a burr bridge 975 feet in length; thence continuing slong the north side, passing Farrandsville, Whetham, and several other places of minor importance, crossing Young Woman's Creek by a bridge of a single span of 110 feet in length, passing North Point station,

JOHN E. SMICK'S

SHERIPP SALES OF REAL ESTATE .- On Saturday, 7th inst., Sheriff Beckley sold three lots of ground,

situated in the borough of Shamokin, property of Jeremiah P. Fincher, to George Follmer, of Sunbury, for \$2,050. The Sheriff also made the following sales on Tues-

day, 10th inst. :

A bakery, in Northumberland, property of Matthiss Smuck. Sold to Chamberlin & Co. for \$700. Piece of land in Lewis township, containing seven acres, property of James F. Kemerer. Sold to Savidge and Raup for \$360.

Lot of ground in the borough of Mt. Carmel, pro-perty of Daniel Rohrty. Bold to S. A. Bergstresser and David Keiser for \$235.

OUR NORTHUMBERLAND NEIGHBORS AND THE MIDDLECREEK RAILROAD .- The Lewistown Ga sette, of Wednesday last, says :-- The citizens of Northumberland have at last fully awakened to the importance of the Middlecreek Railroad, and at a meeting last week, got up on the spur of the moment, shout \$12,000 were subscribed and a contract entered into by John McFarland, on the part of the citizens, to grade the road from Northumberland to the Shamokin dam, which embraces the bluffs, at \$1.35 per cubic yard for solid rock ; 50 ds. for loose rock ; 35 cts. for earth excavation ; \$3.35 for culvert masonry and retaining wall ; and \$5 per perch for second class bridge masonry-work to be commenced to-day. This action will grade three miles of the road by new subscriptions.

BODY RECOVERED .- On Saturday morning last the body of a woman named Susan Gibbony was found floating in the Susquehanns, near Lyon's bo-tel, on the Snyder county side of the river. It will be remembered that she mysteriously disappeared from Lewieburg some time in Japuary last, a notice of which appeared in the AMERICAN at the time, and from the fact of some of her clothing having been found on the river bank at that place, on the day she was missed, it was generally supposed that she committed suicide by drowning herself. When found her face was severely cut and bruised, which was probably caused by the floating ice, and her body was in a nucle condition. An inquest was held by the Coroner of Snyder county, but we did not learn the verdict rendered by the jury. The unfortunate woman always bore a good character in Lewisburg, where she resided. Her body was taken bill verbatim, omitting the names ; to that place for interment.

THE LATE PLOOD .- The warm weather of last wock, with the rains above acting upon the great body of snow, caused the Susquehanna to rise ra-pidly on Sunday and Monday last. On Monday the river was nearly bank full, and the water still continued to rise at the rate of 14 inches per hour. On Tuesday, all day and during the night, the water was kept from running over by raising slight earth works, but after midnight the wind raised and blew strongly from the west, and the small force left abandoned the task, and the water commenced running over about 3 A. M. on Wednesday marning, and, of course, inundated the low grounds between the railroad and Walnut street, and some of the lots on Chestnut sirest, above the road, which might have been avoided by closing the culverts in the road. The result is that a number of our citizens have their cellars filled with water, and in some have their centers nines with water, and in some causes fences overthrown, a matter that could readily have been avoided by expending a few hundred dollars in extending or rather raising the embank-ment from Chestnut street down. We trust the lesson will not be lost, and that our officers will, hereafter, not harmoniously on a subject in which all are interested. The water was about two and a all are interested. The water was about two and a half foot lower than on March 17th, 1845. The Phila. & Eris Machine Shops, above town, were three feet above water, and the Northern Geniral Shops, in the low r part of the berough, were seve-

Queensware, Glaseware

730 Chestnut Street. Philadelphia,

Are the hest in Use.

FOR THE FOLLOWING REASONS .

They are more simple and durable, easier kept in order, make a stronger and more elastic stitch, a firmer and more beautiful seam than any other They see all fabrics from two common speels, re-quire no re-winding of thread, fasten both ends of the seam by their own operation, and though every fifth stitch is cut the seam will not rip. The Very Highest Prize, the Cross of the Legion of Honor was conferred on the representative of the
