This Distressing Affection—which renders Life miserable and marriage impossible—is the penalty paid by the victims of improper indulgences. Young persons are too soft to commit excesses from not being aware of the dreadful consequences that may ensue. Now, who that understands the subject will pretend to deny that the power of procreation is lost sooner by those falling into improper habits than by the prudents? Besides deing deprived the pleasures of healthy offspring, the most serious and destrective symptoms to both body and mind arise. Take Particular Notice. Dr. J. addresses all these who have injured themselves by improper induspence and solitary habits, which ruin both body and mind, unfitting them for either business, both Sody and mind, unfitting them for either business, study, society or marriage.

Biscanse of Empredence.

When the misguided and improdent votary of pleasare finds that he has inbibled the seeds of this painful disease, it too often happens that an ill-timed sense of sharine, or iread of discovery, deters him from applying to those who, rom education and respectability, can alone befriend him, delaying till the constitutional symptoms of this horid disease make their appearance, such as ulcerated sore throat, diseased mose, nectural pains in the head and limbs, damens of sight, deafaces, nodes on the slim bones and arms, blotches on the head, face and extremitia, progressing with frightful lapidity, till at last the palate of the mouth or the bones of the mose fall in, and the victim of this award disease becomes a horid object of commiserathis awful disease becomes a borid object of considera-tion, till death puts a period to his dreadful suffering, by sending him to "that Undiscovered Country from whence no travelier returns."

It is a melancholy fact that thousands full victims to this terrible disease.

Who have injured themselves by a certain practice indulged in when alone, a habit frequently learned from evil companious, or at school, the effects of which are nightly feit, even when asleep, and if not cured renders marriage impossible, and destroys both mind and body, should apply immediately.

Wast a pity that a young man, the hope of his country the darling of his parents, should be suatched from all prospects and enjoyments of life, by the consequence of deviating from the path of nature and including in a certain secret habit. Such persons aver, belove contemplating trade that a sound mind and heady are the most necessary requisites to promote commissial happiness. Indeed without these, the journey through his becomes a weary pilgrim age; the prospect lourly darkens to the view; the mind becomes shadoved with despuir and filed with the melanching reflection that the happiness of another becomes blighted with our own.
