Tons of every kind, most entirely new, rare and curious, in great quantities, to suit all, at LIGHTNER & ZEIGLER'S.

HANDSOMELY DRESSED DOLLS—Dolls of every kind and size—prices from 5 cents to \$10. Call and see them, at LIGHTNER & ZEIGLER'S.

THANKSGIVING ALBUMS, elegant Family Bibles, Prayer and Hymn Books, and Books suitable for Holiday Gifts, at LIGHTNER & ZEIGLER'S.

BIRCHING CABARETS, warranted good singers, also a fine assortment of Cakes, for the Holidays, at LIGHTNER & ZEIGLER'S.

PETROLEUM V. NASH announced to lecture sometime during the winter at Lewisburg and Williamsport.

THE BUILDING ASSOCIATION—A meeting of the members of the Sunbury Mutual Loan and Building Association will be held at the Masonic Hall, on Friday night of next week.

JEDON BENTLEY retired from the Bench of Lycoming county on Monday last week, and Hon. James Gamble was sworn in. The Bar passed complimentary resolutions to Judge Bentley.

THE Independent, of this place, made its appearance last week in an enlarged form, under the title of the Democratic Citizen, with G. C. Benson, Esq., as one of the proprietors. Peculiarly, we wish them success.

DEAD—We regret to learn of the death of Mr. John Malone, son of Maj. Malone, of this place, which occurred at Georgetown, Md., on Wednesday last, of diphtheria. He was well known and highly esteemed in Sunbury.

LAVERY—Messrs. Farnsworth & McGraw, who recently purchased the livery stable of Mr. Charles Benson, of this place, have stocked the concern, and are now prepared to furnish carriages, sleighs, etc., on the most reasonable terms.

SUNBURY MASONIC HALL ASSOCIATION—A meeting of the stockholders of the Sunbury Masonic Hall Association will be held on Monday, Jan. 11, 1899, at 8 o'clock, for the purpose of electing officers for the ensuing year. J. J. HAAS, President. L. T. ROEBUCK, Secretary.

A GOOD BARBER SHOP—Mr. Wm. N. Keller, in DeWitt's frame building, on the north side of Market Square, has one of the neatest and best-stocked and best-handled establishments that we have ever had in Sunbury. Keller is a first-class barber himself, and employs none but the best of workmen. He has an extensive run of custom.

NEW FURNITURE—A description, and Fancy Holiday Toys, have just been opened at the Furniture Store, in the Masonic Hall building. Some splendid articles are now on exhibition, which are very suitable for holiday presents. Go and see them, and convince yourselves that no better or cheaper furniture can be purchased outside of the city.

TO BUILDERS—We would refer all who intend building to the advertisement of I. T. Clement, in another column. Mr. Clement has his new Planing Mill in full operation, and is prepared to fill all orders for building material at the shortest notice. Those who contemplate building will save money by giving him a call. His prices are low and the material is the best in market.

ACCIDENT TO A LADY—We regret to state that Mrs. Samuel Stehly met with an accident one day last week by which her face was severely cut. On going down the cellar stairs of her residence with a large fish in her hand, her foot slipped, throwing her down the stairs. In the fall the fish was broken, and falling on some of the pieces her face was badly cut. Her wounds were dressed by a physician, and we are pleased to learn that she is rapidly recovering.

DOVATION VISIT—On Tuesday evening last Rev. Mr. Shively visited St. Matthew's Episcopal Church, of this place, was the recipient of a donation visit. The members of his church took the reverend gentleman and lady by surprise, and in a few moments his tables were covered with dry goods, clothing, provisions, and a variety of useful articles, in addition to the round sum of \$100 in money. Some of the members of St. Mark's Church, of Northumberland, of which Mr. Vandine is also pastor, were liberal contributors.

APPEALS AT THE COUNTY PRISON—On Saturday morning last a man named Charles Barnhart, aged about fifty years, was committed to jail by Esquire Duffenbach, of Northumberland. He was charged, on the oath of his wife, Mary Barnhart, with attempting to kill her, she stating that he would carry out the threat, she had him arrested. He is a very disreputable man, and on the previous Friday night drove his family from the house during the very cold weather. Had it not been for the kindness of some neighbors, who gave them shelter, they would undoubtedly have perished. He is the father of Jesse Barnhart, who escaped from our jail last summer, and who was arrested last week, an account of which we published in our last issue.

On the same day David Clark, of Northumberland, was committed by Esquire Duffenbach. He was charged with being drunk and disorderly. Both of the prisoners were placed in jail by constable John Cook, of Northumberland.

Edward O'Connell, a boy of about twelve years of age, who was arrested about a month ago at Leont, Pa., for stealing money, was held on bail on Tuesday last, in the sum of \$100, for his appearance at the January term of court. His mother entered the necessary security.

FATAL ACCIDENTS ON THE NORTHERN CENTRAL RAILROAD—A young man named Ingalls, belonging to Powell Valley, seven miles from Halifax, was fatally injured by a freight train, between ten and eleven o'clock on Wednesday night of last week, about a half mile above Dauphin. He was rolled by the train, having fallen between the cars. He was conveyed to Dr. Umberger's office, in Dauphin, where he died at ten minutes after twelve o'clock. The body was taken to Halifax on the afternoon train. The deceased was a brakeman on the train, and was making his first trip. The caboose of the train was upset and burned.

On Monday evening last, as the night accommodation train from Baltimore was coming up, it ran into the Directors' engine No. 74, about two miles south of New Cumberland. The engineer of No. 74 arrived at Red Bank Springs, having in charge the Cincinnati Express, south, and observed a freight train standing on the siding. Fearing that it was the passing train, he started on the right account, but he started on the wrong, and in a moment afterwards collided with the accommodation, which was being conveyed by engine No. 93. Geo. Cockley, engineer, and Wm. Blair, fireman, both of Sunbury, were on the latter engine at the time of the collision. Blair was completely demolished. His boiler exploded, throwing the engineer over his head, and killing the fireman. The train was derailed, and derailed almost to a wreck. He suffered terribly, and died in about two hours after the accident. His name was Joseph H. Blair, and he was an engineer. His wife, Mrs. Mary Blair, had her right leg and shoulder badly injured, and was also seriously cut in the head. Cockley was very badly injured in jumping from the engine. Blair said on the engine and occupied with a night cut across his nose. This is the second accident that has happened with recently, the engine having run off the track and over a high bank about two months ago.

PRESENTS FOR THE HOLIDAYS.—As the season is at hand to select holiday presents, we would recommend our citizens to patronize those who are constantly replenishing their stocks, and who invite the patronage of the public by advertising liberally in the columns of the American.

THE DRY GOODS AND GROCERY line, of every description, we observe that H. Y. Fritting, the proprietor of the "Mammoth Store," has just opened a new stock of goods of the latest styles. His windows display an assortment of goods that cannot be excelled, in point of beauty, quality and cheapness.

As H. Y. Fritting having largely to his stock, has created quite a "flutter," especially among the ladies. The demand for his goods tells very plainly the good taste he has displayed in his selection.

Moore & Dinsinger, in headquarters very front building, are in every way amply prepared to supply every one with Dry Goods, Groceries, etc. They are getting an extensive business.

Dr. Joseph Eyster's windows, as well as his large store, are crowded with fine Dress Goods, Notions, etc. We are pleased to see that he is not only patronized. His goods have been selected with great care, and we are sure his stock is large enough to make the very best selections from.

H. Peters, on Third street, near the Lutheran Church, has received and opened a large variety of Dry Goods and Groceries. His customers will find his selections excellent and reasonable.

W. S. Furman & Co. have also lately replenished their stock of Groceries, which their patrons will find fresh and good.

MILKERY AND FANCY GOODS. Miss Kate Beck has opened her holiday goods, embracing Dress Goods of every style, and a very large stock of Notions, etc.

The windows of Miss M. L. Lazarus' store present an attractive appearance. As yet her establishment, at the present time, cannot fail to induce any one to select a handsome present from her large stock of Holiday Goods.

Miss Anna Feltner has an assortment of Fancy Goods, Notions, etc., that will give satisfaction to all. She has also her goods.

One of our gentlemen who intend to make presents to ladies should call on Miss L. Shisler, on Market Square, and Miss M. L. Gustor, on Fourth street, and make a selection from the beautiful assortment just opened. Such a profusion of trimmings, etc., has never before been brought to this place. Their assortments are equal to any in the city establishments, and selection can be made to please any lady.

GENTLEMEN AND BOYS' CLOTHING. While the gentlemen are engaged in making their selections of holiday presents, we would suggest to the ladies to pay a visit to our Merchant Tailoring establishment, and get a present for their "young lords" in the shape of garments. It is no longer necessary to send to the city for any articles of gentlemen's or boys' wear. We can procure them just as cheaply at home, and at the same time encourage our own mechanics, who are prepared to supply their customers with clothing equal to any of the city establishments. Call and examine their goods, which have been selected for the holiday season, and see their latest styles of coats, pants and vests. J. E. Snick and J. O. Beck, on Fourth street, below Market, and J. F. Shaeffer and Theo. G. Nott, on the north side of Market Square, have succeeded in their endeavors to please the taste or fancy of their customers, and we are sure that selections can be made at any of these establishments that cannot be pleasing the most fastidious.

CLERK AND CONFECTIONERY, etc. Mr. C. Gearhart, the prince of the Confectionery business in Sunbury, has a supply of candies and toys, for the holidays, that has never been equalled outside of the city. He and his clerks are constantly engaged in filling orders from different parts of the country. He is doing a large wholesale business, which is an evidence that his efforts to please the public are highly appreciated. If you desire to purchase, go early, as his stock is selling faster than he is able to manufacture.

For splendid articles of all kinds, especially for the holidays, and also for good bread, leave your orders with David Fry, the popular baker. His bakery has gained a high reputation in the neighboring towns, while his local patronage is extensive. His fancy cakes are preferred to those from the cities.

NEWS, STATISTICS, JEWELRY, etc. The elegant store of Messrs. Lightner & Zeigler, are the center of attraction in Sunbury, and at almost every hour of the day and evening their store is thronged by purchasers. It is necessary for us to enumerate the many fine holiday goods at this establishment. A visit will convince any one that they understand their business thoroughly, and that there is no better place to buy Christmas goods.

In the jewelry line, T. S. Shannock, A. N. Brite and A. M. Weiss display the finest goods, and no hand some present could be made than a selection from one of these establishments.

FINE CUTLERY, BIRD CAGES, STAIRS, etc. For the Cutlery, Skates, Slides, Bird Cages, etc., call at Connelly & Co.'s store. In their selection they have made the holiday season a specialty.

ARTHWAY'S STORES, etc. Large stocks of Perfumery, Notions, etc., have been received at the Drug Store of W. A. Bennett and John G. Markle & Co. They also well supplied with everything in their line of business to meet the wants of the public.

HATS, CAPS, GLOVES, etc. The fine Hats and Caps, of all styles and sizes, at S. Paul's store, are attracting much attention. The "Greenland" and all the other styles of hats can be purchased at Paul's. He also keeps genuine Kid and Buckskin Gloves, which are beautiful and cheap. Call and see his goods.

CHRISTMAS PRESENTS AND WHERE TO BUY THEM. One of the most beautiful displays of Fancy Goods, Notions, Toys, etc., for the holidays, and just such as are most suitable for holiday presents, can now be seen at the popular Book and Stationery Store of Messrs. Lightner & Zeigler, in Pleasant's building, Market Square. These gentlemen have made holiday goods a specialty this year, and also determined that their stock shall not be surpassed, neither will they be undersold. The only trouble experienced by customers is in making their selections. The variety is fully fringed—some below the knee and all about the neck. Why not get out of the way in time? It is simple murder to stay on until the last moment and then expect to get out of the way without being harmed. Mr. Reed was one of the oldest citizens of this county and was highly respected.

FATAL RAILROAD ACCIDENT.—The Williamsport train standing on the siding. Fearing that it was the passing train, he started on the right account, but he started on the wrong, and in a moment afterwards collided with the accommodation, which was being conveyed by engine No. 93. Geo. Cockley, engineer, and Wm. Blair, fireman, both of Sunbury, were on the latter engine at the time of the collision. Blair was completely demolished. His boiler exploded, throwing the engineer over his head, and killing the fireman. The train was derailed, and derailed almost to a wreck. He suffered terribly, and died in about two hours after the accident. His name was Joseph H. Blair, and he was an engineer. His wife, Mrs. Mary Blair, had her right leg and shoulder badly injured, and was also seriously cut in the head. Cockley was very badly injured in jumping from the engine. Blair said on the engine and occupied with a night cut across his nose. This is the second accident that has happened with recently, the engine having run off the track and over a high bank about two months ago.

FATAL ACCIDENTS ON THE PHILADELPHIA & ERIE RAILROAD.—William Reed, of Millton, was killed on Monday last by a freight train on the P. & E. Railroad running over him. The accident occurred between Millton and Montandon. It appears that he was walking on the railroad track and seeing the train coming he tried to stop, when he slipped and fell backward on the track and could not recover in time to get out of the way. He was struck by the one-way car and instantly killed. This is another terrible warning to persons in the habit of walking on the railroad track. Why not get out of the way in time? It is simple murder to stay on until the last moment and then expect to get out of the way without being harmed. Mr. Reed was one of the oldest citizens of this county and was highly respected.

THE ATLEW.—The building of the new Hospital, in this place, has not yet been awarded to any of the bidders, for the reason that the bids are far above the estimate of the architect. It may be that it will be decided the best and cheapest for the State authorities to build it themselves. We think this would give very general satisfaction, and if there is any profit in its construction, let the State have it. In a local point of view this would doubtless be the most satisfactory to the people.—*Dauphin American.*

MISSING.—On Saturday night, the 21st ult., Thomas Maloney, an Irishman by birth, late in the employ of the Point of View Company, left his home in this place, since which his family has not heard from or received any account of his whereabouts. The last known of him he was seen in the neighborhood of the Grove church, on Bloom street. Of intemperate habits, it is supposed that he may have wandered into the canal and drowned. Parties have dragged the canal in many places, but so far, have been unsuccessful in finding his body. His family are much afflicted with the loss of him. Should he have gone to some other place, it is requested that any one seeing the notices and knowing his whereabouts, will report the same to his wife, living here.—*Dauphin American.*

FACTORY BY SUBMERGENT OPERATION IN MILTON.—On Wednesday, the 2nd inst., Dr. J. D. Strawbridge, of Dauphin, assisted by Dr. J. P. McCleery, of Milton, operated on a son of George Hill, Esq., of White Deer, Union Co., for "neurosis" of the thigh bone. The disease proved of so serious a character as to necessitate amputation of the thigh close to the hip joint. The young man was placed under the influence of an anesthetic, and the operation was very skillfully performed by Dr. Strawbridge, who has the reputation of being the most successful Surgeon in this section of country. The young man bore the operation well and at present is in good spirits and doing finely. He is being carefully nursed by a affectionate mother at the residence of S. T. Brown, Esq., whose sympathies are doing all in his power to increase his comfort. We sincerely hope that his recovery may now be speedy and permanent, as he has suffered severely for the last three years.—*Miltonian.*

AN OLD DEED.—We were shown by Dr. J. Y. Shinn, an old deed, which had been called upon by Simon Snyder, James of the Peace and in Northumberland county, written in the year 1791. The deed granted by Anthony Soin and Catherine his wife of Penn township, North D. county, to James Siles, of Rye township, Cumberland county, State aforesaid, granting to the said Siles lot number 67, in the town of Solingrove (it being the lot now owned by Mr. F. B. Vankler, for the sum of five pounds). The price of the land was increased, and the deed is now in the hands of the same lot, and is now being purchased for \$100,000, the sum paid for it by Siles.—*Middleburg Times.*

SAN ACCIDENT.—A letter that has been called upon to record for some time occurred yesterday morning in West Weaver township, this county. The father in regard to the matter, as we have been before to the order of, or some all center to the company with his son William, a young man about twenty years of age, went to the hog stable with the intention of shooting the hog, but the gun seemed to go out of order and while the father was looking at the hog went off and entered the left side of the father—the ball passing through the body—and he fell dead almost instantly. Mr. Leubert was about 50 years old and leaves a wife and ten children.—*Middleburg Post, 10th inst.*

NO EXCESSIVE MOURNING.—We have the pleasure to announce that the members of Oak Hill for the present crisis. Not that the steamer are to be rarely imprudent, as to try to over-people any one, but that such pains shall be taken to suit, and such accommodations made on prices that all will, of their own free accord, desire to buy. It is in many respects unfortunate to have to interfere with the regular course of their fair and business, which was so brisk and heavy, yet the misfortune of the death of a partner is unavoidable, and one compensation which the business will receive for its present sacrifice of goods will be many new customers, who will be first brought to Oak Hill by this opportunity of making a good trade.

THE DYSPYPTIC.—The trials and sufferings of the dyspeptic can only be realized by those so unfortunate as to be afflicted by this disease, and yet how many of them suffer, and continue to suffer! Why then do they do so patiently? It is impossible to tell. It may be from ignorance, or a certain remedy, or it may be from prejudice against the use of a patent medicine. Hood's German Bitters has cured thousands of the worst cases of dyspepsia, and each day adds new names to the record of its usefulness. Give the Bitters a trial. It contains no liquor in any form.

Hood's German Tonic is a combination of all the ingredients of the Bitters, with pure Santa Cruz Gum, which is a natural preparation of the rare medicinal value. The Tonic is used for the same diseases as the Bitters, in cases where some alcoholic stimulus is necessary. Sold by druggists and others, everywhere. Principal office, 631 Arch Street, Philadelphia.

SCIENTIFIC COURT.—The following is the list of Jurors for a Special Court, to be held in Senary on the fourth Monday of December, 28th inst: 1. John Fisher, miller, Shamokin. 2. J. D. Patton, gentleman, Zerbe. 3. William H. Eckman, farmer, Hub. 4. David C. Montgomery, farmer, Lewis. 5. George Forrester, farmer, Upper Augusta. 6. John Shuman, miller, Shamokin. 7. Isaac D. Billinger, farmer, Washington. 8. Joseph Marsh, merchant, Sunbury. 9. Daniel Marsh, merchant, Delaware. 10. George Sellers, farmer, Delaware. 11. G. B. Krause, clerk, Milton. 12. Henry Price, laborer, Coal. 13. Peter Hoover, farmer, Hub. 14. John Wang, farmer, Zerbe. 15. John West, merchant, Jordan. 16. Samuel C. Lane, farmer, Upper Augusta. 17. Thomas Hanley, miller, Coal. 18. Peter Weikle, farmer, Chalmers. 19. John Heller, farmer, Chalmers. 20. John Decker, farmer, Jordan.

WILLIAM WEIGHTMAN, Manufacturer of Powders & Explosives, Manufacturing Chemist, No. 106 Summer Street, Boston, Mass. HENRY'S PATENT EXTRACT BEEHIVE, for extracting honey from bees, is the best and most perfect of its kind. It is made of pure brass, and is so constructed that it will extract honey from any hive, and will not injure the bees. It is sold by all druggists and hardware stores. Price, \$1.00 per gallon.

ONE PRICE CLOTHING. JONES' OLD ESTABLISHED ONE PRICE CLOTHING HOUSE, 501 MARKET ST. PHILADELPHIA. One door above Sixth, Philadelphia.

For many years this Establishment has done business on the One Price System, and we believe we are the only Clothing House in the city that strictly adhere to this principle. We have earned a reputation which we are proud of, for good taste in selecting the best material, and for not being too important, for having all our goods.

ENTIRE WARE MADE. We employ the best tailors, for Cutters, and our goods are made of the best material, and so that all tastes can be suited. The prices are the very lowest, as any one by a moment's thought must see, and we are confident that we can meet the competition of our neighbors, for no reductions are ever made. We must put our prices down to the advantage we can.
