MINNESOTA. HORRIBLE ACCIDENT A FAMILY OF PERSONS FATALLY BURNED. ST. PAUL, March 29.—On Sunday morning the house of a farmer named Colson, at Parker's Prairie, twenty five miles from Wadena, on the Northern Pacific Railroad, caught fire from the bursting of a kerosene lamp. The flames shot up rapidly that in a moment the night clothes of the father, mother and five children were on fire...

Captured After Many Years. LOCK HAVEN, Pa., March 29.—An important arrest has been made by Messrs. E. G. Rathbone, J. C. Rathbone, A. B. Miller, Robert Denmore, and Thos. McEnelly (the three first named connected with the United States Secret Service), in the person of Joseph Lansbery, who killed Col. Cyrus Butler in 1864, while attempting to arrest the said Lansbery, as a deserter from the United States army, in Clearfield county, Pa. Lansbery was at the head of a gang of desperadoes who defied the authorities. He was arrested to-day near English Centre, Lycoming county, Pa., and is now an occupant of the Fallon House. The culprit figures sickness, and has given his captors considerable trouble. The physician does not consider the case a bad one.

THE Pennsylvania Rivers—Prospect at Exposed Points. RENOVA, Pa., March 31.—The ice moved at Glen Union this A. M., but stopped again without damage as yet. The river is fifteen inches higher than yesterday. LOCK HAVEN, March 31.—The ice gorge at Glen Union started this morning about nine o'clock with a raise in the river at that point of twelve feet. The river here is rising now. The ice at Queen Run dam is moving out now. The flood is expected to reach here in two hours. WILLIAMSPORT, March 31.—The river rose six inches here last night. The ice at Lock Haven commenced moving last night, but stopped at the head of the boom, seven miles above here. The Glen Union gorge commenced moving at nine o'clock this morning. It is hoped that the ice in the dam and boom here will move out before the ice from Glen Union reaches this point. At Watsontown the water rose seven inches, but everything is safe. WILKESBARRE, Pa., March 31.—The river rose one foot last night, and is still rising. The Lehigh Valley Railroad track between Wilkesbarre and Pittston is covered with six inches of water. The river is now eighteen above low water mark. Crowds are congregated along the river bank in anticipation of the gorge moving, which may occur at any moment. The weather is mild and pleasant.

TELEGRAPHIC NEWS. THE LOOK-OUT IN LUZERNE. VIOLENT MOVEMENTS IN THE COAL REGION. MAUCH CHUNK, March 29.—Intelligence has been received here that about 9 o'clock an outbreak occurred at the colliery at Buck Mountain, Egley, Drifton, Jeddo, Ebervale, and Hazleton, committed by a large mob of miners. In a state of frenzied excitement they started simultaneously at Buck Mountain and Egley with the determination to visit all the mines in their neighborhood. They disarmed the special police from Philadelphia stationed at Buck Mountain and took the arms along, sixteen guns and revolvers. They went to the Jeddo colliery, where Policeman King was shot in the head, but not fatally wounded. Policemen Warner and Meyer were badly beaten with clubs and their weapons taken. At each place visited the men at work were forced to go with them, as follows: At Egley, Drifton, Jeddo, and Ebervale. They called at Mount Pleasant colliery, forcing the men there to go with them with the avowed determination to make them quit work, although Mr. Taggart is paying them in his employ the rates of the 1874 basis. The men went and no damage to property has been done so far, but it is not known whether they will resume work at his colliery. The rioters marched through Hazleton 2.30 P. M., where Father O'Hara, the Roman Catholic priest, advised and exhorted them to return peacefully to their homes. At the last accounts they were quietly disbanding. There is a general feeling expressed that if the miners continue this outrageous conduct the operators will call on the G. V. for troops, and it is thought that rigorous measures should be taken at once. [SECOND DISPATCH.] MAUCH CHUNK, Pa., March 29.—The rioters, knowing that Mr. Taggart had not signed for the whole of 1875, thought the men in his employ were paid on the basis 1874, determined to call and make him sign. On learning of their coming, Mr. Taggart met the rioters near Hazleton and signed the agreement in their presence, and they did not go to his collieries, as first reported. A large company of men was raised in Hazleton and taken to Stockton, where they did picket duty, but returned home after the news came of the retreat of the rioters. All is reported as being quiet in the places visited, but it is impossible to say how long it will last.

THE STRIKE AT SCHUYLKILL HAVEN. POTTSVILLE, March 29.—The information received yesterday and published here and elsewhere regarding the strike of the mechanics and workmen in the employ of the Reading Railroad Company at Schuylkill Haven, as having renounced the association and resumed work on the railroad to-day, is without foundation. The president of the branch at that place, in reply to inquiries made for the facts, telegraphs, denying it, and saying that the branch was still firm and there had been no renunciation. The men on other portions of the road still refuse to leave their organizations and resume work, for which they have been suspended. Reports from Shamokin state that their miners who have heretofore to join the Mechanics' and Workmen's Benevolent Association, now out on a strike for the 1874 basis, have been induced to join and have quietly during the last week, in large numbers, been admitted as members. A majority of these miners have been working at that place regardless of any basis, the prices of mining and labor being arranged between the various individual operators and themselves. Fears are now entertained that this state of affairs will not last long, and we may expect them to join the strikers any day, which would make it a general strike in this vicinity. There has been no incendiary or acts of violence to report last night and to-day, though an engine was

run off the track near here on Saturday night, and at Mt. Carmel the freight depot was broken open and a quantity of flour stolen. In several towns in this region the storekeepers have refused to trust the miners any longer. A CONTRADICTION STATEMENT. POTTSVILLE, March 29.—The information sent from this place yesterday, to the effect that the employees of the Philadelphia and Reading Railroad Company had resumed work at Cressona and Schuylkill Haven proves correct. Their cars have at the former place, where over a thousand cars are repaired weekly, and immense machine shops have all their employees at work to a man. The engineers and trainmen of the Mine Hill division have reported for work, and in this respect the suspension of these localities. It is due to those employees who have sturdied their connection with the Mechanics' and Workmen's Benevolent Association to accept their statement, that they joined that order under the mistaken impression that it was a charitable and beneficial association, and the overt acts of insubordination directed by the branches north of the mountains are disapproved by them to the extent of their abandoning their connection with the association.

MINNESOTA. HORRIBLE ACCIDENT A FAMILY OF PERSONS FATALLY BURNED. ST. PAUL, March 29.—On Sunday morning the house of a farmer named Colson, at Parker's Prairie, twenty five miles from Wadena, on the Northern Pacific Railroad, caught fire from the bursting of a kerosene lamp. The flames shot up rapidly that in a moment the night clothes of the father, mother and five children were on fire. Colson finally dashed out the window and rescued his family, but in a sad condition. They all dragged themselves to the nearest neighbors, a mile distant, barefooted and naked, leaving tracks of their progress in the snow all the way. The father and two children have died of their injuries, and it is thought that the mother and remaining children cannot long survive.

Captured After Many Years. LOCK HAVEN, Pa., March 29.—An important arrest has been made by Messrs. E. G. Rathbone, J. C. Rathbone, A. B. Miller, Robert Denmore, and Thos. Their cars have at the former place, where over a thousand cars are repaired weekly, and immense machine shops have all their employees at work to a man. The engineers and trainmen of the Mine Hill division have reported for work, and in this respect the suspension of these localities. It is due to those employees who have sturdied their connection with the Mechanics' and Workmen's Benevolent Association to accept their statement, that they joined that order under the mistaken impression that it was a charitable and beneficial association, and the overt acts of insubordination directed by the branches north of the mountains are disapproved by them to the extent of their abandoning their connection with the association.

MINNESOTA. HORRIBLE ACCIDENT A FAMILY OF PERSONS FATALLY BURNED. ST. PAUL, March 29.—On Sunday morning the house of a farmer named Colson, at Parker's Prairie, twenty five miles from Wadena, on the Northern Pacific Railroad, caught fire from the bursting of a kerosene lamp. The flames shot up rapidly that in a moment the night clothes of the father, mother and five children were on fire. Colson finally dashed out the window and rescued his family, but in a sad condition. They all dragged themselves to the nearest neighbors, a mile distant, barefooted and naked, leaving tracks of their progress in the snow all the way. The father and two children have died of their injuries, and it is thought that the mother and remaining children cannot long survive.

Captured After Many Years. LOCK HAVEN, Pa., March 29.—An important arrest has been made by Messrs. E. G. Rathbone, J. C. Rathbone, A. B. Miller, Robert Denmore, and Thos. McEnelly (the three first named connected with the United States Secret Service), in the person of Joseph Lansbery, who killed Col. Cyrus Butler in 1864, while attempting to arrest the said Lansbery, as a deserter from the United States army, in Clearfield county, Pa. Lansbery was at the head of a gang of desperadoes who defied the authorities. He was arrested to-day near English Centre, Lycoming county, Pa., and is now an occupant of the Fallon House. The culprit figures sickness, and has given his captors considerable trouble. The physician does not consider the case a bad one.

THE Pennsylvania Rivers—Prospect at Exposed Points. RENOVA, Pa., March 31.—The ice moved at Glen Union this A. M., but stopped again without damage as yet. The river is fifteen inches higher than yesterday. LOCK HAVEN, March 31.—The ice gorge at Glen Union started this morning about nine o'clock with a raise in the river at that point of twelve feet. The river here is rising now. The ice at Queen Run dam is moving out now. The flood is expected to reach here in two hours. WILLIAMSPORT, March 31.—The river rose six inches here last night. The ice at Lock Haven commenced moving last night, but stopped at the head of the boom, seven miles above here. The Glen Union gorge commenced moving at nine o'clock this morning. It is hoped that the ice in the dam and boom here will move out before the ice from Glen Union reaches this point. At Watsontown the water rose seven inches, but everything is safe. WILKESBARRE, Pa., March 31.—The river rose one foot last night, and is still rising. The Lehigh Valley Railroad track between Wilkesbarre and Pittston is covered with six inches of water. The river is now eighteen above low water mark. Crowds are congregated along the river bank in anticipation of the gorge moving, which may occur at any moment. The weather is mild and pleasant.

TELEGRAPHIC NEWS. THE LOOK-OUT IN LUZERNE. VIOLENT MOVEMENTS IN THE COAL REGION. MAUCH CHUNK, March 29.—Intelligence has been received here that about 9 o'clock an outbreak occurred at the colliery at Buck Mountain, Egley, Drifton, Jeddo, Ebervale, and Hazleton, committed by a large mob of miners. In a state of frenzied excitement they started simultaneously at Buck Mountain and Egley with the determination to visit all the mines in their neighborhood. They disarmed the special police from Philadelphia stationed at Buck Mountain and took the arms along, sixteen guns and revolvers. They went to the Jeddo colliery, where Policeman King was shot in the head, but not fatally wounded. Policemen Warner and Meyer were badly beaten with clubs and their weapons taken. At each place visited the men at work were forced to go with them, as follows: At Egley, Drifton, Jeddo, and Ebervale. They called at Mount Pleasant colliery, forcing the men there to go with them with the avowed determination to make them quit work, although Mr. Taggart is paying them in his employ the rates of the 1874 basis. The men went and no damage to property has been done so far, but it is not known whether they will resume work at his colliery. The rioters marched through Hazleton 2.30 P. M., where Father O'Hara, the Roman Catholic priest, advised and exhorted them to return peacefully to their homes. At the last accounts they were quietly disbanding. There is a general feeling expressed that if the miners continue this outrageous conduct the operators will call on the G. V. for troops, and it is thought that rigorous measures should be taken at once. [SECOND DISPATCH.] MAUCH CHUNK, Pa., March 29.—The rioters, knowing that Mr. Taggart had not signed for the whole of 1875, thought the men in his employ were paid on the basis 1874, determined to call and make him sign. On learning of their coming, Mr. Taggart met the rioters near Hazleton and signed the agreement in their presence, and they did not go to his collieries, as first reported. A large company of men was raised in Hazleton and taken to Stockton, where they did picket duty, but returned home after the news came of the retreat of the rioters. All is reported as being quiet in the places visited, but it is impossible to say how long it will last.

THE STRIKE AT SCHUYLKILL HAVEN. POTTSVILLE, March 29.—The information received yesterday and published here and elsewhere regarding the strike of the mechanics and workmen in the employ of the Reading Railroad Company at Schuylkill Haven, as having renounced the association and resumed work on the railroad to-day, is without foundation. The president of the branch at that place, in reply to inquiries made for the facts, telegraphs, denying it, and saying that the branch was still firm and there had been no renunciation. The men on other portions of the road still refuse to leave their organizations and resume work, for which they have been suspended. Reports from Shamokin state that their miners who have heretofore to join the Mechanics' and Workmen's Benevolent Association, now out on a strike for the 1874 basis, have been induced to join and have quietly during the last week, in large numbers, been admitted as members. A majority of these miners have been working at that place regardless of any basis, the prices of mining and labor being arranged between the various individual operators and themselves. Fears are now entertained that this state of affairs will not last long, and we may expect them to join the strikers any day, which would make it a general strike in this vicinity. There has been no incendiary or acts of violence to report last night and to-day, though an engine was
