JOSEPH JOHNSON, a highly respected citizen of Northumberland, died at that place on Saturday, the 6th inst. He was an enterprising business man, and was greatly esteemed as a friend to the poor. His death has cast a gloom over the entire community.

A black snow squall during the greater part of Monday last, was a reminder that "winter" still "lingered in the lap of Spring."

The present Spring has been extremely backward. Last season the budding trees, flowers, grass and grain fields had nearly six weeks the start, so far as appearances were concerned.

We direct attention to the advertisement of Messrs. Clement & Dissinger, who have opened a splendid assortment of all the household goods to the city markets. Their store is filled, and everything in the goods line can be had at the most reasonable terms. Look to your interest and call and see their stock.

Those desiring to witness a splendid assortment of Millinery Goods, will have their wish gratified by calling at the Millinery store of Miss M. L. Gosler. Beautiful goods adorn the entire establishment, and a choice can be made in style and price. Call and see them.

MR. SAMUEL CONRAD called upon us this week and contradicts the report given us two weeks ago, that he had knicked his wife's eye out, and acknowledges of mistreating her, and says he will do so again if she does not behave herself.

A FILE of cord wood belonging to the Northern Central Railroad Company, at Mulberry station, caught fire from a passing locomotive, and was consumed, on Saturday last. The house of Mr. Hetrick, near by, was in great danger, the roof having been set on fire at several places, but fortunately was extinguished without doing any material damage.

JUST RETURNED—Miss L. Shisler has just returned from Philadelphia with a general assortment of Millinery Goods, which are not excelled. All the latest styles, both French and American, may be seen at her magnificent store, and procured at the most reasonable price. See advertisement.

THE fine Millinery goods at Miss L. Weiser's store have been attracting the attention of ladies during the past week. Her splendid selection is admired by all. Her stock being very large, there are still great bargains to be made by calling early.

NEW GOODS—A large and well selected assortment of Dry Goods, Notions, Groceries, Furnishing Goods, &c., has just been opened at store of Keefe & Gass, on the corner of Fourth and Market streets. They have a general variety, which are sold very cheap for cash. Call and be convinced that you can buy cheaper at their store than elsewhere. Advertisement next week.

A POLICE—We notice that a policeman from Philadelphia, has been placed on duty at the depot at this place by the Railroad Companies for the protection of the passenger travel, getting in and off the trains. The boys who have been congregating about the depot, and hanging on cars on the departure of trains, had better make themselves scarce if they do not desire to take a peep at the lock-up. The appointment of such an officer was highly necessary, and will prove very beneficial to the companies as well as the traveling community.

THE river has been in excellent rafting order for a week past, and we noticed a large number of rafts passing this place, on their way to market.

D. H. & W. R. R.—The Lessees of this road are about putting on several more trains. The fare from Sunbury to Hazleton has been reduced from \$2 45 to \$1 90 and the freight rates have also been changed. An active agent has been placed at this station, and it is very evident that the management of the road will be such as to promote the increase of business along the line of the D. H. & W. R. R.—Riverville.

HAMS, shoulders, dried beef, and fish of the first quality are sold at Trimble's.

A LARGE assortment of boots and shoes are just being opened at the Excelsior boot and shoe store of Wm. H. Miller, on Market Square. He has a general variety to select from, and all of the latest Spring style. Call and see them.

OUR BOROUGH COUNCIL AND IMPROVEMENTS. The Borough Council elected this Spring, were happy to say, are determined to bring about a different state of affairs in this town. Being composed of energetic business men they desire to place the town on a level with other towns of progress and enterprise.

The council they resolved to enclose with an iron fence, and adorn the vacant space on Market Square, and have already commenced the work. Soon we may expect a fine park where lumber and building material was found lying about miscellaneous for fifty years past to the utter disgust of all who felt a pride in the town. It was also resolved to erect street lamps in every part of the town as rapidly as the gas pipes are laid down in the different streets, and to appoint night police. These improvements are no more than reasonable, as we must show some degree of enterprise if we desire to attract the attention of business men to locate here.

When we look to our western cities and find that rapidly they have built up and beautified their towns, we cannot help but deplore that so little spirit of enterprise is left in towns that have been in a half dormant state nearly a whole century. We therefore hope that the present council of Sunbury, who appear to have the grit, will continue in their enterprise and make this place what it should and could have been twenty-five years ago. There is no town in the State that has more natural advantages to induce business men to invest, and if a spirit of improvement is shown by our citizens, we will soon find additions by those who will come from abroad, and the town will grow into a city. It is but a few years since the lines of the city have been extended, and already we find progress made in the building of houses and business places as far as the bridge leading to our sister town Northumberland. Let the citizens of that town also enter into the same spirit, and improve, and we, before many years, see the two towns situated similarly to Pittsburg and Allegheny city, with her manufactures located upon the banks of the river.

We learn too that the present council propose to inaugurate a different state of affairs in our borough matters generally, and the contemplated improvements will be made on the most economical plan, and the people be informed of every cent that will be expended. This will be most gratifying, and we feel assured that when they have completed their work that but few will object to paying their proportion of the taxes, as every cent of money expended in these improvements will greatly enhance the value of property everywhere. Let the good work of improvement go on, and we may soon expect capitalists from abroad who will aid in making still more substantial ones to build up our town.

NATIVE GENIUS.—Sometime last week we were shown a small locomotive, which we consider one of the most wonderful pieces of workmanship we have ever seen. Everything about it was built upon a plan, and every part belonging to a large locomotive was shown, from the whistle, bell and safety valve, to the reverse levers attached to the links. All were fitted up to the square, polished off, and worked with the ease and precision required for a locomotive pulling its train of a hundred cars. This beautiful little machine is 2 feet long from the extreme point of the pilot to the end of its cab. Its gage on the track is 4 feet; its height to the top of stack 1 foot; width of its cab 7 1/2; length of cab 3 1/2; diameter of driving wheels 4; do. of truck wheels 1 1/2; length of the boiler which is supplied with six tubes, 15 inches; diam. of same 3 1/2; stroke 1 1/2; and fire box 1 1/2. It is supplied with a little pump of exact workmanship. The boiler is covered with a copper jacket, and the whole machine weighs about 43 pounds. It had the power to draw a small car containing two men, but the weight was lacking.

What is most noticeable in regard to the matter is that it was built by a young man named Franklin Singer, who knew nothing about locomotive building, and what the time he was constructing it was learning carriage painting, and finished his apprenticeship about the time he completed his labors on his machine, four weeks ago, having consumed the leisure hours of four years in its construction. His father resides in Berryburg, a hamlet located among the mountains in the upper end of Dauphin county, and is a blacksmith by trade. The only training to which he is subject, he received in his father's smith shop, and as the work done there was of the roughest character, he received, of course, but little knowledge which would benefit him in the construction of a miniature machine of so much beauty of workmanship, and exactness in its formation. We were informed that the only tools he employed in constructing it were a drill, files and a hand hammer. He lived four miles from the railroad station, and when compelled to examine any unremembered part, he would travel that distance for that purpose. He completed the work at 18 years of age, and finished it at 22.

About four years ago this same boy walked to Sunbury from Berryburg, a distance of 28 miles, for the purpose of getting into the machine shops of the P. & E. R. R., to learn to be a machinist. His intellectual and personal appearance did not make a very favorable impression upon the then Superintendent of the works. In speech he drags his words along at a very slow rate, and as he comes from a German district, though of native birth, his language is a little broken. He is also slow in motion. In consideration of all this the Superintendent dismissed him with the remark, that he did not think he had heard enough, and that he wanted no boy. He went home with a heavy heart, fully resolved that if he could not be taught to build locomotives he would build one anyhow—and that he has done so all most admit who saw his pretty little engine.

AN ATTEMPT AT HOUSE BREAKING.—An attempt was made on Saturday night last, to break into the residence of John R. Kaufman, Esq., of Lower Augusta township. The thieves were discovered by the inmates of the house who gave an alarm, when the rascals fled without doing any damages. A similar attempt was made about a year ago on Mr. Kaufman's residence.

A POLICE—We notice that a policeman from Philadelphia, has been placed on duty at the depot at this place by the Railroad Companies for the protection of the passenger travel, getting in and off the trains. The boys who have been congregating about the depot, and hanging on cars on the departure of trains, had better make themselves scarce if they do not desire to take a peep at the lock-up. THE FIRE—FOURTEEN BUILDINGS DESTROYED. FOURTEEN FAMILIES THROWN INTO THE STREETS.—CAUSE OF FIRE UNKNOWN.—On last Monday morning, April 15, our borough was visited by the most destructive fire that was ever witnessed in this place. At about four and a half o'clock it was discovered that the "Douty House" was on fire, and the alarm given, when hundreds of men, women, and children rushed to the scene. Having no fire engines to bring into service, the only expedient was to carry water in buckets, and the fire gained so rapidly, that it was in a short time communicated to the building of Mr. Jeremiah Zimmerman, on the East side of Rock street, and when once started there, it was completely unmanageable. Water was freely used, and small buildings pulled down, but all of no avail. The fire raged furiously. The whole square, bounded by Sunbury street on the South, Dewart street on the North, Rock street on the East, was consumed, with the exception of the brick buildings of Mr. F. M. Keener, and a frame warehouse standing in the center. The north of this square, it crossed Dewart street, and consumed two dwellings belonging to Messrs. Samuel Smalk & Daniel Startzel. At the North-east it crossed Shamokin street, and consumed a new dwelling, owned by Mr. James Selbert, and occupied by Mr. John L. Hammer. The property destroyed in the above described square, was owned by Messrs. Jeremiah Zimmerman & Samuel B. Smalk, consisting of dwellings, smaller buildings occupied as places of business, and their stabling. A dwelling owned by the Messrs. Fagely, occupied by Mrs. Cleaver, and the stabling, and a warehouse owned by Mr. Wm. R. Kutzner, all of which were totally consumed. The "Douty House," together with the office and stabling, was also burned to the ground. It was with great difficulty that the residence of Messrs. John B. & Wm. H. Douty was saved, having also been on fire. The Post Office and the "Brown Stone Front," were also on fire and with great difficulty saved. The residence of Mr. Wm. Fagely too, was in great peril. The brick building of Mr. Wm. R. Kutzner, was also on fire, and almost despaired of being saved. The United States Hotel, owned and occupied by Mr. Jacob Mowry, was several times on fire. The house occupied by Lewis Hummel, too, was at one time on fire. The last two buildings named, are situated at a considerable distance from the main fire, yet by the strong current of air that was blowing, they were heated. During the progress of the fire, the heat was so intense that it was almost impossible to stand at times, and it was difficult to prevent its further spread. Too much credit cannot be given those men and women, who worked so zealously to stay the flames. And too much contempt cannot be heaped upon those who went there for the purpose of plundering and stealing. The injury done by the fire is very great, and accomplished in a very short time, not having been more than about two and a half hours from its discovery, until no other danger was apprehended. The insurance on the destroyed property is very light.

Our town is generally healthy, and has thus far escaped the ravages of the Small-Pox, Typhoid fever, and other scourges which have visited so many places of late. Situated as it is, amidst the hills and mountains—provided with a fine water supply, and a pleasant atmosphere during the summer, it is adapted, in every way, to preserve the health of its inhabitants.

There is coal enough embedded beneath the rocky surface around Trevorton to last for ages, and there is no doubt a bright future for the place, but how distant, or how near, I will not attempt to divine. EDITORIAL NOTICES are so common that it is almost impossible for an editor to express his honest opinion of the merits of any article without being suspected of interested motives. This, however, shall not be our case, saying what we think of a new addition to the Materia Medica, to which our attention has been recently directed. We refer to Dr. J. WALKER'S CALIFORNIA, or 'The Refreshing Bitters,' which is making its way into more families just now than all the other advertised medicines put together. There seems to be no question about the potency of this medicine, as it is so generally used, and possesses the great negative recommendation of containing neither alcohol, nor mineral poison. That it is a specific for Indigestion, Biliousness, Constipation, and many complaints of the stomach, we have reason to know; and we are assured on good authority that as a general purgative, regulating and purifying medicine, it has no equal. It is largely used in the West, and is recommended by the medical world; and its extraordinary effects certainly warrant the conclusion that it is a complete agent for the system. If repetition is any criterion, there can be no doubt of the efficiency of the WALKER'S BITTERS, for the sale of which this notice is made, and continually increasing.

From Trevorton.

MR. EDITOR—As editors are generally anxious to get the truth from every source, and I propose to make their papers interesting, I send you a few items from Trevorton. A sad accident occurred at the P. & E. R. Railroad on this place last Tuesday. Mr. Joseph Berry, was engaged with a number of men loading a car with mine timber for shipment, when a big roll of the top of the mine striking down, he fell on his back, and, breaking both his legs and injuring him internally to such a degree that he died yesterday, notwithstanding every thing was done that medical skill could do to preserve his life. He was about sixteen years of age.

Business is either looking up or looking down, we don't know which. It has been as flat as a 'pancake' during the winter, until the middle of March, when the work was resumed, but at reduced wages, and continued slowly until last Tuesday, when the men were stopped to enable the company to make some repairs to the breaker. It may start again in a few days.

A new stove on the No. 3 vein was soon be finished, and the men commenced work this week grading the road for a back-switch to the place where the new breaker is proposed to be put up this summer. This would look a little more like business, yet I am of the opinion that it will not help the place a great deal until other companies are in and open more coal, and start up a few more collieries.

It is but natural that as long as there is only one operator here, the place will remain a "one hole town." One of the adage holds true that "opposition is the life of trade," it must also be admitted that more collieries would give more life to the place.

There is coal enough embedded beneath the rocky surface around Trevorton to last for ages, and there is no doubt a bright future for the place, but how distant, or how near, I will not attempt to divine. Our town is generally healthy, and has thus far escaped the ravages of the Small-Pox, Typhoid fever, and other scourges which have visited so many places of late. Their use has been productive of decidedly beneficial effects. WM. F. ROGERS.

Hon. James M. Wood, Ex-Mayor of Williamsport, Pa. I take great pleasure in recommending 'Hoofland's German Bitters' to any one who may be afflicted with Dyspepsia. I had the Dyspepsia so long as to be unable to keep any food in my stomach, and I became so weak, as not to be able to walk half a mile. Two bottles effected a perfect cure. JAMES M. WOOD.

REMEMBER THAT HOOFLAND'S GERMAN BITTERS, and HOOFLAND'S GERMAN TONIC, Will Cure every Case of MARASMUS, or Wasting away of the Body. REMEMBER HOOFLAND'S GERMAN REMEDIES Are the medicines you require to purify the Blood, excite the torpid Liver to healthy action, and to enable you to pass safely through any hardships or exposures. DR. HOOFLAND'S PODOPHYLLIN, or substitute for Mercury Pills. Two Pills a Dose. The most Powerful, yet Innocent Cathartic known.

It is not necessary to take a handful of these Pills to produce the desired effect; two of them act quickly and powerfully, cleansing the Liver, Stomach and Bowels of all impurities. The principal ingredient is Podophyllum, or the Alcoholic Extract of Mandrake, which is by many times more powerful, acting and searching than the Mandrake itself. Its peculiar action is upon the Liver, clearing it speedily from all obstructions, with all the power of Mercury, yet free from the injurious results attached to the use of that mineral.

For all diseases, in which the use of an embot, is indicated, these pills will give entire satisfaction in every case. They never fail. In cases of Liver Complaint, Dyspepsia and extreme costiveness, Dr. Hoofland's German Bitters or Tonic should be used in connection with the Pills. The tonic effect of the Bitters or Tonic purifies the system. The Bitters or Tonic builds the Blood, strengthens the Nerves, regulates the Liver, and gives strength, energy and vigor. Keep your Bowels active with the Pills, and tone up the system with Bitters or Tonic, and no disease can retain the hold, or even assault you. Recollect that it is DR. HOOFLAND'S GERMAN REMEDIES that are so universally used and highly recommended by the medical profession. Druggists to induce you to take anything else that may say is just as good, because he makes a larger profit on it. These Remedies will be sent by Express to any locality, upon application to the PRINCIPAL OFFICE, at the GERMAN MEDICINE STORE, 631 ARCH ST., PHILADELPHIA.

Formerly C. M. Jackson & Co. These Remedies are for Sale by Druggists, Storekeepers, and Medicine Dealers everywhere.
