Rev. D. H. Clark will deliver the third lecture in the course upon Liberal Christianity.

CHRISTIAN.—There will be a lecture in the Court House on Sunday, 12th inst., afternoon and evening.

TO OUR SUBSCRIBERS.—As a number of our subscribers are changing their residence...

OUR FINEST GILBERTSON'S Philadelphia treated us to a sample of Borden's Patent Powder.

Messrs. Wolverson & Parley, have purchased the Sunbury Phosphates Mill, and have procured the services of Mr. Hollings as manufacturer.

An elderly gentleman in stepping off the curb at Watertown, on Thursday evening last, fell across the coupling and had his leg badly crushed.

Mr. M. A. Nicely, of Dewart, had his hand seriously burned on Thursday of last week in endeavoring to warm himself.

Subscribers materials for manufacturing, at the Regulator.

RESOLUTION.—In another column will be found the dissolution of partnership between S. B. Boyer and W. J. Wolverson, Esqrs.

STREET.—Miss L. F. Paggly of Shamokin township, this county, and well known in this place, committed suicide by drowning herself in a pond of water, on Thursday evening of last week.

NUMEROUS HOUSES.—We perceive that a number of houses on Market street, have been numbered.

ACCIDENTS AT THE MINE.—On Friday afternoon of last week, as John Krakowski, a Polishman employed as a laborer at the Bank Ridge Colliery, was ascending an inclined plane inside the mine, he was met by a train of five loaded cars, and being unable to escape, was drawn under the wheels and crushed to death.

ACCIDENTS AT THE MINE.—On Friday afternoon of last week, as John Krakowski, a Polishman employed as a laborer at the Bank Ridge Colliery, was ascending an inclined plane inside the mine, he was met by a train of five loaded cars, and being unable to escape, was drawn under the wheels and crushed to death.

THE COGNAC SHIP, a novelty, elegant and comfortable, at the Regulator.

ANOTHER.—On Wednesday evening last, a Mr. Wm. Strub, a resident of Front street, having embarked to much of the ardent during the day, amused himself in breaking up the furniture of his boarding mistress, when some of the neighbors protested against William's unmanly conduct, whereupon William attempted to demolish each of their heads with stones, for which he was promptly arrested by constable Peller and placed behind the bars of Hotel de Russel on Second street.

AT A special election held at Northumberland on Tuesday of last week, for Chief Burgess of that Borough to fill the vacancy occasioned by the removal of C. B. Smith to Shamokin, A. H. Voss, (Rep.) was elected by 21 majority, over Wm. H. Morgan, (Dem.).

WE notice among the names of the graduates of the Georgetown Medical College, that of our young friend A. Rodriguez, of this place. His many friends here will be glad to hear of the fact that he graduated with the highest honors.

ADD. RUBBER WEAR, of non-manufacturers' prices, at the Regulator.

FLOWERS.—A friend of the other day, near the Post Office, observing several girls waiting their turn to be fitted out with hats, asked us what we thought of the fashion, and observed that when they were not known, they might be mistaken for escaped inmates from some asylum.

THE BARRIERS.—A report lately made by Col. Stimpson, President of the S. & L. R. R., that gentlemen says: "The grading is now almost all completed, and most of the bridges completed and up. Scarcely limited and fifteen feet of the Shamokin River Bridge is now leaving after the trestle work is done, but some houses and fifty feet to be put up, and this will, I feel confident, be up and completed by the time the rail is laid on the balance of the road. The iron has all been contracted for and part delivered, and by the fourth of July I think the line will be open for business."

THAT \$24,000, since there is such great scarcity of money, is much required after. The taxpayers are busily inquired to know what has been done for the county to require such an enormous amount of money during the last year.

THE COURT next week, the report will be published, when all will be glad to learn the facts in the case, where it should be considered like the Grand Jury report was something negative.

A SAFE INSURANCE COMPANY.—We had occasion to call at the office of the Guardian Fire and Marine Insurance company, No. 514 Walnut st., Philadelphia, during a late visit to that city, where we were shown by the obliging Secretary of the company, Col. Charles M. Gilbreath, how the large business operations of that company were transacted. And for the benefit of many who hold policies in this vicinity, we would state that the books and all papers of their transactions were handed to us for inspection, which privilege is granted every policy holder in the company. Among the policy holders we found the names of the principal business men on Chestnut street, and many of the other principal streets in the city—an evidence that where the company is best known they are patronized the best, and that business men generally have entire confidence in their home company. The receipts show that all losses are most promptly adjusted, whether at home or in the remotest State. Their agents appear to be the most active, and the company is destined soon to be one of the leading establishments in the State. Their authorized capital is \$500,000.00 and the paid up capital is \$158,000.00. The assets during last year were \$408,476.25, while their liabilities were only \$8,800. Since the first of January their business has been largely on the increase. During the month of February, the amount received to date for policies issued amounted to \$2,258.26 while there were no losses. The officers are selected from the best business men, and are gentlemen whose entire attention is devoted to conducting the affairs of the company without salary. We left the office fully convinced that it is not only good policy to support home insurance companies, but that the Guardian Fire and Marine Insurance Company is a safe and well conducted institution.

SHAMOKIN TIPS.—We copy the following from the Shamokin Herald of this week: An attempt was made on Monday night to wreck a passenger train on the Shamokin branch of the Philadelphia & Reading R. R., at a point about midway between Shamokin and Mahanoy Plane, by placing railroad ties upon the track. Luckily the obstruction was discovered by the engineer in time to enable him to reverse his engine and avert a catastrophe. There is an embankment at the point where the obstruction was placed, of some 50 feet. The would-be murderers were not discovered.

NORTHUMBERLAND COUNTY COAL TRADE.—The amount of coal shipped from our county for February is 50,250 tons, and for the year 39,099 tons. This is a gain of 1,200 tons for the month of this year, and 6,700 tons for this season.

But little, if any coal is now being shipped east, except some lump and bit. Best from the Mt. Carmel collieries.

Nearly all the coal mined is now sent over the N. C. & W., but the scarcity of cars and orders will oblige some of the collieries to stop, and the others to run only a portion of the time.

ACCIDENT AT THE MINE.—John Cunningham, a miner, was severely injured about the face and hands by an explosion of fire-damp in the Daniel Webster slope, on Friday. He is unharmed. A man by the name of Maguire, who was standing near him, was knocked down by the commotion, but escaped with a few bruises.

BOOTS AND SHOES for the community, at popular prices, at the Regulator.

BOROUGH OFFICERS OF MT. CARMEL.—The following is a list of the officers of Mt. Carmel borough. A permanent organization was effected on Wednesday evening of last week: Chief Burgess—Henry T. John.

Council—Wm. Sterling, Dr. H. Gallek, Michael Hinkel, Isaac Hollister, John F. Heinrich, David Harris.

Secretary—H. D. Rothermel. Street Commissioner—Frank Persing.

Street Commissioners—Wm. Sterling, Dr. H. Gallek, Isaac Hollister.

Borough Treasurer—Henry Hill.

On motion adjourned to meet at the call of the Chief Burgess to appoint police officers for ensuing year.

JUST RECEIVED, a number of popular fronts of French and silk, at the Regulator.

ACCIDENTS AT THE MINE.—On Friday afternoon of last week, as John Krakowski, a Polishman employed as a laborer at the Bank Ridge Colliery, was ascending an inclined plane inside the mine, he was met by a train of five loaded cars, and being unable to escape, was drawn under the wheels and crushed to death, all the cars but one, which was stopped by his body, passing over him. An inquest was held by Esq. Caldwell, on Saturday, and a verdict rendered exonerating the Company and their employees from all blame. Deceased was aged about 40 years.

AT THE Excelsior Colliery on Monday, while engaged in hauling dirt, Louis Fernal fell in some manner in starting off with a load, between the "damp" and the timbers of the shaft, and was injured about the breast and body to such an extent as to cause his death within a few hours. He was aged about 40, and leaves a wife and two children.—Shamokin Herald, March 2d.

I am prepared to give insurance to all who wish their business done with reliable and prompt paying companies. Insurance against Fire and Lightning by L. M. Yoder, Agent, Sunbury, Pa.

We regret to learn that Mrs. Fyrmire, wife of the late Adam Fyrmire, who was killed in the accident at Watertown, received such a shock to her nervous system from that event, as to throw her into a succession of spasms succeeding each other so rapidly, and of such violence, as to cause great fears for her safety. We learn that she is now much better. Mrs. Fyrmire's measure of affliction is indeed heavy, and she has the sympathy of all.—Miltonian.

THE RAILROAD.—A report lately made by Col. Stimpson, President of the S. & L. R. R., that gentlemen says: "The grading is now almost all completed, and most of the bridges completed and up. J. K. KEFFER, Clerk.

We find the following deserved complimentary notice of one of our townsmen in the Sunday Transcript of the 4th inst., published at Philadelphia. Mr. Gosler has been doing a lively business in this part of the county of late for the Guardian Fire and Marine Insurance Company of that city.

AN ENGLISH BUSINESS MAN.—Our country and could friend, Isaac S. Gosler, of Sunbury, Northumberland county, Pa., general agent of the Guardian Fire and Marine Insurance Company, of this city, paid us a visit yesterday. May his laudable conduct be the token of prosperity as it is of his success heretofore in the affairs of "the Guardians," which company, we are happy to say, is increasing beyond our expectations of his numerous friends and well-wishers.

NOTICE.—The members of the Northumberland County Agricultural Society will meet in the Court House at Sunbury, March 13, 1870, at 9 o'clock, P. M., to make arrangements for the next fall.

THOS. BARR, Sec'y.

ATTENTION.—To all whom it may concern. This is to ask your attention to the matters of Life Insurance. Why will you delay a matter of such great importance when by a few cents saved from your income and invested in Life Insurance you can provide against want in old age, or in case of early death, (the numerous accidents show how uncertain life is), who can make a sure provision for those dependent on you, who can begin at home, then all you can, should know, by so doing they provide for themselves and are not a burden on any community. Those who wish to be benefited by insurance should call and examine the merits and see the inducements offered by the Metropolitan Insurance Co. of New York.

All information in regard to insurance given with pleasure.

Editor's Table.

THE LADY'S FRIEND FOR MARCH, 1870.—A charming country gem, "The Lady's Friend" forms the highlight in this month's issue of the Excelsior. Its pages are brilliant and stylish, and the wood cuts, giving a great variety of the latest fashions, must be invaluable to the ladies. A plate of costumes for girls and one for boys supply all that can be desired for children; and as patterns for each garment are supplied easily and cheaply, nothing could be more convenient. The music "Ella M'Wister's" "The Bird Song" is one of our loveliest poems; the admirable story of "Camilla" is concluded; "Bride," and "How H. Hayswood" are lively sketches; and a translation from Elise Pöppel, and "Some remarkable Pictures" are exceedingly interesting. The issue for fancy work is a supply provided for by the Editor's department is one of the most attractive and valuable features of this magazine. An excellent number. Price \$2.50 a year (which also includes a large steel engraving). Four copies, \$6. Five copies, \$7.50. Six copies, \$9. The "Lady's Friend" and the "Saturday Evening Post" (and one engraving), \$4. Published by Benson & Peterson, Philadelphia. Single numbers for sale at all the principal bookstores.

GOSLER'S LADY'S BOOK FOR MARCH has been received. The embellishments for this number commence with a handsome steel plate entitled "Hats and Shawls in the latest styles." There is also the usual colored Fashion Plate, containing six figures in a handsome Alphabet, printed in colors; "Blossed Out," a wood engraving; a plate of Household Receipts, and an extensive series of fashionable costumes.

In the Work Department will be found the usual variety of fancy and useful work. Lamp Glass, a lady's hand in needle, chain-stitch, drawing, knot-trimming, foot-covers, children's clothing, with directions for making; embroidered basket, rose buttons, etc., etc.

We have received of Messrs. Philip & Reynolds, Rochester, N. Y., their beautifully illustrated "Local Guide and Gardener's Manual for 1870." Containing full page cuts of Agriculture, Gardening, Floriculture, and Horticulture, and a list of the most valuable plants, trees, shrubs, and flowers, with directions for their culture. It is a most valuable and interesting work, and is well worth a place in every farmer's or gardener's library. Price 25 cents.

MURDER AT MT. CARMEL.

MT. CARMEL, MARCH 10, 1870.

MESSRS. EDITORS: Our town has been thrown into a great state of excitement, by the perpetration of the most revolting crime ever known in the history of the Coal Region. The particulars as far as I have learned, are as follows:

At or about half-past two o'clock, on Tuesday morning, a party of men (?) entered the house of David Williams on the lower end of Shamokin street, and fired volley after volley at the western end of the building, and the noise occasioned by the firing a panic at the door on the eastern end of the building was kicked in, and a keg of powder placed in the room, a match was applied and in a moment that portion of the building became a total ruin, bringing down with it other furniture to the ground. Fortunately very few of the inmates occupied that portion of the building, and only two of them came down with the ruins, one of them escaped unhurt, the other, George Hoffman, was mortally wounded. Hoffman was shot in the thigh, the ball passing directly through and coming out at the top of his head. He was asleep when shot, and sprang out upon the floor, where he lay until the explosion took place, a few minutes afterwards, and as he was watched, went down with the ruins. He was picked up a short time afterward, and lived but a short time. He leaves a wife and two children at West Shamokin.

Hoffman had served his country faithfully in the late rebellion, spending three years and having been wounded twice, during his term of service.

The man that fell down with the ruins with Hoffman, had been standing behind the chimney to protect himself from the latter, which were coming through the house, and when the powder exploded, he came through to the lower floor in a hurry, the chimney keeping him company.

The people living in the neighborhood did not hear anything of the affair until daylight next morning.

The whole affair lasted but a few minutes, and by the time some of the citizens arrived on the spot, not a sign of one of the attacking party could be seen. The party making the attack must have been very silent in their preparations, as the people living in the neighborhood did not hear anything of the affair until daylight next morning.

The house of David Williams is kept as a boarding house for the men employed at the "Coal Mountain Colliery," F. Roads & Co., and is being worked on the co-operative plan. A few evenings ago a young man named Connor was shot by the high boy named Tiesler. The boy Tiesler works at Roads', and he says Connor attempted to strike him with a Black Jack, and he drew his pistol and wounded him slightly in the thigh.

Our Borough is now patrolled nightly by watchmen, it being the only measure we can take to insure safety.

The coroner's jury got through with their duties on Monday afternoon at five o'clock, in the matter of the death of Hoffman, and their verdict was in accordance with the facts. No arrests have been made, and the neighborhood still remains in a state of alarm, and there is a great deal of terror. How long must these things continue?

Business Notices.

THE EARTHQUAKE.—It has been thought that the latter either did not visit Philadelphia, but either it or somebody very like it must have hit Oak Hall, if we may judge from the upheaving of mountains of fine clothing there, and the swallowing up of low prices, which has been noticed at Wanamaker & Brown's.

Look out for the Spring styles of Boots and Shoes at the Excelsior. W. H. Miller is already preparing to bring in the largest stock ever brought here. Can't you guess at his Store to get the latest style as well as the best material. Every kind of men's, women's and children's make on hand.

If you want a cheap and good suit of clothes made up, go to J. E. Smick, who is now selling out to make room for his Spring stock. Every style of goods on hand, and which will be made up to order at the shortest notice.

PIANO STOOLS.—A new and handsome article, covered with hair-cloth and top, green and red, just received, and for sale very cheap by H. B. Masser. Price, \$6.

PIANOS AND ORGANS.—The subscriber, agent for the best Pianos and Organs in the world, will guarantee them for five years and sell the cheapest than any traveling agent can afford them. But first-class makers employ no such agents. H. B. Masser.

THE new styles of hats at S. Faust's Store are admired by everybody. He keeps a splendid assortment to select from, and all of good quality and the latest styles.

A DESIRABLE RESIDENCE, located on one of the principal streets in the Borough of Sunbury, is offered for sale on the most reasonable terms. Apply at this office.
