Or Sugar-Coated, Concentrated, Rost and Herbal Juice, Anti-Billous Granules. THE "LITTLE GIANT" CATHARTIC, or Multum in Parvo

The novelty of modern Medical, Chemical and Pharmaccutical Science. No use of any longer taking the large, repulsive and nauseous pilis, composed of cheap, crude, and bulky ingredients, when we can by a careful application of chemical science, extract all the eathartic and other medicinal properties from the most valuable roots and herbs, and concentrate them into a minute Granule, scarcely larger than a mustard seed, that can be readily swallowed by those of the most censitive stomachs and fastidious lastes. Each little Furgative Fellet represents, in a nost concentrated form, as much cathartic power as a embedied in any of the large pills found for sale in the drag shops. From their wonderful cathartic power, in proportion to their size, people who have not tried them are apt to suppose that they are hard or drastic in effect, but such is not at all the case, the different active medicinal principles of which they are composed being so harmonized and modified, one by the others, as to produce a most scarching and thorough, yet gently and kindly operating cathartic.

\$500 Roward is hereby offered by the proprietor of these Fellest, to asy chemist who, upon analysis, will find in them any Calomel or other forms of mercury or any other mineral poisson.

siyels, will find in them any Calomet or other forms of mercury or any other mineral polson.

Being entirely venetable, no particular enre is required white using them. They operate without disurbance to the constitution, dist, or constitution, in the constitution, dist, or constitution, and the constitution, dist, or constitution, and the constitution, and the constitution of the stormach, Bad taste in mouth, Eillous acts, Bain in region of the stormach, Bash of Blood to Read, High Colored Urine, Unsociability and Gloomy Forebodings, take Dr. Pierce's Pleasant Pargative Pellets. In explanation of the remedial power of my Purgative Fellets over so great a variety of diseases, I wish to say that their action upon the unimal comomy is universal, not a gisand or tissue escaping their senative impress. Age does not impair them; their sugar-coaing and being enclosed in glass bottles preserve their virtues unimpaired for any length of time, in any climate, so that they are always fresh and reliable, which is not the case with the pills found in the drug stores, put up in cheap wood or passi-board boxes. Recollect that for all diseases where a Laxative, Alternative or Purgative is indicated, these little Pellets will give the most perfect satisfaction to all who use them.

They are sold by all enterprising Bruggists at 25 cents a bottle.
