BALTIMORE LOCK HOSPITAL
DR. JOHNSTON.
Physician of this celebrated Institution, has
discovered the most certain, speedy, pleasant and
effective remedy in the world for all
DISEASES OF IMPUDENCE.
Weakness of the Urinary System, Stricture,
Affecting of Kidneys and Bladder, Involuntary
Discharges, Impotency, General Debility,
Nervousness, Dropsy, Languor, Low
Spirits, Confusion of Ideas, Inflammation of
the Heart, Trembling, Dimness
of Sight or Giddiness, Disease of the Head,
Weakness of the Stomach or Bowels, those terrible Disorders
arising from the Solitary Habits of Youth—those
secret and solitary practices more fatal to their
victims than a long and dangerous Venereal
Ulcer, blighting their most brilliant hopes
of anticipations, rendering marriage, &c., impos-
sible.
YOUNG MEN
especially, who have become the victims of Solitary
Vice, that dreadful and destructive habit
which annually sweeps an immense grave
thousands of young men of the most exalted
talents and brilliant intellect, who might otherwise
have entranced listening Senators with their
eloquence, or crowded the Universities of
Ulysses, blighting their most brilliant hopes
of anticipations, rendering marriage, &c., impos-
sible.

MARRIAGE.
Married Persons, desiring to contemplate
marriage, aware of Physical Weakness, (Loss
of Procreative Power—Impotency), Nervous Ex-
citability, Palpitation, Organic Weakness, Ner-
vous Debility, or any other Disqualification,
speedily relieved.
He who places himself under the care of Dr. J.
JOHNSTON, who has cured thousands of his
patients, will be fully satisfied as to his
ability and conscientiously rely on his skill as a
Physician.

ORGANIC WEAKNESS,
Impotency, Loss of Power, immediately Cured
and full Vigor Restored.
This Distressing Affection—which renders Life
miserable and marriage impossible—the penalty
paid by the victims of Impure Indulgence.
Young persons are too apt to commit excesses
from not being aware of the dreadful consequences
that must ensue. Now, a remedy is discovered
the subject will proceed to deny that the power
of procreation is lost sooner by those falling into
improper habits than by the prudent! Besides
being deprived of the pleasures of healthy offspring,
the most serious and destructive symptoms to both
body and mind arise. The system becomes disor-
dered, the Physical and Mental Functions
are deranged, the Vigor of the mind is impaired,
Irritability, Dyspepsia, Palpitation of the Heart,
Indigestion, Constitutional Debility, a Wasting
of the Frame, Cough, Consumption, Decay and
Death.

A CURE WARRANTED IN TWO DAYS.
Persons ruined in health by unlearned pre-
tenders who keep them trifling with a course
of taking poisonous and injurious compounds,
should apply immediately.
DR. JOHNSTON,
Member of the College of Surgeons, London,
Graduated from one of the most eminent
Colleges in the United States, and the greater
part of whose life has been spent in the hospi-
tal, where he has witnessed the progress of
this disease in hundreds of cases, and has
had opportunity to try the most astonishing
cures that were ever known; many troubled with
ring-bow, and can afford to guarantee a
cure, in every case, unless the system is
nervously, being alarmed at sudden sounds,
bashfulness, with frequent blushing, attended
sometimes with derangement of mind, were cured
immediately.

YOUNG MEN
Who have injured their health by a certain
practice indulged in when alone, a habit frequently
learned from evil companions, or at school, the
effects of which are nightly felt, even when
asleep, and if not cured, render marriage impos-
sible, and destroys both mind and body, should
apply immediately.
What a pity that a young man, the hope of his
country, the darling of his parents, should be
snatched from all prospects and enjoyments of
life, by the consequence of deviating from the
path of nature and indulging in an unwholesome
habit. Such persons must, before contemplating
marriage, reflect that a sound mind and body are the most
valuable requisites to a permanent and happy
marriage. Indeed without these, the journey through
life becomes a weary pilgrimage; the prospect
hourly darkens to the view; and the future
clouded with gloom, and filled with the mel-
ancholy reflection, that the happiness of another
is made blighted with our own.

MARRIAGE.
When the misguided and imprudent votary of
pleasure finds that he has imbibed the seeds of
this painful disease, it too often happens that
he is at once deterred from contemplating
marriage, and deters him from applying to those who,
from education and respectability, can alone befriend
him, delaying till the constitutional symptoms of
this horrid disease make their appearance, such
as ulcerated sore throat, diseased nose, nocturnal
pains in the head and limbs, dimness of sight,
deafness, nodes on the neck, bones and
kneecaps on the head, face and extremities, pro-
gressing with frightful rapidity, till at last the
palate of the mouth or the bones of the nose fall
in, and the victim of a disease, in a sense, beyond
a horrid object of commiseration, till death puts
a period to his dreadful suffering, by sending him
to that Undiscovered Country from whence
no traveler returns.
It is a melancholy fact that thousands DIE
victims to this terrible disease, through falling
into the hands of ignorant and unskilful PRE-
TENDERS, who, by the use of that deadly Poi-
son, Mercury, &c., destroy the constitution, and
incapable of curing, keep the unhappy sufferer
in a state of agony, taking their notions of
renewal of Life Vigor and Happiness, in de-
spite of the fact that the disease is incurable.

DR. JOHNSTON
Left hand side going from Baltimore Street, a few
doors from the corner. Fall not to observe name
and number.
If you receive notices unless postpaid and
containing a stamp to be used on the reply. Per-
sons writing should state age, and send a portion
of advertisement describing symptoms.
There are so many impostors, despoiling and
worthless impostors advertising themselves as
Physicians, trifling with and ruining the health
of all who unfortunately fall into their power,
that Dr. JOHNSTON has deemed it necessary to
publish his Credentials as a Physician, and
to issue his Certificates or Diplomas always
bearing his name and address.

ENDORSEMENT OF THE PRESS.
The many thousands cured at this Establish-
ment, most of them cured at the Dispensary,
attend the Surgical Operations performed by Dr.
JOHNSTON, witnessed by the representation of the
press and many other papers, and the fact that
Dr. JOHNSTON has never appeared before the public,
besides his standing as a gentleman of character
and responsibility, is a sufficient guarantee to
the public.
SKIN DISEASES SPEEDILY CURED.
February 15, 1871-ly.

Select Poetry.
BETSEY AND I ARE OUT.
BY WILL M. CARLTON.
Draw up the papers, lawyer, and make 'em good
and stout!
Things at home are cross-ways, and Betsey and I
are out.
We have worked together so long as man and
wife,
Must pull in single harness, the rest of our nat-
ural life.
"What is the matter?" say you, I swan! It's
hard to tell!
Most of the years behind us, we've passed by very
well;
I have no other woman—she has no other man,
Only we've lived together as long as ever we
could.

So I have talked with Betsey, and Betsey has
talked with me.
And we've agreed together that we can't never
agree.
Not that we've enticed each other in any terri-
ble crime;
We've been gathering this for years, a little at
a time.
There was a stock of temper, we both had for a
start—
Thought you'er suspected 'I would take us two
apart;
I had my various feelings, bred in both flesh
and bone.
And Betsey, like all good women, had a temper
of her own.
The first thing I remember, whereon we dis-
agreed,
Was something concerning Heaven—a difference
by out of the thing at breakfast—we argued the
thing at tea,
And the more we argued the question, the more
we didn't agree.

And the next that I remember was when we lost
a cow.
She had kicked the bucket for certain—the ques-
tion was only how?
I held my own opinion, and Betsey took another
view.
And when we were done a talka' we both of us
was mad.
And the next that I remember, it started in a
joke;
But for full a week it lasted, and we neither of us
broke a bowl;
And she said I was mean and stingy, and had
my soul.
So that bowed old pourin' dissensions in our
cup;
And that blamed old cow, was always a com-
in' up.
And so that Heaven we argued about; no nearer
us got;
But it gave us a taste of something a thousand
times as hot.
And so the thing kept workin', and always the
self-same way;
Always something to argue' and something sharp
in our ear.

And down on us come the neighbors, couple of
dozen strong,
And lent their kindest service for to help the
thing along.
And there has been days together—and many a
time—
With both of us cross and sponky, and both too
proud to speak;
And I've been thinkin', and thinkin', the whole
of the Winter and Fall,
If I can't live kind with a woman, why then I
won't at all.

And so I have talked with Betsey and Betsey has
talked with me,
And we've agreed together, that we can't never
agree.
And what is hers shall be here, and what is mine
shall be here.
And if it is in the agreement, and take it to
her to sign.
Write on the paper, lawyer—the very first para-
graph—
Of all the farm and live-stock, that she shall have
her half;
For she has helped to earn it, through many a
weary day;
And it's nothin' more than justice that Betsey has
her give.
Give her the house and homestead—a man can
thrive and roam;
But women are skerry critters, unless they have
a home.
And I have always determined, and never failed
to say,
That Betsey should never want a home, if I was
taken away.

There's a little hard cash, that's drawn 'to' tra-
ble pay;
Complete of hundred dollars that's laid up for a
rainy day,
Safe in the hands of some good man, and easy to
get at;
Put in another clause right there, and give her
half of that.
Yes, I see that you smile, sir, at my girl's' her
so much,
I know dollars are cheap, sir, but I take no
stock in such.
True and fair I married her, when she was blithe
and young,
And Betsey was always good to me excepting
with her tongue.

Once, when I was young as you, and not so
smart perhaps,
For she also mentioned a lawyer, and several other
chaps;
And all of 'em was flustered, and fairly taken
clean.
And I for a time was counted, the luckiest man
in town.
Once, when I had a fever—I shall not forget it
was hot—as a baked turkey, and as crazy as a
goat;
Never an hour went by me, when she was out of
sight;
She nursed me true and tender, and stuck to me
day and night.
And if ever a house was tidy, and ever a kitchen
clean,
Her house and kitchen was tidy, as any I've ever
seen.
I do not complain of Betsey, or any of her
excesses,
Except when we've quarrelled, and told each
other facts,
So drew up the paper, lawyer, and I'll go home
to night.
And read the agreement to her, and see if it's all
right;
And when the mornin' I'll sell, to a tradin'
man I know,
And kiss the child that was left us, and out in
the world I'll go.

And one thing put in the paper, that first to me
didn't occur,
Was when she was dead at last, she bring me back
to her,
And lay me under the maples I planted long
years ago,
When she and I were happy, before we quarrelled
so.
And when she dies, I wish, that she would be
gone,
And I'd together in silence, perhaps we would
agree.
And if ever we meet in Heaven, I wouldn't think
quest,
If we loved each other better, for what we have
quarrelled here.

Immense deposits of canal coal, of the
most valuable description, have been found
on the mainland of Alaska and on the
Aleutian Islands, within a few hundred
yards of an excellent harbor.

Miscellaneous.
Protection of Food Fishes.
AN Act for the protection of salmon, black bass
and other food fishes newly introduced into
the rivers Delaware and Susquehanna, and
their tributaries; for the protection, also, of
close against unlawful fishing and to prevent
the introduction of predatory fishes into trout
streams, and for other purposes.

SECTION 1. Be it enacted, etc., That from
and after the passage of this act, it shall be
unlawful for any person or persons to
catch or kill, by any means or device what-
soever, any salmon, or salmon or salar,
Crister salmon, commonly known as
black bass of the south, or southern bass,
in the Delaware or the Susquehanna river,
where said streams are under the jurisdic-
tion of this state, or in any of the count-
ies tributaries, until the first of August.
Provided, nevertheless, That the incidental
taking of salmon or Crister salmon, com-
monly called black bass of the south,
shall not be construed to be a violation of
this act if the same shall be introduced
retained into said river and tribu-
taries.

SECTION 2. That the fact of any person,
or persons, having such salmon, salmo, sa-
lar or Crister salmon, commonly called
black bass of the south, or southern bass,
in any or either of the counties bordering
upon the Delaware or Susquehanna rivers
or their tributaries, shall be accepted as
prima facie evidence of their having been
taken from the said rivers, or their tribu-
taries, or introduced from any other source,
violation of the provisions of said sec-
tion of the act, Provided, that such fishes
shall be at the disposal of their own-
ers.

SECTION 3. That nothing in this act, or any
of the sections of the act contained shall
be construed as to prevent the commis-
sioner or commissioners of fisheries of
state's riparian to the said streams from
obtaining fishes aforesaid from the said
streams for the purpose of stocking other
water-courses in the state, or from de-
stroying the same in the sections of the
act.

SECTION 4. Any person or persons violating
any of the provisions contained in either of
the first two sections of this said act shall,
upon conviction thereof before any justice
of the peace, pay a fine of five dollars for
each and every fish taken or in possession
without being able to prove that they
were not taken from the said rivers or
streams; or one half of the said fine to go to
the prosecutor, and the other half to the
school directors of the school district in
which the offences shall have been com-
mitted; and in addition, to the said fines,
there being had in possession, for school
purposes only, and in default of the pay-
ment of the said fine, to undergo an impris-
onment in the jail of the county in which
they shall have been convicted for a space
of ten days. The said fines to be paid for
and recovered as debts of like amount as by
law recoverable.

SECTION 5. The species commonly known as
Susquehanna salmon, pike, perch, jack
salmon, and by the scientific name of Stig-
matedium Americanum, shall henceforth not
be taken in any of the sections of the act,
included in this act during their spawning
time; that is to say, between the first of
February, and the first of June in any one
year, and the mode of proof of such taking,
and the penalty for the same, shall be the
same as provided for the case of the salmon
and the black bass in this act.

SECTION 6. And the said fines and pen-
alties in the preceding sections of this act
shall apply equally to the taking of any
newly introduced and approved fishes not
previously known as inhabiting the said
streams or any of their tributaries, includ-
ing the Schuylkill river, for a period of
three years from the said introduction or
planting. Provided, That citizens of this
state introducing or planting the said fish-
es alive in the said waters at their own ex-
pense, or planting such fish lakes at the
public expense, shall have given public no-
tice of the fact, its date and date, with
reference to this act in one or more public
journals of the county within the jurisdic-
tion of which the planting shall have taken
place, by advertisement or gratuitous notice
for the length of time ordinarily deemed
sufficient, and in such notice the genus
and species of the fish planted shall be in-
telligibly described so that there can be no
mistake as to its identity, its accepted sci-
entific name or names, as in the case of
the salmon, or black bass, or any of the
well as the English language to be deemed
and taken, however, as sufficient. And
provided such planting be approved in
writing by the commission of inland fish-
eries of the state, or in case such commis-
sion shall not exist, then by any resident
judge of any of the said counties.

SECTION 7. No person shall place in any
fresh water stream, lake or pond, without
the consent of the owner, or in shore wa-
ters and estuaries with the rivers debouch-
ing into them, any lime or other deleteri-
ous substance with the intent to injure fish-
es alive in the said waters, or with intent
to poison or catch fish, nor place in
a pond or lake stocked and inhabited by
trout or black bass any drug or other deleteri-
ous substances with intent to destroy such
trout or bass, nor place in any fresh
water pond or stream stocked with brook
trout, any lime, pickers, black bass or rock
bass, or other piscivorous fish (salmon ex-
cepted), without the consent of the owner
or owners of such lands upon which such
pond or stream is situated. Any person
violating the provisions of this section shall
be deemed guilty of a misdemeanor, and
shall, in addition thereto, and in addition
to any damage he may have done, be lia-
ble to a penalty of \$100.

SECTION 8. No person shall at any time,
with intent so to do, catch any speckled
brook trout, or any speckled river trout,
or any device save only a hook and line,
and no person shall catch any such trout
in a pond or lake stocked and inhabited by
trout or black bass any drug or other deleteri-
ous substances with intent to destroy such
trout or bass, nor place in any fresh
water pond or stream stocked with brook
trout, any lime, pickers, black bass or rock
bass, or other piscivorous fish (salmon ex-
cepted), without the consent of the owner
or owners of such lands upon which such
pond or stream is situated. Any person
violating the provisions of this section shall
be deemed guilty of a misdemeanor, and
shall, in addition thereto, and in addition
to any damage he may have done, be lia-
ble to a penalty of \$100.

sions of this act contained, from and in-
cluding the sixth section to the end thereof,
may be presented by any citizen of the
county in which said violation shall take
place, before any justice of the peace or
court of common pleas or quarter ses-
sions in and for said county, and funds
paid as penalties shall be equally divided
between the school directors of the proper
district, for school purposes only, and the
complainant or informant.

SEC. 11. On any of the streams or parts
of streams contemplated by this act, and
under the jurisdiction of this common-
wealth, to which anadromous or migratory
fishes shall now have access by the non-ex-
istence of dams or by the opening of such
dams, whether intended or not to facilitate such
access, and in whatever of the reaches or
spaces below or between dams such plant-
ing of new species shall have taken place,
as herein contemplated, the sheriffs of
the counties having jurisdiction of said streams,
whenever they shall discover or be in-
formed of the existence of such contrivances
for the catching of fish as are commonly
known as fish baskets, ot wells, kiddies,
trush or fishing nets, or any other imper-
manently set means of taking fish in the
nature of a sieve, which are known to be
wasteful and extravagant modes of fishing,
the said sheriffs shall give ten days' notice
in two newspapers of their respective coun-
ties that the said contrivances be removed
to exist, and are declared common nuis-
ances, ordering them to be dismantled
by their owners and managers so as to
render them no longer capable of taking or
injuring the fishes of the stream of what-
ever kind, and at the expiration of said
ten days, the said dismantling shall not
have taken place, then the said sheriffs
shall proceed with such force and good
men of the county as may be necessary for
the purpose, and destroy or dismantle the
said fish baskets, or other devices of such
other devices contemplated by this section,
so that they may be no longer capable of
taking or injuring fish, and the accounting
officers of the counties shall make good
the cost of the said proceedings to the said
sheriff or sheriffs in the sections of this
act. Any person or persons violating any
of the provisions contained in either of
the first two sections of this said act shall,
upon conviction thereof before any justice
of the peace, pay a fine of five dollars for
each and every fish taken or in possession
without being able to prove that they
were not taken from the said rivers or
streams; or one half of the said fine to go to
the prosecutor, and the other half to the
school directors of the school district in
which the offences shall have been com-
mitted; and in addition, to the said fines,
there being had in possession, for school
purposes only, and in default of the pay-
ment of the said fine, to undergo an impris-
onment in the jail of the county in which
they shall have been convicted for a space
of ten days. The said fines to be paid for
and recovered as debts of like amount as by
law recoverable.

SECTION 14. Any person or persons violat-
ing any of the provisions contained in either
of the first two sections of this said act shall,
upon conviction thereof before any justice
of the peace, pay a fine of five dollars for
each and every fish taken or in possession
without being able to prove that they
were not taken from the said rivers or
streams; or one half of the said fine to go to
the prosecutor, and the other half to the
school directors of the school district in
which the offences shall have been com-
mitted; and in addition, to the said fines,
there being had in possession, for school
purposes only, and in default of the pay-
ment of the said fine, to undergo an impris-
onment in the jail of the county in which
they shall have been convicted for a space
of ten days. The said fines to be paid for
and recovered as debts of like amount as by
law recoverable.

SECTION 5. The species commonly known as
Susquehanna salmon, pike, perch, jack
salmon, and by the scientific name of Stig-
matedium Americanum, shall henceforth not
be taken in any of the sections of the act,
included in this act during their spawning
time; that is to say, between the first of
February, and the first of June in any one
year, and the mode of proof of such taking,
and the penalty for the same, shall be the
same as provided for the case of the salmon
and the black bass in this act.

SECTION 6. And the said fines and pen-
alties in the preceding sections of this act
shall apply equally to the taking of any
newly introduced and approved fishes not
previously known as inhabiting the said
streams or any of their tributaries, includ-
ing the Schuylkill river, for a period of
three years from the said introduction or
planting. Provided, That citizens of this
state introducing or planting the said fish-
es alive in the said waters at their own ex-
pense, or planting such fish lakes at the
public expense, shall have given public no-
tice of the fact, its date and date, with
reference to this act in one or more public
journals of the county within the jurisdic-
tion of which the planting shall have taken
place, by advertisement or gratuitous notice
for the length of time ordinarily deemed
sufficient, and in such notice the genus
and species of the fish planted shall be in-
telligibly described so that there can be no
mistake as to its identity, its accepted sci-
entific name or names, as in the case of
the salmon, or black bass, or any of the
well as the English language to be deemed
and taken, however, as sufficient. And
provided such planting be approved in
writing by the commission of inland fish-
eries of the state, or in case such commis-
sion shall not exist, then by any resident
judge of any of the said counties.

SECTION 7. No person shall place in any
fresh water stream, lake or pond, without
the consent of the owner
