Ethiopian woman.

'Well, doesn't that mean a nigger ?" 'There was a terrible war waged by the whole system, giving new life and activity to every Ethiopians against the Egyptains, and two follows the use of most all other tordes and summants great armies sent from Egypt against them | to the morket. For had been destroyed. The Ethiopians were governed by a magnificent queen, something like Semiramis, who led out her own armies, and who knew how to gain a victory. But when Moses was sent with a third Egyptain army against her, he asked the help of God, and managed so wisely that the queen agreed to surrender her forces to him, and become tributary to Egypt, pro- SOUR STOMACH vided he would marry her."

'Well, said the old lady, 'I was sure it wasn't any common nigger.'

THERE is current a good story of a Scotch milk boy which may be of interest in these days of complaint about the adulteration of milk. A boy delivering milk was stopped the other,day by two detective officers, who asked him if anything was put into it.

'Ou, ay,' was the answer. Thereupon the officers, thinking they had a clear case, offered him a penny if he would tell them what.

gie's the penny though I tell't ye.' "O, yes, we will," said the officers.

"Gies't then," returned the lad ; and the

penny was handed over with the question : 'Now, what do you put in the milk ?' "O," said the boy, with a cunning look, 'I pit the measure in every time I tak'

ony out ! That youth has a bright future before

How Sire Dip rr .- In the police court in the city of Chicago, a few weeks since, a wife thus ingeniously explained away serious charges of harsh treatment of her hand he jumped in the way and struck his her grip by the prongs, which he ran into her, but she held up a pan of hot dishwater necident, and started to jump at her, but raise him up, and the hair was moistened any longer, so she left the house.

THE WHOLE LOAF.—A gentleman remarriage, and when the hotel business Peggy, and her two sons, John Ike, regularly domiciled themselves within the hospitable walls of the inn. The landlord was a good natured, easy-going sort of a fellow, not quite as smart as some folks; but Caldwell's Cough Cure one day he got off the following. Addressing me, he said, 'Look a hayr, Sam, I'll tell you just how it is; when I got married I thought I was getting a Crumb, but I'll be hanged if I don't beleive I got the hull

AT a recent prayer-meeting of colored people at Erie, the decency and good order of the meeting being destoryed by a negro, named Brown, whose prayers in public were only incoherent ravings, the pastor inquired: 'What fool nigga's dat praying' down dar nea! de do'?! A dozen people replied with one voice; 'It am Brudder Brown, sah. Den, replied the paster, Throat and Lung Disease Generally. 'Brudder Brown subside, and let some one pray dat's better' quinted wid de and if you make up your mind that you have not re-

AN ODD TASTE .- 'And have you had no other son ?" asked a curious lady of a he or yourself will love by the operation, as I assure you bronzed old sea captain. 'Oh, yes, madam. I had one that lived in the South Sea Islands for nearly a dozen years.' 'Really! Was he bred there, and what was his taste - the sea or the land ?' 'No, madam, he wasn't bread, he was meat-leastways the the use of the remedy natives ate him : and as for his taste-the chief said he tasted of terbacker.

Some one says if we would show ourselves really good to our daughters we must be generous to them in a truer MAGNETIC CHLOROLOID! sense than that of hanging trinkets on their necks.' No words could be more sensible. Nine girls out of ten would rather have a camel's hair shawl than a necklace. Parents should remember this. For internal or external use, the Magnetic Chloroloid

ing of certain kinds of animal food would aid the same tissues of the human body-as for instance, calves brains would nourish the eater's brains, or beef's liver the eater's Rheumatism, Colic, Negralgia, Toothache, Earsche liver-immediately gave strict orders at his family market that no more tongue of any kind be sold to his wife or mother-in-law.

A NEAR-SIGHTED and inquistive stanger kieked an ornamental dog on a street stoop | page 185 to see if it was solid or hollow. It was not solely an ornamental dog, however, but one that was there on business, and the near-sighted and inquisitive stranger is now quarantined at his hotel for a few

DARWIN acknowledged himself sold when his little niece asked him, seriously, what a cat has that no other animal has. He gave it up, after mature deliberation, and the sly little pues answered; 'Littens.'

WHEN a Harrisburg woman chases ber boy with a broom, he rans down to the river and jumps into the water. When he comes out his face is washed; his mother does not know him, and he is safe.

Josh Billings says, 'Yu kant find contentment laid down on the map, it iz an imaginary place not settled yet, and those FRECKLES, ERUPTIONS, reach it soonest who throw away their

compass and go it blind. 'Witar is Heaven's best gift to man?' asked a young lady the other night, smil-

ing sweetly on a pleasant-looking clerk. 'A hoss?' replied the young man, with great prudence. *O GEORGE, your sister is a nice girl but she does dress her head up so. 'Yes,'

said George; 'but it is the fashion; there's nothing in it, you know.' 'I'm not much for shtump spaken,' declared a candidate at Debuque, but for

honesty and capacity and integrity, I bate the divil-so I do.' IF you wish to know how many friends you have, get into office; if you wish to

know how many you haven't, get into trou-

Medical.

gar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS? Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs in Bilious

The properties of Dr. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Altera-tive, and Anti-Bilious.

Grateful Thousands proclaim VIN-EGAR BITTERS the most wonderful Invigor-ant that ever sustained the sinking system.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent, and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Bertal Aleberra Mobile, Savannah, Ro-Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to Dr. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the darkcolored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy

functions of the digestive organs. Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed. Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs,

Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement. Scrofula, or King's Evil, White

Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc., etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic

Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood. Mechanical Diseases.-Persons en-

gaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALK-ER'S VINEGAR BITTERS occasionally. For Skin Diseases, Eruptions, Tet-

ter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncies, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelminities will free the system from worms

For Female Complaints, in young or old, married or single, at the dawn of wo-manhood, or the turn of life, these Tonic Bit-ters display so decided an influence that im-Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores;

eleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system R. H. McDONALD & CO.,

THROAT AND LUNG DISEASES!!

It is the vital principle of the Pine Tree, obtained by a peculiar process in the distillation of the tar, by which its highest medicinal properties are retained. Far even in its crude state has been recommended by eminent physicians of every school. It is confidently offered to the afflicted for the following simple reasons: offered to the afflicted for the following simple reasons:

1. It CURBS,—not by abruptly stopping the cough—
but by dissolving the phiegm and assisting nature to
throw off the unhealthy matter causing the irritation.
In cases of seated consumersion it both prolongs and
renders less burdensome the life of the afflicted sufferer.

2. Its healing principle acts upon the irritated surface of the lungs, penetrating to each diseased part,
relieving pain, and subdising inflammation.

3. It furnities and burdening inflammation.

9. It furnities and burdening inflammation.

THE GREAT REMEDY FOR

which can be cured by a timely resort to this standard preparation, as has been proved by the hundreds of testimonials received by the proprietors. It is acknowledged by many prominent physicians to be the most reliable preparation ever introduced for the relief and cure of all Lung complaints, and is offered to the public, sanctioned by the experience of over forty years. When resorted to in season it sel-

dom fails to effect a speedy cure in the most severe cases of Coughs, Bronchitis, Croup, Whooping Cough, Influenza, Asthma, Colds, Sore Throat, Pains or Soreness in the Chest and Side, Liver Complaint, Bleeding at the Lungs, &c. Wistar's Balsam does not dry up a Cough, and leave the cause behind, as is the case with most preparations, but it loosens and cleanses the lungs, and allays irritation, thus removing the cause of the complaint.

89,000 IN GIFTS. A Grand Gift Concert. A GRAND GIFT CONCERT will be given at Sunbury, Pa., by the Independent WASHINGTON STEAM FIRE COMPANY,

On MONDAY, JULY 13, 1874.

POSTPONEMENT.

'nless the tickets are all sold before that time, wh due notice will be given of the time, A full Drawing Certain. Owing to the Panic, and in order to meet the general wish and expectation of the public and the ticket-holders for the full payment of the Gifts announced, the management have determined to postpone the Concert and Drawing to the date above stated.

The object of this enterprise is for the purpose of securing a Steam Fire Engine, which will be an advantage to all neighboring towns accessible by rail, from the fact that it will be an Independent Company. And as we have never failed to discharge our duty when called upon, we certainly will be able to accomplish more good with the aid of a steamer. There is no less than nineteen large and small towns within thirty miles of Sunbury, all of which can be reached by railroad, thus affording the facility of assisting any of those places in less than an hour's time; while at the same time our town will not be unprotected. Our project being a landable one, we feel confident that all the tickets will be disposed of by the time above named for drawing.

THE FOLLOWING IS A LIST OF GIFTS: NE GRAND GIFT OF .. scriptions and family receipts by competent 10 Gifts of \$50,00 1,857 Total ..

This enterprise is no individual speculation, such as houses, lots and furniture put up at fabulous prices.

The holder of a successful ticket will receive he GIFT in CASH,
There will be 20,000 Tickets of Admission to this Concert, at \$1,00 each, and at the time above stated the \$9,000 in CASH Gifts will be distributed.

PLAN OF DISTRIBUTION. Twenty thousand numbers, representing and corresponding with those on the receipts issued, will be piaced in one wheel and cards enclosed with the names of the Premiums in scaled boxes will be placed in another,—From these wheels, a number and one of the above named inscribed cards will be taken simultaneously. The number so drawn from the one wheel secures the premium designated by the card taken at the same time from the other. This operation will be performed by a blind person, and continued until Eighteen Hundred and Flifty-Seven Premiums are exhausted. It is evident that by this process, fraud or favortism will be impossi-DR. C. M. MARTIN & CO,

All Gifts Paid in CASH without discount.

> > PUMP, Tusteless, Durable, Effi-cient and Cheap. The best pump for the least money. Attention is especially invited to Blatchley's Patent Improved Bracket and New Drop Check Valve, which can be withdrawn without removing the Pump, or disturbing the joints. Also, the Copper Chamber, which never cracks or scales, and will outlast any other.

Agricultural.

EARLY TOMATOES.—Every year or 80 we have new varieties of tomatoes introduced, said to be much earlier than any that ever came before, and one would suppose that withal the new improvements in been gained. We have a right to expect something surely, yet we think that on the whole the tomato is no earlier than it ever 8.50 p m | was. If there have been varieties earlier 10.00 p II than others, they have died out, and left 11.55 pm 4.25 a m us just where we started from. Thirty or 6.30 a m forty years ago the great effort was to have 8.35 a m tomatoes fit to eat on the fourth of July. 11.10 a m This was the great particular time, and 8.05 p m any one succeeding in getting a good fair 1.20 pm quantity by this date, was regarded as 4.20 pm among the best gardeners. We are not 7.30 p m | sure but this was regarded as a good test 7.20 a m of one's qualifications. At any rate, 'will 10.40 a m you have ripe tomatoes by the fourth? 2.05 p m | was the standing question with the million 3.10 p m in horticulture. And how is it now? How 9.15 pm | much earlier than by the fourth can any one about here have tomatoes ?" We know 7.45 a m of none now more than in the time gone

One of our friends has made the tomato 11.20 a m | question an especial study this season, collecting all the varieties he could get, early 10.50 p m | and late. To his astonishment the earliest 12.40 pm was the Trophy, and yet though it has a 6.40 a m good reputation as a superior variety, it 9.45 am has not been celebrated fot its earliness. 11.00 a m He does not think, however, it will always 3.05 a m | be in advance. His theory is that they are never true on time, that what is the earli-4.05 p m est one season may not be at another, and 5.25 p m so on. How this may be we don't know, Williamsport 6.50 p m but we think it will surprise many that the arr. at Harrisburg, 10.55 pm Trophy should this year prove an extra Mail East connects east and west at Erie with early kind. He gathered his Trophies on but enough for his family dinner; and al-Mail West with east and west trains on L. S. & M. S. R. W. and at Corry and Irvineton with Oil Creek and Allegheny R. R. W. Elmira Mail and Buffalo Express make close connections at williamsport with N. C. R. W. trains, north, and at Harrisburg with N. C. R. W. trains south. nity has been able to beat this fair and square in the open ground, and not against walls or other favored places, we should like to know, and also the kind. If there

is really an extra early tomato we should like to know what it is. On our own premises, it is true, we ate our first ripe tomato, only one, on the 19th, and about every day since. On the 23d we had a family stew of them. But we had not a 'mess' until the 23d, and therefore cannot compete with our young friend. Our variety is the 'Fijii improved"-at Leave Philadelphia, 9.15 a. m., Reading 11.25 least it is so-called.—Germantown Tele-

CLOVER .- There is no crop raised on the farm which tends more to the improvement of the soil than clover, and as a forage crop it is equal to any other crop under cultivation. Though it is more difficult to make into hay than timothy or Leave New York, 9.00 a. m., 12.40 and 5.30, herds grass, yet if any part is lost in mak-Leave Philadelphia, 9.15 a. m. 3.40 and 7.15 ing and gathering the clover bay, the soil will receive the enriching deposit. Clover will grow in almost any soil which is not too wet, but its favorite is deep sandy loam, in which the long tap root can penetrate deep down. It borrows more of its growth from the atmosphere than most other crops. The tap root draws most of its nourishment from the subsoil, and the tops extract largely from the dew and the atmosphere, thereby greatly enriching the surface soil for wheat and timothy. A .11.15 p m 8.25 a m 1.45 p m good crop of clover in full blossom, tops and 5.05 pm roots, will sum up in weight between eight and ten tons of green vegetable matter per Williamsport... 7.10 a m 12.55 p m 7.10 p m 9.00 p m acre to plow under to enrich and mellow the soil; and where can be found a cheaper manure to improve a heavy soil? Lime Buffalo Elmira Harris'g Erie Mail. Accom. Mail. 11,20 a m to enrich the land for the growth of wheat. Stable manure is decidedly the best, but it is entirely too dear, and farmers must resort to other means to keep up the fertility

of their land. I have met with much success in raising clover among oats, but the ground must be well-cultivated to ensure a good growth of clover. After the oats crop is sown and well-harrowed, next pass over the field with a drag to crush the clods and level the ground. The drag to be six feet long with a block nailed on one of the hind corners underneath, by which every 'bout' will mark off a land twelve feet wide, which is the right width to sow clover-seed at two casts; and after the clover is sown harrow

the ground to cover the seed. To sow clover seed on winter-grain, March is the right time when there is snow on the ground. Take a span of horses to a sled and mark the field off in lands of proper width to sow by ; then let the sowers follow the sled. Clover can be sown much evener on the snow than otherwise, because you can see precisely whether you are sowing it even or not. In my opinion clover is under-estimated by farmers, and should be much more in cultivation than is general. A clover lot near the pig-pen \$1,000 can be cut four or five times during the summer if not left go to blossom, and it makes the most economical feed for swine; and if it is moved down about the time the blossom begins to form and slightly wilted and free from dew and moisture and packed away with sufficient salt, the hogs will relish it as much in the winter season as \$9,000 cattle, and it makes good feed for sows and

> [From the Germantown Telegraph.] QUINCES PRESERVED WHOLE .- Pare and put set over a gentle fire till they turn reddish; let them stand till cold; put them into a clear, thick sirup; boil them for a few minutes; set them on one side till quite cold ; boil them again

> and let them boil for ten minutes, or just long enough to soften a little; then take out, and cover tightly with paper wet with whiskey or alcohol, and cover with another paper placed over

POTTED Ox-TONGUE.-Cut about a pound and a half from an unsmoked boiled tongue, and remove the skin. Pound it in a mortar as fine as

possible, with six ounces of butter, a little cayenne, a small spoonful of pounced mace For sale by Dealers and the Trade generally. Inquire for Blatchley's Pump, and if not for sale by pounded, and the spice well blended with the meat, press it into small notting personal control of the meat, press it into small potting-pans, and pour clarified butter over the top. A little roast veal added to the potted tongue is an improvement.

HOUSEHOLD.

To PRESERVE PRARS .- Take pears not quite ripe and peel off the skins. Prepare a sirup with three-quarters of a pound of sugar to each pound of fruit. Melt it and boil for half an hour, removing all the scum that rises. Put in the pears

SHEEPS' HEARTS ROASTED .- Having washed the hearts, stuff each with an onion parboiled and then minced fine, two tablespoonsful of bread-crumbs, half a teaspoonful of chapped or dry sage, and sufficient black pepper and salt to season highly. Press the stuffing well into the hearts, and if necessary, fasten a little muslin over the top to keep it in. Whilst roasting baste frequently. They may also be baked, but care
