REDUCTION OF THE STATE DEST.-GOV. Geary issued his proclamation last week, in accordance with the law requiring an annual announcement of the reduction of the State Debt through the agancy of the Sinking Fund, in which he states that the reduction of the debt on the 30th day of November, 1868, amounts to two million four hundred and fourteen thousand eight hun-

The Sinking Foud was commenced under Governor Johnston, and the law was passed in accordance with his recommendation. At the time of its passage the State Debt was about forty-five millions, and it is now Sinking Fund was put in operation. But the greatest reduction by far, we believe, of any one year, is that under the wise and been adopted by the Senate with only siz economical administration of Gov. Geary, above announced. Should he be continued in office for another term, the State Debt, at its expiration, will be a very small matter indeed and perhaps entirely cancelled. In the House on Thursday and the Senate

THE DOINGS OF CONGRESS. Congress has adjourned until the 5th prox imo, when it will commence work in earnest, and may sit beyond the fourth of March, should the great public measures either already proposed, or which will be proposed, demand it. This can be done by simply re-pealing the law fixing on the fourth of March as the period of adjournment to some other day, which may be decided on whenever the business before Congress is gone through with.

The Committee on Indian Affairs has reported against transferring the Indian Bureau to the War Department, and favors a separate Department, with a cabinet minister to take charge of our three hundred thousand Indians! This unexpected course has taken many by surprise, and will never be agreed to by the House. It looks very much as though the Senate committee were actuated dred and sixteen dollars and sixty four cents, in its course in recommending another de-

partment by providing an additional high office for somebody to fill, instead of abolishing a useless one now doing a thousand times ing a useless one now doing a thousand times more harm than good. We think, however, that the Senate will not sanction such a measure, but will eventually adopt the reso-lution of the House of Representatives. The Senate has very properly, by a decided majority--38 to 22-rejected a bill making eight hours' labor in Government employ
