SUNBURY, PA., SATURDAY MORNING, APRIL 5, 1873.

Many years ago I happened to be one of the referecs in a case that excited unusual interest in our courts, from the singular nature of the claim, and the strange story which it disclosed. FLORICULTURE .- All lovers of flowers must remember that one blossom allowed to mature or "go to seed" injures the plant more than a dozen buds. Cut your flowers, then, all of them, before they begin to face. Adorn your rooms with them, put them on your tables, send them to your friends who have no flowers, or exchange favors with those who have. You will surely find that the more you cut off the more you will have. All roses after they have ceased to bloom, should be cut back, that the strength of the root may go to forming new roots for next year. On bushes not a seed should be allowed to mature.
