IT is a healthy sign to note the interest which the people are now taking in Constitutional r. form, and we anticipate therefrom the best results, but we must be particularly careful in the selection of men to represent us in the convention to revise and amend the Constitution. We must have our most wise, pure, liberal and hon-est men to act as such delegates; men who have our most wise, pure, liberal and honcannot be bought by corrupt speculators or awed by ignorant mobs. The selection of these delegates will be the most delicate part of this work.

It will be remembered that last winter the Democracy in making the apportion-ment for members of the Legislature, violated all consideration of population, geo-graphical boundary, and did not conceal their purpose to be a gerrymander to keep the Republican party out of power in the A STREET PREACHER MORDED.—The Rev. A. P. Devlin, anti-Popery lecturer, weeks to accomplish this unfair object. The consideration of the apportionment bill was utterly neglected in the Senate, and no business of any kind allowed to progress until Mr. Wallace and his friends ate. There was no attempt at concealing this purpose. The work to accomplish i wounded him severely in the head, when he made his escape by the aid of an officer. They have lost a prize to secure which they resorted to every corrupt in-vention, and the precedents they made during the madness and intollerance of their brief hour of power, are destined to prove their worst punishment. Already the Democracy are protesting that an unthe Democracy are protesting that an un-fair Congressional apportionment is con-templated by the Bepublican leaders in the Legislature. Why ? Simply because the guilty party now fears retaliation. After the unreasonable and unmanly course of the Democratic majority in the Senate of last winter, it is imagined Repub-lican control of the same body will score lican control of the same body will resort to the same acts. But in this our oppo-nents will be disappointed. The Republi-can party never resorts to official power for purposes of political revenge.

the Democratic editors are crying aloud for new leaders, and others are demanding new principles. It reminds us of the chap who had a knife, and breaking the blade had a new one pat in the old handle ; he then broke the handle and had a new one substituted. The question with him then was, "is this the same knife I had originally ?" He finally concluded it was not. With new leaders and new principles would our defeated and disconsolate Democrats still be the Democratic party ?

C. T. Yerkes, Jr., & Co., stock brokers of Philadelphia, failed to a heavy amount last week. The cause of the failure is said to have been caused by the Chicago fire, the firm holding heavily in stocks that were depreciated by that calamity. The city of Philadelphia had deposits with it stated that Mr. Mackey, State Treasur-er, promptly paid the \$150,000 into the State Treasury, and took the individual risk of recovering it from Yerkes & Co.

WHAT THE CHICAGO FIRE DID .-- It is said that there is not a single indictment left against any accused person in Cook county, Illinois, which is certainly a piece of good fortune for some rogues. But, on the other hand, the lawyers have suffered severely. Hardly a law library or law office is left ; not a paper to show that there is a suit pending in any of the six courts of the county. Not a judgment, not a petition in bankruptcy in the Federal courts. And worse yet, so far as is known, all the records of deeds and mortgages are destroyed.

The forest dres in the Northwest have been extinguished by recent rains. Con-tributions to relieve the sufferers are being started throughout the country. Though the publicry loss by these fires is much smaller than that by the Chimago catas-trophe, the loss of life and amount of hu-man suffering is far greater. The Secre-tary of War has authorized General Sheridua to relieve, as far as in his power, the suffirers by these fires.
