There is a war going on between the Dutch Government and the Acheens, in which some severe fighting at Acheen has recently taken place.

They are going to have a zoological garden in the Philadelphia Fairmount Park, which is a good use to put part of the grounds to.

The introduction of ladies to office holding under the State administration has begun at Harrisburg, the Secretary of the Commonwealth, Col. Quay, having appointed Mrs. Susan H. Willard, of Beaver county, as temporary clerk to transcribe the laws of 1872.

Ben Butler is now about the most generally despised man of any individual outside of prison walls. His proposition to buy of opposition to his back-pay grab to three cents a head, has truly shown the character of the man.

We notice several aspirants in the Democratic party, who are strongly infected with the odor of the late Court House Ring, are announcing themselves for nomination for county offices, and commenced to sound their constituents in the different townships to ascertain their chances.

REBEL MASSACRE.—The outrage upon the freedmen at the town of Colfax, in Grant Parish, Louisiana, on the 13th inst., were of a most atrocious character.

THE STORM IN THE NORTH-WEST.—A despatch from St. Paul, dated April 19, says: Despatches received at the headquarters of Dakota, from Gen. THE PRESIDENT.—HOW HE DRAWS HIS SALARY.—THE President never draws his salary himself, but receives it through the First National Bank, to which he has given a power of attorney, and the money is always drawn from the Treasury by the cashier of that bank and placed to the credit of the President.

Five hundred dollars reward is offered for the apprehension of Henry Briedland, the colored man under sentence of death who recently escaped, with other prisoners, from the Washington, Pa., jail.

The advance in coal in Great Britain is far-reaching in its influences, the prices of nearly all the leading commodities being materially higher than they were a year ago.

The Power and duty of Journalism.

In a recent letter of Henry Ward Beecher said: He who to-day sits in the editorial chair, sits second to none. In all the world of influence it is for him to discriminate between right and wrong, and to be always on the right side of truth and justice, and purity and manliness.

So far as our knowledge extends, the press throughout America is faithfully endeavoring to perform its high mission. "The people have no truer, more disinterested or vigorous representatives than they possess in the journalists of the land."

When the American press becomes what it is fast becoming—the undaunted antagonist of wrong in every shape—the American government will emerge from the lethargy which now in part surrounds its legislative branch, and become the stronger by reason of the stern lessons the governing classes were now learning.

THE KILLED AND WOUNDED. Eleven dead bodies and one live Modoc were found in the cave of the Lava Beds to-day, making sixteen warriors slain.
