8.30 a m from now until the 15th of September. It grows 1.25 p m rapidly and under favorable circumstances will 7.30 pm produce a crop if sown as late as September 15th. 7.55 a m 11.45 a m | maturity of animals designed for slaughter has 6.15 p m been for many years one of the chief aims of 3.35 p m the breeders, and they have accomplished 9.10 a m results really astounding to those only familiar 10.25 a m | with ordinary stock. This is especially true of Williamsport, 11.35 a m | Short-Horns in England though possibly as good 6.20 p m results may be known by American breeders. 9.15 p m At a recent sale in England a list of 18, 15 and 6.35 p m 11 months' beeves were sold at prices which re-11.20 a m turned a larger rate per week than any longer

2.25 a m subject, says : " "It appears from the above that any kindly, 10.10 a m | well-bred Short-Horn fattened from birth on the 12.35 a m plan rapidly extending in Sussex and Surry will 3.55 a m return 7s. a week at from 13 to 18 months old ; 7.35 a m and a fair inference from facts presented is that 10.25 a m bullocks fattened from birth in barns or yards Eric Mail West, Niagara Express West, should be killed at less than two years old, since Eimira Mail West and Day Express East make close connection at Northumberland with L. & they hardly continue to grow and make flesh in the same proportion when they have been highly Eric Mail West, Niagara Express West and fed from 18 to 20 months. The young bullocks Elmira Mail West make close connection at usually turn out exceedingly weighty and full of

The difficulty with most common breeds of cattle would be to fatten at so early an age. The large, coarse cattle from are never fattened under three years, and sometimes not till four C. & A. V. R. R., at Emporium with B. N. Y. & or five years old. Here is a clear waste of one or two years' keeping to produce the same amount of beef. In Texas, however, what is Williamsport on Niagara Express West, Fast Line West, Philadelphia Express East and Day lost in time is saved in cost of keeping; but this Express East. Sleeping Cars on all night trains.
WM. A. BALDWIN, Gen'l Sup't. rule only applies where large, grassy plains furnish abundant feed at slight cost. Another advantage of the Texas breeder is in the undoubted hardiness of the stock. The attempt to Philadelphia & Reading Railroad. breed for fat and early maturity tends to injure the constitution, at least so far as to impair the breeding capacity of stock. Still, the advantage of early maturity is so great that the improved breeds will continue to be in increasing demand TRAINS LEAVE HERNDON AS FOLLOWS: (SUNDAYS) wherever cattle are fed and cared for rather than

MANAGEMENT OF POT PLANTS .- Amatours are For Mt. Carmel, Ashland, Tamaqua, Pottsville, are apt, in rejoting plants, to make the soil too

one pot to another, is the use of too large pots Leave Philadelphia, 9.15 a. m. 3.40 and 7.00 as the plants increase in size. In changing, use pots only one size larger than the plant was in before. To do this in the best manner put some drainage in the bottom of the pots, say four inch size, being careful to close the hole in the bottom by laying a piece thereon; on this place a little rich compost mixed with one-half its bulk of sharp sand. Then place a pot one size less than the one containing the plant to be moved. Fill in around this with the the same material pretty finely packed. Lift out the pot and fill with soil, just so that the ball of erarth in which the plant is contained will reach to about half an inch of the rim of the pot. Now set
