SUNBURY, MARCH 4, 1871.

THE editors of the Democrat are again at their old tricks, trying to divert the attention of the taxpayers from the forthcoming Auditor's Report, and publish false statements to accomplish their object. In last week's issue they say : "that a few years ago the County Commissioners were compelled to publish the General Election proclamation in the AMERICAN for which the taxpayers of the county were charged about one third more than was paid the Democrat for publishing the same proclamation, together with the Auditors Report, Bridge notices, notice of appeals, Court Proclamations, &c." At that time it was the duty of the Sheriff to publish the Proclamations the same as now, and paid for the same. The Sheriff of that year was a man who could entertain more than one idea in his head, and for the benefit of the taxpayers he had the proclamation published in papers of both parties. We had given in a proposal to the Commissioners that same year at about 10 per cent, less than the Democrat, for the county printing, which was thrown aside, and the contract awarded to the Democrat at a higher figure, by two of the Commissioners, so when the the most.

sioners have ceased to entrust the owners enacted long ago. of that paper (AMERICAN) with anything in the advertising line." That fact will not be disputed. Since the "Ring" has been formed, and a few men in it run the offices, we have seen proper to expose their schemes in deceing the taxpayers of the county out of thousands of dollars. The Ring, would as a matter of course, cast off an I compensate those who were ready and willing to cover up their sins. Since the Sheriff's Prothonotary, Commissioner's, and two years ago the Treasurer's offices were merged into one grand business operation for the transaction of their affairs of the county, we did not expect to see the county printing given to any but such papers as the Democrat.

Even the Democratic Guard has been ignored, and others substituted. In fact it appears to us that there is an attempt on the part of the Ring to crush all papers that do not connive in the corruption of the "Ring," and comply with their wishes in keeping from the taxpayers of the county, the nefarious conduct about the county offices.

THE TARIFF ON COAL .- A number of the bungling Democratic Free Trade editors, some through ignorance and others high price of coal, in many places, to a high tariff, and of course denounce the doctrine of protection. Now, the fact is, doctrine of protection. Now, the fact is, stance, says: there is no tariff whatever on Authracite and Philadelphia, at the same price at caused by the strike of the miners. Such facts we think, should open the eyes of urate a regin of violence which is destructive of February 27, states that the National of the law-brakers was with the view those who so readlly swallow the stupid free trade newspapers have nothing to say against the combination of the miners to their ticket, but endeavor to make their readers believe, the Depublican party and the tariff, has caused the rise in coal,

MR. BUCKALEW chairman of the Senate committee to investigate the State Printing account has tande a Report that contains many curious and interesting particulars. He says among other things, that necording to the contract for composition and press work, the Public Printing has in the year 1870 only reached a little over 83,000, for work, for which according to the usual market or ruling rates he ought to have received over \$36,060. Yet the Public Printer is growing rich out of the public printing. He also states that the Superintendent never scrutinizes any of the accounts, but allows all the bills as presented without an affidavit or any logal sametion of their correctness, but a brief endorsement of the bills presented. The money is of course made out of the operations, outside of the terms of the contract such as furnishing paper, biquies, and other jobs which are made to pay.

GOOD NEWS FOR THE VETERANS - The Sepate passed, on Tuestay afternoon a bod reported by Senator Wilson, which prowides that all wildlers mestered into the United States service for these years between May 4, 1961, and who were discharged, honorably, before serving two years, by reason of disabillity contracted in the acr- ingdollars bodney. This will be good news to who have been thus far deprived of the the process Governor. bounty to which they were cutitled, by a

THE CENTENNIAL CELEBRATION .-General Cameron, who is indefatigable in whatever he undertakes, says the Harrisburg Telegraph, has succeeded in getting finally through the Senate the House bill providing for a centennial exhibition in Philadelphia in 1876. Mr. Conkling, of New York, exhausted all the arts of Parlia- adopted : mentary warfare against the bill in vain. We have no special interest in the commercial rivalry between New York and Philadelphia-in fact we think there is no real rivalry between them-New York possessing advantages in a commercial way that it is simply impossible for Philadelphia ever to acquire. But then in manufactures Philadelphia leads New York, and each should be satisfied with its position. New York should not have opposed the passage circumstances concurring to make it the more appropriate place : and Philadelphia, on the other hand, had better cease to conwith New York, General Cameron has fully redeemed his promise to carry the centennial bill through the Senate in spite of New York opposition, and the controversy between the two cities having been terminated in favor of Philadelphia by a vote of both houses of the National Legislature, we do not see the necessity of saying much more on the subject.

FOR one thing the free traders deserve proclamation was published in the AMERI- credit, says the Philadelphia Inquirer, and CAN, we were under no restrictions as to that is, to permit no opportunity to pass the price, and told the Sheriff, that to without pressing their suicidal policy on charge our full rates it would amount to the public attention in the most specious \$138, but we would agree to publish it at forms. The present coal strike, which has half rates and he paid us the \$60,00. We as much to do with the tariff as thad the remember too, that one of the editors of the erection of Tenterden Steeple with the for-Democrat raved considerably about it, and mation of the Goodwin Sands, is seized even omitted through ignorance or in adver- upon by the fees of American industry as | ing and razing to the ground dwellings, tance to publish the Court Proclamations, a lever to their cause. "Abolish the duty which was part of his contract-threatened on Nova Scotia coal," they cry "and reto throw up his contract and denounced some of his fellow Democrats as frauds of the little Canadian province is all of the uses the party.
