Meanin' boys or men. When speaking of the nice hand write Of Joe, or Tom, or Bill. We did it plain-we didn't say,

"He slings a pasty quill." An' when we see a gal we liked, Who never failed to please, We called her pretty, neat and good, But not "about the cheese."

Well, when we meet a good old friend, We hadn't lately seen, We greeted him, but didn't say, "Hello, you old sardine !

The boys some time got mad an' fit ; We spoke of kicks and blows : But now they "whack him on the snoot," Or "baste him on the nose."

Once, when a youth was turned away. By her he held most dear, He walked upon his feet-but now He "walks off on his ear."

We used to dance when I was young And used to call it so: But now they don't-they only "aling The light fautustic toc."

Of death we spoke in language plain, That no one did perplex ; But in these days one doesn't die-He "passes in his checks."

We praised the man of common sense; "His judgment's good," we said ; But now they say, "Well, that old plum Has got a level head."

It's rather sad the children now Are learnin' all sich talk : They've searnt to "chin" instead of chat;

An "waltz" instead of wall. To little Harry, yesterday-My grandchild, aged two--I said, "You love grandpa?" Said he,

"You bet your boots I do." The children bowed to strangers once ; It is no longer so -The little girls, as well as boys,

New greet you with "Hello !" Oh, give me back the good old days, When both the old and young Conversed in plain, o'd-fashioned words And slang was never "slung !"

A SARATOFA BELLE.—The serio comic writer, 'Eli Perkins,' in a letter from Saratoga to a New York paper, gives the following pleasant hit of a Saratoga belle of

"Here is the picture of the belle of Sarawith narrow brim turned up and down and sidewise, and skewed and twisted comotive. Each veiled well with tulle, It elevates the standard of all the vital forces. It like a hen on a nest of down. Dress black conditions of the mind, It disperses duliness and lanyak or grenadine, short enough not to banishes those closs upon pleasure which produce No hoops, and the bottom of the dress so fortifies the system against the dangers of malaria, flucnarrow that the young lady cannot take toutions of the temperature changes in the climate, &c. long steps. "How does she walk?

"She don't walk; she wriggles along as men do in a sack race. This dress shows the form beautifully, and it is a great improvement on the old flowing skirt. Caldwell's Cough Cure Young ladies are now standing perfectly erect. Their chests are expanded and their shoulders are thrown back. The shoes worn are the only part of the toilet subject to criticism. These are narrow, high-heeled bunion makers. They cause the young lady to limp, and they must also be the cause of a great deal of profanity when the young lady is left alone. The parasols is a big black or blue or brown umbrella, bordered with lace. Fans are ordinary, and more for use than ornament. Hair is worn natural, and as yet no young ladies have appeared with saffron-colored locks. Beauty is not of the Lydia Thomp- Throat and Lung Disease Generally. son school, and only the demi monde dye, paint or powder. Gloves are from three to ing rings, a plain pin and a chatelaine braid, or oxidized silver chain from the blet, to which is suspended oxidized smell- | ease. which fancy may attach.

IN A BORROWED LIVERY .- A very funny story, aimed at those clergy of the High | the use of the remedy, Church persuasion who make their dress a part of their religion, is told as follows in a letter from London: The other day the Roman Catholic Bishop of Nottingham, being in London, walked in the cool of the MAGNETIC CHLOROLOID! evening in Kensington gardens, in company with a friend of his, an officer in the army. They met a priest-to all appearances a Roman priest-who had a woman on his arm, who had her hand in his, and wno was making fast and furious love to her. The face of the Bishop flushed red; he passed on; but he instantly turned back. and, overtaking the priest, begged permission to speak to him. 'May I ask, sir, if Rheumstein, Cohe, Neuralgiz, Toothacle, Earsele you are a priest ?' 'Yes,' was the reply. 'A Catholic priest ? 'Yes,' 'And may I ask under the jurisdiction of what bishop are you?' 'Before I answer that question,' said the priest, 'I should like to know to whom I am talking?" 'I am the Bishop of Nottingham, 'said his Lordship, 'But we have no such Bishop in the English Church, replied the priest, 'Oh!' exclaimed the Bishop, 'then you belong to the English Church; I am delighted to mear it, and I beg your pardon with all my life; but I do wish that you would not walk about in our uniform !'

Some scribbler, writing from Chicago, has perpetrated the following calumny on an outside paper: While several gentlemen were sitting in the bar-room of one of our hotels, a few days ago, one of them, being a Chicago man, was of course boasting of the superiority of Chicago over any other spot in the world. Finally, he claimed that it was the healthiest city in the world (notwithstanding the large delegation of her citizens who are annually FRECKLES, ERUPTIONS. obliged to visit the Arkansas Hot Springs), and said, that the "death rate" was smaller than that of any other city. At this point an individual, evidently much intoxicated also, joined in the conversation thusly: "W-wai, d-don't you know the re-reason mo' folks don't die'n Ch(hic)cago ?" The Chicago man said he supposed it was because of the salubrity of the air. The Lily Balm will speedily remove the blemth, and "N-no," responded the inebriated party, shaking his head, with a very wise look; "er-reason mo' folks don't die'n Chicago is, hell is so full n-no room for 'em !"

An Iowa paper reports the following as the actual form of a marriage ceremony in that State : 'Join your right hands. Do you want one another?' (They both answered 'Yes.') Well then have one an-

other. You're man and wife." "Who was the meekest man?" asked a Sunday school teacher. 'Moses.' 'Very well, who was the meekest woman? Never was any.

CALDWELLS

Wine and Iron Bitters!

The celebrated Bitters are pure, safe and reliable omposed of Rocca, Barks and Herbs with Citrate of from and pure and native wine, made from the native grapes of California, the ingredients are choice, strength ming, purifying and life-giving medicinal agent, forming the most bealthy and pleasant eliminating tonic and strengthening Briters for improving the appetite, giving time and vital energy to the Blood and System. For medicinal purposes, for family use, travelers, voygers, etc., they cannot be surpassed. These Bitters are in an emineut degree accountioning strifying, dimetic, stimulating and neurisbing to the whole system, giving new life and activity to every

organ and our alike, without that over reaction that follows the use of most all other tonies and attendant

Medical.

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable reparation, made chiefly from the native erbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS? Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of Vinegar Bitters in healing They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs in Bilious

The properties of Dr. Walker's VINEGAR BUTTERS are Aperient, Diaphoretic, Carminative, Nutritions, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Altera-

Grateful Thousands proclaim VIN-EGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system. No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent, and Intermittent Fevers, which are so prevthroughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive deconvenients of the stomach and liver. and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to Dr. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the darkcolored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver. and gener "v restoring the healthy

functions of the digestive organs. BITTERS. No epidemic can take hold of

Dyspepsia or Indigestion, Head-Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Month, Bilions Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofalous Inflammations, ndolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc., etc. In these, as in all other constitutional Diseases, Walker's VINEGAR BITTERS have shown their great curative powers in the most ob-

tinate and intractable cases For Inflammatory and Chronic Rhenmatism, Gout, Bilious, Remittem and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such

Mechanical Diseases. - Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALK-

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Biotches, Spots, Pimples Pustules, Boils, Carbuncles, Ring-worms Scald-head, Sore Eyes, Erysipelas, Itch. Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no an-

thelumities will free the system from worms

the skin in Pimples, Eruptions, or Sores

Sold by all Draggists and Denlers.

It is the vital principle of the Pine Tree, obtained y a peculiar process in the distillation of the tar, by such its highest medicinal properties are retained, ar even in its crude state has been recommended by The even in its crude state has been recommended by eminent physicians of rivery release. It is confidently offered to the afflicted for the following simple reasons:

1. It cruss, — we by advertely stopping the cough—but by dissolving the phlogue and assisting nature to throw off the unhealthy matter causing the irritation. In cases of scated consumerion it both prolongs and renders less bardensomethelife of the afflicted sufferer.

2. Its healing principle acts upon the irritated surface of the lungs, penetrating to rack diseased part, relieving pain, and subdiving inflammation.

3. It presents and enorthese the shoots. Positively curing all himors, from the common particular many rows to the severest cases of Seconia. Thousands of affidavits could be produced from those who have left the beneficial effects of Pine Tann Condition the various diseases arising from integrities of the surjous disease.

very wholesome and useful in certain states of the system. People often crave an acid of some kind, particularly in the warm days of spring and summer. When lemons are cheap they should be made into sirup for future use. Press out the juice of the lemons and remove the seeds,

Agricultural.

FEEDING SWINE IN SUMMER. - A correspondent of the Germantown Telegraph writes : "My own theory of pork raising, based upon experience, observation, and probably a little philosophy of things, if written for the benefit of others, would be about as follows: During the hot summer months I would feed very little solid feed, such as corn in the ear or uncracked. I would keep hogs upon green feed constantly, either grass, 5.00 p m oats or rye, and feed them at regular intervals, once or twice a day, upon mashed feed, either 10.00 p m shorts, chopped outs or rye, buckwheat, etc., fed 11.55 p m | in troughs. When fed in this way, and at the 4.25 a m same time allowed access to water and shade, 8.35 a m | hogs will bear crowding through the hot months, 9.45 a m a very good time, if not the best, to take on 11.19 a m | flesh. This puts them in the best of condition 8.05 p m | for corn feeding, which should commence about 1.20 p m the first of September, when the new crop is still 4.20 p m | soft and tender. Treated in this way hogs be-6.20 p m | come probably as perfect as any method could

cheapest and most economical." RIPENING FRUIT .- Upon the principle that a renewal of the earth immediately surrounding 4.20 p m | the root increases their activity and accelerates 9.15 p m | the maturing of all parts of the plant, including the fruit, Mr. Stall removed the earth about an 7.45 a m | early pear tree three weeks before the normal 9.30 a m | period of ripening, for a space of thirteen to fif-11.45 a m | teen feet in diameter, and to such an extent as 3.35 p m to leave a depth of earth over the roots of only 8.20 pm about two to four inches, which could be the-9.35 p m | roughly warmed by the sun. He was surprised 10.50 p m | not only by the ripening of the fruit in the mid-12.40 p m dle of July, but also by its superior juiciness and 6.40 a m | flavor. In another experiment the removal of 9.45 a m | the earth from the north side of a tree alone 11.00 a m caused the fruit to ripen several days earlier 12.40 p m S.05 a m than on the south side. Frequent watering was 6.35 p m of course necessary in the above experiments .-

MANUFACTURING MANURE. - We are pleased to double quantity of superior manure by hauling in wood mould, when it can be obtained without ings from the wood pile, &c. These, mixed well with stable manure and some plaster, put n oblong heaps, and turned over once or twice, will accomplish this pa. pose. We have noticed that along many highways where they are narrow and run through high embankments, there are sod and soil enough in a quarter of a mile to help to make a hundred cords of manure of the very best quality. For spring use it should be made in autumn, and for autumn use in early

REMEDIES FOR CHOKED CATTLE. -- Besides the many remedies for relieving choked cattle, as by turning down oil or soap, by pushing the obstruction down the throat with a whip-stock, or probing, crushing between two hammers, &c., a few new methods are proposed by those who have tried them. One is to pour down a pint or more of warm water, in which is dissolved a quantity of soft soap. On passing the hand is thrown up immediately. Another is to place a round stick as large as can be used in the animal's mouth, as a bit is put in the mouth of a Letting the animal loose and making it move about has always relieved our cattle without any other treatment, and this should always be tried

nore. There is no other way of ridding the fields of these vermin but by encouraging their natural enemies. There are crows and blackbirds, which devour the grubs, and sknuks and moles, which destroy both the grubs and beetles, of which they are the larvæ. While these creatures are killed or driven off we shall suffer from the depredations of the insects, which are their natural prey. To prevent the destruction of the young corn by the cut worm to some extent, the seed should be rolled in common pine tar, and then dried in plaster before it is sown." THE Gardener's Monthly says there is no mystery whatever as to the cause of the "yellows" in the peach tree. "If you dig around a peach with the yellows you will be first struck with a 'mush-roomy'smell. Picking out the roots, and examining them with a lens, you will see millions of thread-like fibres, which are the mycelia of fungi. These sat the young fibres, and leave only the main roots, through which all the nutriment of the plant has to be gathered; and as an

solution of salt; others have found a weak solution of potash succeed " Sufferers by this di-We have read about two hundred and fifty methods, or rather references to the way 'scratches' in horses should be treated. But treated properly. Dirty stalls, and long standneglect to wash daily the feet of the animal, are usefulness and value. But when, from any cause,
