If the Ring can hire another "Tax Payer," to cipher up their case, they may succeed in throwing dust in the eyes of a few and their chances of being retained in office may be somewhat better than now.

A FREE TRADE DODGE .- One of those stupid inventions, frequently found in Democratic Journals, sometimes published through ignorance, but more frequently through design, we observed last week in amount of duty imposed by the tariff which amount the writer assumes that every farmer or consumer has to pay as an additional tax on the article. Now, we have only to say, that an editor who is not a knave, and does not know any better, should be employed in some other vocation. Every intelligent Journalist knows, if he knows anything about the operations of the tariff, that many protected articles, manufactured in this country, have been reduced in price by competition and superior skill, so as to sell below even the rates of the tariff. Our manufacturers have undersold the British in the article of muslin in their own possesarticle for the same money, and have sold when the tariff amounted to that sum. We have bought nails \$2.3 ets per lb. and vet the tariff that set us to making nails amounthemselves were obliged to adopt our inventions to save their manufacturers, and markets. This was also the case in the manufactures of wood screws, and other articles. They can only undersell us by employing chean labor and other supplying chean labor and other supplyin employing cheap labor, and our Democratic papers are saying in effect that our laborers and mechanics must work at reduced wages in order to compete with foreign manufacturers. Such are the arguments of modern Democracts backed up by fraud ing dreamers of Democratic and Republiignorance and stupidity.
