Mails will not be issued after 6 p. m. on Saturdays. J. J. SMITH, P. M.

1875. SUNDAY AMERICAN.

POSTAGE PREPAID BY THE PUBLISHER, AND FREE TO ALL SUBSCRIBERS IN THE UNITED STATES. THE BEST AND CHEAPEST FAMILY NEWS-PAPER IN NORTHUMBERLAND COUNTY.

THE SUNDAY AMERICAN is published every Friday morning. It is every sense of the word a first class newspaper, embracing in each issue a condensed history of the world's doings for the week. It is full of news, containing everything of general political and local interest. The features are noteworthy, presenting the best and most interesting family newspaper. Its aim is to please and instruct, and what possessing every feature of interest for the family is a safe adviser, nothing of an improper character whatever being admitted into its columns.

The American presents its readers with first-class literary matter in each issue. The serials, the drama, the novel, the story, the poetry, the miscellany, and humor are drawn from the best sources. The weekly American is conducted on business principles; it gives each subscriber full value for money received; it puts the price of the subscription in the hands of the subscriber; it does not get up-of-itself; it presses postage to all parts of the United States.

Terms of the United States.

ONE COPY, six months \$1.00 FIVE COPIES, one year 5.00 AND \$1.00 PER COPY for any number of copies above. TEN COPIES, one year \$10.00 and one copy to the getter-up of the Club. An extra copy for every 10 subscribers. Orders of Clubs will find the above terms the most liberal that can be offered by the "class family journal."

Local Affairs.

Geo. W. Coble, Esq., at Herndon, this county is authorized to act as agent for the American in that place, in receiving subscription, for notices, advertisements, and receipt for all bills he may present from it. HIGH RAINY WINTER. The days are growing longer. PLANTY—Men who have nothing to do and young ladies who want husbands. ARES or sawdust applied to the icy pavement prevents many accidents and injuries to pedestrians. A GOOD many of our subscribers outside of the county have neglected to comply with our request to settle up their accounts. We hardly think they will expect us to continue to send them the paper gratis, and pay the postage in the bargain. THE DAYS are gradually growing longer. The increase since the 21st of December has been forty-six minutes. The change is already apparent, even in the gas bills. THERE will be an eclipse of the sun on the 29th of September this year. It will rise partially eclipsed at this place, ending at 7 o'clock 11 minutes in the morning. At Boston, the eclipse will be annular, or a ring. POSTLETWALE'S concert is a home enterprise. J. D. CALDWELL, Esq., of Washington, was re-appointed Postmaster at that place, by President Grant. The E. L. DRIBKAP, Esq., late Superintendent of the Baltimore & Potomac railroad, has resigned his position and will take charge of the road operated by the Pennsylvania Company, running between York and Harrisburg. The Postmaster P. F. P. Smith has resigned, and the position of assistant ticket agent, at the depot, in place of W. Dixon, appointed train agent on the N. C. & W. R. R. Geo. W. Young has been appointed Deputy Postmaster in place of Mr. Smith. Mr. CORBOD, Esq., of Shamokin, aged 82 years, died on the 26th inst. He was one of the oldest citizens of this county. Mrs. W. CAMPBELL, from near Snydertown, was seriously injured at Lake Fisher pen coal bank on Tuesday last week. He was engaged in loading pen coal, when the top of the bank gave way and fell upon him, injuring his back and head. Dr. D. D. DORNER, Editor of the Shamokin Times, gave a call on Monday last. We were gratified in making his acquaintance, as it is a gentleman throughout. We judge he is out for an editor, and if he don't make it, he will be happy to greet Brother Dorman on our station. Mr. and Mrs. HENRY GOSSLER, of Northumberland, celebrated their golden wedding on Thursday the 7th inst. A CHANGE of the proprietorship of the Watson Town Record established took place last week. It was earnestly solicited to come to Shamokin, to publish a Democratic paper. Come on John; lots of room here for Democratic papers—and "organs."

FROM CHURCH TO OPERA HOUSE.—The counting of churches in the Opera House is becoming somewhat fashionable, not only in large towns, but also in country villages. The last of these is the Trinity Reformed church, of Turbotville. It strikes us that the sacred documents contained by the corner stones of churches so changed in character, should first be removed.

Mr. M. Marx, A. Oppenheimer and S. Hensler called on the 27th inst., at the office of W. H. L. to Liverpool, in the steamer Pennmenia.

ANOTHER fire occurred at Selmae on Monday, caused by an incendiary. A stable belonging to Mr. Rhodes was destroyed, in which perished a cow and one hog. The stable was owned by the previous proprietor of the property.

THE LICENSE QUESTION.—The license question on our Court last week, on the subject of the license among the liquor sellers, and the strong advocates of temperance. Remonstrances from Milton, Smbury and Shamokin, were presented to the Court against the granting of licenses. In several instances some of the best lawyers in the county were re-appointed. A large number of the principles of the law were explained, and the temperance side with arguments, but out in the whole batch, A. N. Brice, Esq., of this place, tendered his services in opposing the license of these hotels. Hon. F. Bond, of Milton, made a masterly speech in favor of well kept hotels, and the necessity of their having licenses as long as liquors are allowed to be sold. To do away with the liquor traffic, the evil must be struck at the root—the manufacture must be stopped, and then it is a question whether a substitute would be supplied, probably of a more injurious character. It is generally conceded that if our laws were more strictly enforced, there would be no necessity for remonstrance. Let the friends of temperance take action, and cause the law now in existence to be enforced, and many of the evils arising from badly kept houses will soon be remedied. If other good laws can be general in force, and if the laws which are necessary for the purpose, perhaps one of the most practical and effective remedies to prevent the evils complained of, would be some law that would prevent that great evil "treating," which has done more to prevent the evil of intemperance than any thing else connected with temperance. A law making it an offense or misdemeanor, to invite or urge others to the bar to drink, would not be impracticable, or interfere with the individual rights of any one, and would work a great change by restraining promiscuous and intemperate drinking. Such laws as the following, several were refused last week by the Court. Several are held over for amendment:

TAVENS.

John Smith, Shamokin. Edward McGilley, Mount Carmel. John Boyd, Shamokin. Michael Schlader, Shamokin. Robert Nicholson, Shamokin. John Larkin, Shamokin. John Nolan, Shamokin. B. H. Adams, Shamokin. Benjamin Roy, Herfordtown. Patrick Ryan, Coal town. RESTAURANTS. Richard G. Tyack, Shamokin. James Mahan, Shamokin. Mary Devitt, Coal town. Frank Roth, Mt. Carmel town.

We learn by the Shamokin papers that our esteemed friend J. L. Hamner, Esq., has tendered his resignation as Cashier of the State Bank, and is entering into business at Reynoldsville, Jefferson county, Pa. By his absence Shamokin will lose one of its most energetic business men, and his numerous friends throughout the county will regret his absence. We can fully corroborate the following from the Shamokin Herald of the following facts: The resignation of Mr. Hamner, who has held the position of Chief Clerk and Cashier of the Mineral Railroad and Mining Company ever since the commencement of its operations in this region on the 1st of June, 1871, has resigned his place as Cashier of the same company, in order that he may assume the general management of the business of Dossy Hamner & Kutner, miners and shippers of the celebrated Reynoldsville gas coal and coke. In the resignation of Mr. Hamner the company have lost an efficient officer and one who conducted his business with the greatest care and fidelity. Mr. Hamner will be necessarily absent from home much of the time as his office will be located at Reynoldsville, Jefferson county, and he does not intend to take his family with him for the present, as has been the case with other members of the firm. Mr. Hamner's resignation is a great loss to the company, and his numerous friends in this community, who would be sorry indeed to have them remove after so long a residence in Shamokin. We most heartily wish the interests with which he is now identified may prove successful in the highest degree. To take Mr. Hamner's place the company have appointed Mr. W. A. Richardson, in which capacity he was faithfully served the company for over three years and who must now be highly gratified by this manifest acknowledgment of his past services. Although the company will have nothing to regret in the choice it has made. Mr. R. has for many years been more or less intimately associated with the coal interests of this region, is widely known for his general social qualities, and his business ability and integrity is unquestioned. We congratulate him on his promotion, and the company and the public will all be well pleased to see him in the place vacated by Mr. Hamner. Mr. Richardson will be assisted by Messrs. John L. Evert and Charles C. Lombard, two more agreeable and companionable young gentlemen than whom do not handle the pen.

We confess that our town presented rather a quiet and dull appearance during the past week. There was no street frolic, dog fights, or any amusements to draw away the general monotony. Storekeepers complained of a dull week, and landlords supposed that the paper was the cause of the bar with nothing to disturb their slumbers. Even the hotel "De Hoy" did not have its average amount of custom. All this monotony has been attributed to the fact that nearly all the lawyers in the place were absent at the Supreme Court, in session in Philadelphia, but we can't persuade ourselves to the belief that that is the cause. It can't be.

An election for officers of the Smbury Mutual Fund and Building and Loan Association was held at their room on Friday evening, the 13th inst. The new board organized on Monday, and the President of the Board, the following are the officers for the ensuing year: President, E. M. Willet; Vice President, Ira T. Clement; Secretary, J. Weiser Bucher; Treasurer, P. H. Moore; Solicitor, A. N. Brice. Directors, E. M. Willet, D. C. Disinger, Val. Dossy, Samuel Faust, N. F. Martz; John Clark, Jacob Shipman, Henry Clement, J. W. Bucher and A. N. Brice.

AYRES of the Watsonstown Record, was in Smbury on Saturday, feeling his way for the projected establishment of a new Democratic paper. John is a shrewd chap; he came in the disguise of an agent in the sale of "Almanacs," and he was successful in getting the Record to read to several of our citizens. As we did not need them we cannot say whether they were Democratic or Republican, but we think they were well informed of the Democratic persuasion.

Our thanks are due to that public spirited newspaper publisher, G. W. Childs, Esq., proprietor of the Philadelphia Ledger, for a copy of the Public Ledger Almanac for 1878. It is a tastefully got up and contains an immense amount of useful information that cannot be obtained elsewhere. It is a first class almanac that we have seen. Accompanying it is a miniature photograph copy of the first and fourth pages of the Ledger, well executed, but difficult to read on account of the diminutive letters.

The last Grand Jury were very particular in referring to old relics found in the Court House. One was a table used in the county offices in 1772, and an old goose quill pen and inkstand from the N. C. & W. R. R. Company. The dancing determined to keep the table as a relic, and to Mr. Veron, Baltimore. The removal of these shops will cost about \$10,000. The change is made for the purpose of economizing. Geo. W. Wilkins, the general superintendent of the N. C. & W. R. R., is interested with the task of re-organizing, and has appointed John W. Kapp, of this place, train master, and H. B. Litchburn road foreman of engines. Godfrey Rhodes was appointed superintendent of motive power.

The County Auditors, Messrs. Eiseley, Menech and Hottensau, are now auditing the finances of the county for 1877.—Watsonstown Record.

John R. Adams, Esq., of this county, was admitted to the bar of the county on the 27th inst. He has been practicing law in the county for some time, and is well known to the bar. He has been practicing law in the county for some time, and is well known to the bar.

INTERESTING EXTRACTS FROM A LETTER FROM J. K. DAVIS, Esq.—The many friends of J. K. Davis, Esq., who recently left this place for Ashtabula, Central America, will be glad to hear of his safe arrival at that port. We have granted the privilege of extracting the following from a letter dated at Ashtabula, Central America, 14th inst. After describing a pleasant voyage, the usual sea-sickness excepted, Mr. Davis gives the following:

"On arriving here, I went to the U. S. Consulate, and learned that Mr. Theobald, the Consul, that neither Capt. Buntner nor the Canadiana were here, but that he expected them every day. From the fact that in every capital of Europe, in the chief cities of India, in central and northern China and Japan, and all the great American railroads, in the small pioneer stations on the western frontier, in the large establishments of our merchant princes, and in the laboratories of our men of science, the Fairbanks Scale is the standard, must have influenced the decision in favor of the champion scale-makers of the world. This is the largest contract for scales ever made in the world, and it is a matter of congratulation that the Postmaster-General considered it in the award. If the same principle were adopted in all government contracts a beneficial impetus would be given to American manufacturers in first-class goods. The footing obtained by the Fairbanks Scales in Great Britain is an honor to our country, and it is a matter of congratulation that the Postmaster-General considered it in the award. If the same principle were adopted in all government contracts a beneficial impetus would be given to American manufacturers in first-class goods. The footing obtained by the Fairbanks Scales in Great Britain is an honor to our country, and it is a matter of congratulation that the Postmaster-General considered it in the award. If the same principle were adopted in all government contracts a beneficial impetus would be given to American manufacturers in first-class goods. The footing obtained by the Fairbanks Scales in Great Britain is an honor to our country, and it is a matter of congratulation that the Postmaster-General considered it in the award. If the same principle were adopted in all government contracts a beneficial impetus would be given to American manufacturers in first-class goods.
