HON. HENRY RAWLE, Of Erie.

Standing Committee Meeting. A meeting of the Northumberland County Republican Standing Committee will be held in the Arhitration Room, in the Court House, Sunbury, The members are requested to be present. EM<sup>2</sup>L WILVERT, Chairman.

THE Democratic ring in Maryland has so throughly absorbed control of the party affairs in that state that their is a generally expressed desire for an independent movement in opposition to the ticket recently nominated. The Baltimore American says there are a great many Democrats who are already going into such a movement. Without solicitation, and entirely of their own motion, they insist that a non-partisan reform ticket should be placed in the field, and they guarantee to work and vote for it. They are the opposite of insignificant in numbers and influence, and they are anxious to go into the fight as a matter of principle, while their con fidence in the result is really sanguine. Their is a genuine and enthusiastic revolt upon the part of men who are nothing but Democrats against the ring and the ring ticket, and the intention of breaking down the system of fraud and corruption which they represent, and no mere abuse or calling of hard times will turn them from their purpose. They will be heard and felt between now and the day of election, and a full and fair discussion of the situation is precisely that which they are the most desirious of. There are a multitude of voters in Maryland who are not to be blinded by platforms and candidates to the evils which are involved in the coatinuance of ring rule

Gov. KELLOGG, of Louisiana, whom the White League first attempted to assassinate, and failing in that, sought by revolution, to overturn the whole State government and thus get rid of him, is not content with a quiet performance of his duties and the gradual reduction of the State debt, but is engaged in the good work of tigating the corruption of the Auditor's office. He recently appointed experts to examine the affairs of that office, and has just addressed a letter to the Attorney General with a brief statement of the result of that examination. He says : The investigations that have taken place before the civil and criminal courts, and part of other persons, whose acts have inured the State and have cast discredit on diately take prompt measures to bring to justice all those who have been guilty of defrau ding the State, as disclosed by these

RALLVING CRY. The Republican State committee has issued the following address ;

To the Republicans of Pennsylvania : The political campaigu upon which we are entering is one of more than ordinary importance, and we therefore invoke your

hearty co-operation in our efforts to press the claims of the Republican party to public confidence and support. The success of that party is essential, in our judgment, to the prosperity of the State, to the perpetuity of the union, and to the permanence of the principles upon which the government is founded.

REPUBLICAN ADMINISTRATION.

to gain by a change in the administration of public affairs. THE REPUBLICAN CANDIDATES. The candidates for State offices presented by the Republican party are in every way worthy of public confidence and of a hearty support. Governor Hartranft, during his six years' service as auditor-gen-

We often hear Thomas Jefferson spoken of as "the father of Democracy." This is true in one sense and false in the other. Jefferson's party up to 1816 was known as the Republican party. It was so called by Jefferson, known as such among its followers, and was so styled in all the party calls published during that period. Therefor, correctly speaking, Jefferson was the father of the Republican party. The term Democracy was fixed upon Jefferson's party by its opponents in order to create odium against it. After Jefferson's time it became a popular name with the party and was finally adopted by it.

A large number of the creditors of Jay Cooke & Co. in this city have yet refrained from accepting the meagre dividend of five per cent., declared more than six months ago by the trustees. It is understood that this course has also been pursued by some of the large creditors in New York and Philadelphia, who are of the opinion that something much better should have been offered them, and are not willing to accept so small a portion when it might be an ob- stacle to the legal proceedings which it is contemplated to take. To-day all this class of creditors received through the mails a circular from the Trustee, urging them to signify their acceptance of the divi- dend which for the reasons here given they have hitherto declined. The London <i>Times</i> of Saturday contain- ed an elaborate article in favor of the cen-	people do not seem to be buying of the re- tailers, and per consequence, their stocks are comparatively heavy. Purchases are being made with great caution, and in the smallest possible quantities. This condi- tion of things may be chargeable partially to the hard times, but I have an idea that the trade that New York is now suffering for the want of, she never will get again. Boston is getting part of it, Baltimore still more, and Chicago, Toledo, St. Louis, Cin- cunati, Louisville and other inland points are doubling and quadrupling their busi ness. It is possible that New York is ab- solutely overgrown, and that its sceptre has departed. No matter what the cause, the merchants are as blue as indigo, and are likely to keep so. THE TRADE BOOK SALE is about the only sensation in the city at this time. The publishers and booksellers of the United States formed an association last year, the object being an annual fair, where the manufacturers could meet deal- ers.
