Or Sugar-Conted, Concentrated, Root and Herbal Juice, Anti-Ellions Granules. THE "LITTLE GIANT" CATHARTIC, or Multam in Parvo

Physic.

The novelty of modern Medical, Chemical and Pharmaceutical Science. No use of any longer taking the large, repulsive and nanocous pills, composed of cheap, crude, and bulky ingredients, when we can by a careful application of chemical science, extract all the eathertic and other medicinal properties from the most valuable roots and herbs, and contentrate them into a minute Granule, scarcely larger than a mustard seed, that can be readily swallowed by those of the most sensitive stomachs and fastilious tastes. Each little Purgative Pellet represents, in a most concentrated form, as much catharise power as is embodied in any of the large pills found for sile in the drag shops. From their wonderful enthantic power, in proporties to their size, people who have not tried them are a to suppose that they are hard or drastic in effect, lat such is not at all the case, the different active medicinal principles of which they are composed being so harmonized and modified, one by the others, as to produce a most scarcining and thorough, yet gently and kindly operating eathartic.

2500 Reward is berein offered by the propriet of these Pellets to the chemical parts.

\$300 Reward is hereby offered by the proprie-tor of these Pellets, to any chemist who, upon en-alysis, will find in them any Calomel or other forms of mercury or any other mineral poleon.

alysia, will find in them any Calomel or other forms of mercury or any other mineral poteon.

Being entirely vegetable, no particular care is required while using them. They operate without disturbance to the constitution, elect or occupation. For Faundice, Rendache, Constitution, Impure Blood, Fain in the Shoulders, Tightness of the Chest, Dizziness, Sour Eructutions of the Stomach, Bad taste in mouth, Fillows attacks, Pain in region of fillineys, Internal Fever, Blood to Facad, Right Colored Urine, Unsociability and Gloomy Forebodings, take Dr. Ficree's Flowers, Blood to Facad, Right Colored Urine, Unsociability and Gloomy Forebodings, take Dr. Ficree's Flowers great avariety of discases, I wish to say that their nation upon the minuice conomy is universal, not a gland or tissue occaping their science in preserve their virtues unimpaired for any length of time, in any climate, so that they are always fresh and reliable, which is not the case with the pills found in the drag stores, put up in cheap wood or past-board boxes. Recolbect that for all diseases where a Enxattre, Alternitye or Purgative is indicated, these little Pelleta will give the most perfect satisfaction to all who use them.

They are sold by all enterprising Dragatization of the case bette.

They are sold by all enterprising Druggists at 25 cents a bottle.

Do not allow any druggist to induce you to take enviling else that he may say is just as good as my Pellets because he makes a larger profit on that which he recommends. If your druggist cannot supply them, enclose 25 cents and receive them by roturn mail from R. V. PIERCE, M. D., Prop'r, BUFFALO, N. Y.

the market. Like the regular built cellar heater, it loses no heat, but confines it all to its legiti-. The fact magazine is double the usual size extending from the fire-box to the top of the

consumes the gas, prevents escape of gas into the room, and makes it impossible for any puf-flugs or explosions to occur. This is an advant-age possessed by no other fire-place stove in the 5. There are three air coambers, wherein a

brisk circulation is kept up, drawing the cold air in the room through heated fives into a large hot-air reservoir, at the back of the stove.

6 No side pipes are used, as the air is heated in a reservoir having double radiating flues and double back, supplying large quantities of hot airwithout waste of heat or fuel.

7. The SUNNISHES utilizes the waste heat so thoroughly that we frequently heat an adjoining room on the first, besides heating the rooms in

accoud and third stories. S. A damper on top of the stove, connected with the hot air flues, controls the quantity of hot air required for the use of either the upper or lower rooms. All other fire-place stoves are very inconvenient in this respect. 9. The Grate is self-scaling, and no dust cap
