

Republican State Ticket.

FOR GOVERNOR: GEN. JOHN F. HARTMAN, Of Montgomery County.

FOR STATE TREASURER: HON. HENRY RAWLE, Of Erie.

WANTED A PLATFORM.—The editor of the Germantown Telegraph, one of the most independent journals in the State, has evidently investigated the remaining principles of the modern Democratic party, judging from the manner in which he explains their present position.

The Germantown Telegraph states a fact which is well for tradesmen and others to consider, that the fashionable and wealthy portion of the community do less towards encouraging American industry than any other class of people.

Gov. Hartman's bill, in accordance with the act of 1875, providing for the selection of five suitable persons from different sections of the State who are familiar with its resources, arts, products, history and capabilities, will constitute a State Board to act with the United States Centennial Commission and the Commissioner and Alternate for Pennsylvania.

George O. Evans, who figured extensively as an Agent of the State of Pennsylvania in collecting war claims against the U. S. Government, and then pocketed a big pile of the plunder, died on Thursday last week, in West Philadelphia, aged 54 years.

Senator Stevenson, of Kentucky, is reported as having said that, if the Democratic party tried to make a national issue of the financial question, it will be broken to atoms, which is tantamount to an admission that the party has no common ground on finance.

THE BLACK HILLS TREATY.—A telegram has been received from Frank Palmer, editor of the Chicago Inter-Ocean, accepting his appointment as a member of the commission to treat the Sioux Indians in regard to the Black Hills.

WANTS INFORMATION.—Seth Green, the great fish culturist, has asked the newspapers to call the attention of the people along the lines of the river flats to note whether any young or old fishes are found in the pools and depressions after the water has fallen and inform him of the result.

LYCHED.—Early Monday morning the colored felon, Simms, confessed to having outraged the person of a young white girl, 12 miles from Baltimore, on Friday last, was taken from the jail at Annapolis by a mob and lynched.

TO WHOM IT MAY CONCERN.—NOTICE is hereby given that I have purchased the following articles of personal property, at Constable's sale, as the property of Isaac Knicker, and have leased the same to him during my will and pleasure: one cook, one coal stove, one sink, six chairs, one barrel of vinegar, one clock, one table, one barrel, three bedsteads and one lounge.

has declared to the Catholic world that the religious education of their children is an all important care, a paramount duty, which could not be neglected without guilt. There could, therefore, hardly be a more impudent falsehood than the assertion that a public secular system of education does not interfere with the religion of Catholics.

A FEW days ago the telegrams informed us that the riotous miners of the Clearfield region had been arrested and were to be tried before Judge Orvis, and that Senator William A. Wallace had been retained to prosecute them.

The great Tammany conspirator has been set free from captivity on Blackwell's Island, and is to-day at large. Although the cloud of imputations hanging over him will descend in a shower of writs, it is probable that he will find shelter behind sufficient bail, and be protected by the legal skill which has been persistently and successfully exercised in his behalf.

It is an interference that amounts to a most grievous and in sulting outrage; it illustrates most perfectly the brute rule of a reckless majority in the domain of religion, from which the letter of American law excludes all interference.

shrinkage that has taken place; and the second is that men in business must be content with very moderate margins of profit, and not expect, as heretofore, to make fortunes in a day. The time for the latter has gone by. The soundest fortunes are those built up by slow accretions. Industry, perseverance, economy and close personal attention to details are now necessary to success; and with these, accompanied with contentment over small gains, we shall gradually, but steadily, return to a more substantial and lasting prosperity than the country has ever yet enjoyed.

Our grain exports to date are some seventeen millions of dollars short of shipments for the same period last year. This may be partly due to decline in foreign demand, but is, undoubtedly, attributable mainly to grain hoarding for speculative purposes.

The Philadelphia Sunday Republic has lately made an investigation as to the character of the malt liquors sold from bars in that city, and found not a single specimen that had not been "doctored" or drugged. The effects arising from the regular use of some of the stuff sold under the name of lager beer are said to be highly injurious to health.

A German writer lays it down that sooner or later all nations will follow Prussia in opposing public infidelity. But he hopes that Prussia herself, though having a Roman Catholic majority, will not follow the Roman Catholics in understanding the nature of the present warfare, which is a spiritual one, admitting only of spiritual weapons; moreover that full liberty should be allowed the Roman Catholic, papers to say what they wish, so that the secular press may put in relief that absurdity of their arguments.

For several months past registered letters on the mail route to and from Mauch Chunk have mysteriously disappeared, and the loss increasing, a detective was set at work. On Saturday last, by means of a decoy letter placed in the mail at Hauto, six miles from Mauch Chunk, he succeeded in attaching suspicion to a carrier named Sylvester Weston.

Another appalling disaster, incurring the probable loss of over 40 lives, has occurred at sea. On Tuesday morning, May 27, the steaming Vicksburg, commanded by Capt. Bennett, with a crew of 60 men and 28 passengers, became entangled in an ice field 120 miles off the coast of Newfoundland. Collision with the ice caused a leak which all efforts on the part of the crew and passengers proved unavailing to repair, and just as two of the boats had got clear from the vessel she suddenly sank with the captain and all of the passengers and crew who remained on board.

Half of the main Centennial building, in Fairmount Park, Philadelphia, will be up and under roof within a month. The work on all the buildings is progressing rapidly and satisfactorily.

There were 190 bushels of grasshoppers captured and burned in one day recently, at Manakota, Minn. A double track is to be laid immediately the entire length of the Baltimore and Potomac railroad, running between Baltimore and Washington.

Mr. Lincoln is declared by a correspondent to have always refused to see the sister by whom she was charged in the papers with having sent information to the enemy. She said to this correspondent: "I would not let her cross my threshold, nor any one who was an enemy of my country."

A Harrisburg police officer is named Buzzard. He should have a good nose for criminal carry' on.

Dispatches from various points in Maine, New Hampshire and Connecticut indicate a heavy frost last Sunday night, and considerable damage to crops.

The young crops of corn and cotton in the valleys of the Arkansas, White, Yazoo St. Francis and along the main rivers farther South to the Gulf were never more promising than now. Field hands are more industrious than at any time since the days of slavery.

One million two hundred thousand pounds of honey from a single county seems possible for an industry only about three years old. Yet this is what San Diego county, California claims.

THE LONG STRIKE ENDED.—GENERAL RESUMPTION TO FOLLOW. WILKESBARRE, June 15. The long strike is ended. The miners of the Lehigh and Wilkesbarre coal company made an unconditional surrender through their delegates last night at a meeting with Mr. Parrish. A dozen or more meetings were held yesterday at different places.

At Ashley a delegation of seventy German miners went to a meeting for the purpose of voting for resumption. Their object became known to the leaders and they were excluded from the meeting. They then called a meeting of their own and decided to be governed no longer by the Association. At another meeting the Irish and Welsh disagreed and the former withdrew.

At other meetings there was a lack of harmony, and during the course of the day there was a general disagreement as to future action. The mass of the miners were in favor of going to work, but the leaders fought hard against it. The sentiment was too strong for them to control, and that party yielded in the evening.

A region meeting was held, and the delegates then went to Parrish's office. Here a long conference took place. It was very harmonious, and ended in an agreement to go to work at once upon the company's terms. No concessions whatever were made by the company.

The men stated that they had made a mistake in holding out so long, in making a strike, and were now in want of the necessities of life and eager to have work immediately. This company employs about 11,000 men and all of their works will be started as soon as possible.

The miners of the individual operators will follow the example of the men of this company, and there will be a general resumption in the Wyoming region.

ATTEMPT TO COERCE MINERS.—THEY BRAVELY DEFEND THEMSELVES. WILKESBARRE, June 15.—3 P. M. The miners who have been working at Paine's shaft were met by a large gang this morning and ordered to stay out.

A posse was raised and armed, and they opened the way through the mob, and those who wished to do so entered the shaft. There was great excitement, and the least offensive movements from idlers would have drawn the fire of the posse.

POTTSVILLE, Pa., June 15.—Advices from all parts of the country state that the men are going to work in every direction. They appear to have given up all hopes of attaining their object, and they can understand the best arrangements they can under the circumstances.

At William's colliery, Mahanoy city, the men have applied for work, and they will probably start in a few days.

The Philadelphia and Reading coal and iron company started five collieries, in addition to those that were previously working, and making fifteen now in operation.

A report from Shenandoah says the indications are favorable for resumption in that locality. The Rhoads colliery is working full handed, and the coal is coming out lively.

The West Shenandoah colliery is full, and for the last two days they have been turning men away who apply for situations.

its import, none had for a moment pictured the magnitude of the awful calamity which had taken place. The information which has reached on the subject is contained in a letter dated in Salazar, seven leagues from Cucuta, the 19th of May, from which we extract and translate the following:—

At 11:40 A. M. of yesterday (18th) an earthquake visited this city and region. In this city a large part of the church fell. Several houses were destroyed and some people killed.

CUCUTA'S DESTRUCTION. The city of Cucuta is entirely destroyed, only a few families being saved. The Botica Alemana (German drug store) was set on fire by a ball of fire which was thrown out of the volcano, which is constantly belching out lava. This volcano has opened itself in front of Santiago in a ridge called "El alto la Giracha."

San Cayetano was destroyed—Santiago in a large part. In Gramalote there was great destruction. Arboledo, Cucullilla and San Cristobal are nearly destroyed, principally the four last.

The population of these towns is estimated by a person well acquainted in that region, more or less, as follows:—San Cayetano, 4000; Santiago, 2000; Gramalote, 3000; Arboledo, 5000; Cucullilla, 5000; San Cristobal, 16,000.

The country above referred to embraces the regions around where Colombia and Venezuela join, the Colombian portion embracing the State of Santander.

It is in some respects the most productive part of this Republic, and the coffee of the region is famous all the world over. San Jose de Cucuta, a city of the most important and fertile in the Republic, was situated on the boundary of the Republic, latitude 7 degrees 30 minutes north, longitude 72 degrees 10 minutes west, and was founded by Juan de Marten in 1534. It was a port of entry, and here was the established custom house. The population of the city at the time of the disaster is estimated at about 18,000. It had a large commercial business, and was the great depot for coffee and cocoa for shipment either through the Venezuelan ports or down the Magdalena to this city.

The shock was felt sharply in Bogota and adjoining sections. A gentleman who was at the time in the Faculty of the National University, lasted for three-quarters of a minute. It was also slightly felt in Barranquilla.

The above particulars are all we have been able to obtain for this mail.

WASHINGTON, June 11.—The headquarters of the National Grange of the Patrons of Husbandry, which ever since the organization of the order at Washington, will probably be removed to Louisville, Ky., in a short time. At the last annual session of the National Grange, in Charleston, S. C., in February last, the Executive Committee was charged with the selection of a new point for the headquarters to be located in one of the five Western States named, and the change was to be made within six months from the 1st of March last. The committee, it is understood, have after due investigation, selected Louisville as the most eligible location, although it was expected that St. Louis would have been chosen.

Kentucky has a large number of granges, having 1,559. Indiana leads the list with 2,027 granges; Missouri has 2,026; Iowa, 2,043; Illinois, 1,844, and Kentucky, 1,559. The total number of granges in the United States is 23,500, with an estimated aggregate membership of 1,500,000. The official history of the order, just published by the secretary, shows that the total receipts from 1868 to 1871 inclusive, were less than \$5,000, while the receipts last year were \$216,381. The order at present has \$69,000 invested in Government bonds, and \$19,000 in cash on deposit at the financial agency in New York.

Col. J. P. S. Gales, commanding the Eighth Regiment National Guard, this morning received an order from Gen. J. K. Sigfried, of Pottsville, commanding Fourth division, to send company A of York, D of Harrisburg, I of Wrightsville, F and G of Lebanon, of his regiment, to Mahanoy City and Shenandoah, to relieve the companies now on duty. They will proceed there on Monday morning.

WILKESBARRE, Pa., June 14.—On Saturday night two kegs of powder and a lighted fuse were thrown through the window of James Curry's house in Kingston. One of his boarders was awakened by the noise and extinguished the fuse before the fire had reached the powder. Curry has been working at Paine's Breaker against the orders of the Miners' Association, and summary vengeance was thus attempted upon him. This A. M. twenty men were directed to discharge the duties of Treasurer at Waterman's and Beaver's mines for the purpose of going to work, but they were met by a large crowd of strikers, who threatened them, and forced them to go home.

THE Tired Body Sues for Sleep. BOSTON, March 17, 1874. H. R. STEVENS, Esq. Dear Sir—It is as much from a sense of duty as from a desire to do good that I write to you. I have been suffering from a nervous exhaustion, and I have been unable to sleep for several days. I have been unable to do my work, and I have been unable to enjoy my life. I have been unable to do my work, and I have been unable to enjoy my life. I have been unable to do my work, and I have been unable to enjoy my life.

VALUABLE EVIDENCE. The following unsworn testimony from Rev. O. T. WALKER, D. D., formerly pastor of Broadwin Square Church, and at present settled in Providence, R. I., must be esteemed as reliable evidence. No one should fail to observe that this testimony is the result of two years' experience with the use of VEGETINE in treating nervous and other ailments. It is a most valuable and reliable remedy. O. T. WALKER, Formerly Pastor of Broadwin Sq. Church, Boston.

THE BEST EVIDENCE. The following letter from Rev. E. S. BERRY, pastor of St. Paul's Church, Natick, Mass., will be read with interest by many physicians. Also the means of saving our son's life. He is now seventeen years of age; for the last two years he has suffered from a nervous exhaustion, and I have been unable to do my work, and I have been unable to enjoy my life. I have been unable to do my work, and I have been unable to enjoy my life. I have been unable to do my work, and I have been unable to enjoy my life.
