WISHART'S PINE TREE TAR CORDIAL. NATURE'S GREAT REMEDY

> FOR THE THROAT AND LUNGS.

It is gratifying to us to inform the public that Dr. L. Q. C. Wishart's Pine Tree Tar Cordial, for Throat and Lung Diseases, has gained an enviable reputation from the Atlantic to the Paci-fic coast, and from thence to some of the first families of Europe, not through the press alone, but by persons throughout the States actually benefitted and cured at his office. While he publishes less, so say our reporters, he is unable to supply the demand. It gains and holds its repu-

First. Not by stopping cough, but by loosening and assisting nature to throw off the unhealthy matter collected about the throat and bronchial tudes, which causes irritation.

Second. It removes the cause of irritation (which produces cough) of the muckous memorane and bronchial tubes, assists the lungs to act and throw off the unhealthy scoretions, and

Third. It is free from squills, lobelia, ipecas and opium, of which most throat and lung remedies are composed, which allay cough only, and disorganize the stomach. It has a soothing effect on the stomach, acts on the liver and kidneys, and lymphatic and nervous regions, thus reaching to every part of the system, and in its invigorating and purifying effects it has gained a reputation which it must hold above all others in

Physic.

The novelty of modern Medical. Chemical and Pharmaceutical Science. No use of any longer taking the horge, repulsive and nauseous pills, composed of choap, crude, and bulky ingredients, when we can by a careful application of chemical science, extract all the cathartic and other medicinal properties from the most valuable roots and herbs, and concentrate them, into a minute Grantle, searcely larger than a mustard seed, that can be readily swallowed by those of the most sensitive stomachs and fastidious tastss. Each little Purgative Pellet represents, in a most concentrated form, as much cathante power as is embodied in any of the large pills found for sale in the drug shops. From their wonderful cuthartic power, in proportion to their size, people who have not tried them are apt to suppose that they are harsh or drastic in effect, but such is not at all the case, the different active medicinal principles of which they are composed being so harmonized and modified, one by the others, as to produce a most soarching and thorough, yet gentify and kindly operating enthartic.

\$500 Reward is hereby offered by the proprietor of these l'ellets, to asy chemist who, upon analysis, will find in them any Calonel or other forma, of mercury or any other mineral poison.

Being entirely vegetable, no particanar care is required while naing them. They operate without disturbance to the constitution, dist, or ecupation.
