THE LIGHT RUNNING "DOMESTIC."

The "Domestic." The "DOMESTIC" is an exceedingly simple machine in all its parts and processes. It is easily understood; familiarity with its action is very quickly acquired, and it needs hardly any practice of special skill in the operator. The superior advantages obtained in the "Do-MESTIC" are mainly:

Quietness-no Cams or Gear Wheels. . Perfect Stitch-Double-thread Lock Stitch. 4. Durability-arising from Simplicity of Con

5. Absence of all Friction. 6. Great range of Work. . Ease of Operation. We do not say that the "Domestic" is the only Machine worthy of public favor. We admi there are some possessing real and acknow-ledged merit; but we do claim, and are prepared to demonstrate, that the "Domestic" has many excellences that render it decidedly superior tany other Machine now before the public. Let every woman, therefore, examine for her-AMONG THE ARTICLES AND CONTRIBUTORS TO THE become a pleasant exercise of skill and taste, in stead of a slow manual drudgery; she will have the time and strength to add beauty and elegance

to work in which before she has been obliged to content herself with bare utility CAROLINE DALIUS, Agent,

HOPE. '8 O'clock.' HOPE.

"Behold I will stand before the there

upon the rock in Horeb; and thou shalt smite the rock and there shall come water out of it that the people may drink."-Ex. Perhaps at no period of christian history from the days in which Christ astonished the multitude at the pool of Bethesda, has such an exciteent prevailed among the sick as is now created by the accidental discovery of a fountain of min-eral water which beyond cavil eclipses the whole fraternity of the learned faculty in restoring to original health almost every form of chronic disease. Finding it impossible to accommodate the sick, here the proprietors propose to furnish the concentrated medicine prepared by simply reduc-ing the water by evaporation into a fine powder or Mass, which posesses all the wonderful virtues of the water in a cheap and convenient form. The Mass is a fine tonic, alterative and absorbent and is especially useful to ladies suffering from irregularitles and affections peculiar to their sex. I has been universally approved and endorsed by the Medical Profession wherever introduced, both as a dissideratum in their materia, and as the best popular remedy ever offered in the cure of Asthma, Billious Affections, Brouchitis, Chills, Coughs, Cancer, Asiatie Cholera, Cramp Choile, Cutaneous Eruptions, Dyspepsia, Consumption, Dropsy, Sore Eyes, General Debility, Diarrhoa, Effects of Debauchery, Female weakness, Gravel, Headache, Heart Disease, Hemorrhages, Kidney diseases,

Complaints, Venerial diseases, Worms Whites, and all diseases which derive their origin from the Blood, Liver or Kidneys. Dissolved in water it makes an excellent wash, gargle and injection, and incorporated with fresh lard, permanently cures the most obstinate case of Piles. The claims of this remedy cannot be over estimated in the cure of the diseases mentioned above. The Analysis of the Mass by Prof. Chas. F. Chandler, Ph. D. of the College of Pharmacy, New York City, proves its perfect adaptation to every form of disease proceeding from the Stom-

Ulcers, Loss of Appetite, Languor, Liver, diseases,

Tetter, Mental Depression, Nervous Debility, Neuralgia, Nocturnal Emissions, Night Sweats,

Prolapsus Uteri, Sexual weakness, Scrofula, Sum-

ach, the Liver the Kidneys, and the Blood. ANALYSIS: Sulphurie Acid. Alumina. Oxide of Iron, Magnesia. As Sulphates. Potasa, Soda, Carbonic Acid, Phosphoric Acid.

Organic Matter. The Mass is harmless and may be used at Being fully aware of the popular prejudice existing against advertised remedies we offer the Mass under the following warrants, siz: 1st that the medicine shall be what is claimed to- 'a. 2d, All money sent by Registered letters shall reach us. 3d, All medicines ordered by the public snall reach them in good condition and give satisfaction. 4th, That we hold ourselves responsible to forfelt \$500, if we violate any of these warrants. PRICE-\$2 postage paid by mail, or, three packages for \$5. Six packages will be sent by Extention to my Spring arrivals of Millinery and press for \$9, or, it will be sent C. O. D. with return charges added, if ordered in lots not less Address.

Agricultural.

SETTING out strawberry beds will now soon be n order. This should not be done before the last week in this month. Most growers prefer September, as late as the middle of the month, for the work. The plants for new beds are of course of this year's growth. They should be taken up with care, so as not to bruise the roots ; and after being taken up should not be exposed to the sun, but covered with soil, or rolled up in a 12.55 p m cloth, moistened and put in the shade until ready to set. Plant rather deep and make the soil firm around them. If hills are desired, in or-10.20 p m | der to cultivate between, the plants should be 11.50 p m | set about thirty inches apart each way; but if 8.25 p m a bed is preferred, one foot to fifteen inches is 11.55 p m space enough. Both methods have their advocates, but the one to adopt should depend upon 8.35 a m | the nature of the plant. Those of strong and 11.05 a m rampant growth, like the Monarch of the West, 7.50 p m | Trium ph de Grand, &c., will probably do best 7.40 a m in hills; while others of smaller growth, like 7.35 a m Hovey, Downer's Prolific, and half-a-dozen others, do best in beds. When cold weather 3.15 p m | sets in the beds should have a light covering of 4.30 p m straw or stable manuring. In the spring if any 8.00 a m 8.30 a m of this litter should be in the way, it can be re-

1.25 p m | moved; otherwise let it remain .- Germantown No MULCH FOR GRAPEVINE .- A correspondent of the New York Tribune recommends 7.55 a m green cuttings of wood, grass or garden refuse 11.45 a m with ashes as summer mulch for grapes. He 3.35 p m | had much better use no mulch whatever, keep-6.45 p m | ing the ground well caltivated around the vines to admit air and warmth. Grape vines need no summer mulch. Even in our hottest and dryest weather we have never known grape vines to be 6.20 p m | injured by drouth, and we understand that they endure the severe dry seasons in California without injury. The more protracted the droath the deeper the grape roots will strike down for moisture. The common disease of vines, mildew, etc., originate in too much moisture and too low a temperature. To cover the ground with a mulch only makes the matter worse. It is sometimes advisable to protect grape vines from the severity of Northern winters, but the covering should be promptly removed so soon as warm weather comes in spring .- Rural New Yorker.

To GET LAND INTO GRASS .- In answer to a New Jersey correspondent, the Rural New Yorker: We should advise shallow plowing of such browsed it is kept the better. Sheep are just the stock to feed down Orchard grass, as they bite

lose and distribute their manure evenly. WHEAT ON CLOVER SOD .- The best preparation for a wheat crop is a good clover lay. This should be turned under by the first of August, to give time for decomposition before sowing the of September, when the wheat is to be sown, another mouth must pass before any real benefit can occur to the growing plant. Lime sowed on the clover before turning it under, assists materially in hastening decomposition, and if plowing has been deferred until nearly seeding time, it will be found very advantageous. Take one year with another I have observed that a good, healthy growth in the fall is essential to success in growing wheat, and the farmer capnot take too much pains in trying to seenre this

THE ONION AS FOOD .- It is stated that the onion forms one of the common and universal upports of life in Spain and Portugal. Authority shows, according to analysis, the dried onlon contains from 25 to 30 per cent. of gluten, and ranks in this respect with the nutritious pen and the grains. "It is not merely as a relish that the wayfaring Spaniard eats his onion with his humble crust of bread as he sits by the refreshing spring; but it is because experience has long proved that, like the cheese of the English laborer, it helps to sustain his strength also, and adds, beyond what its bulk would suggest, to the

meal supplies." HOUSEHOLD.

. CADWALLADER

J. E. WOOTTEN,

PERFUMERY cles usually kept in a first-class Drug Store. gravy. It can be served hot or cold. Special attention paid to compounding pre scriptions and family receipts by competent druggists.

Portland, Roman, Rosendale and Lehigh CEMENTS. Land Plaster for Farmers, Timothy and Clover

> PALESTINE Sour .- Boil two pounds of Jerualem artichokes in salted water, and when quite done pass them through a hair sieve. Take a quart of milk, boil in it a handful of whole

DR. C. M. MARTIN & CO, H AVE just received a fresh lot of Pure Drugs and Patent medicines.

> cutlet, with a sharp knife shape it like it a cutet, and fry them in boiling lard. Put about a pint of green peas, previously cooked, in the cutlets neatly around the peas, and serve quite hot. OYSTER SAUCE .- Parboil the oysters in their own liquor, beard them, and reserve all the liquor. Melt a piece of butter in a saucepan, add a little flour, the oyster liquor, and enough milk to make as much sauce as is wanted. Put in a blade of mace and a bay-leaf tled together, pep-

POTATO CAKE .- Wash the potatoes, and while warm knead some flour into them to make a smooth paste; add nothing except sait. Then cut it into cakes rather more than half an inch

any kind of white boiled fish, remove the bones and skin, and break it in rather small pieces. Boil some maccaroni in water till terder, drain it well, and cut it in lengths of about an inch, and mix equal quantities of fish and maccaroni. Then put two ounces of butter into a stewpan, add the yelks of two eggs, a little lemon-juice, pepper, and salt, and stir in well half a pint of good melted butter; make the sauce quite smooth, put in the fish and macaroni, and heat It thoroughly in the sauce. Pour it out on a cover it thinly with fine bread-crumbs, and brown the top in the oven till of a nice light

soil as the best preparation for getting it into grass. Still a thorough pulverization of the surface to make a good seed bed would answer. If intended for permanent pasture, sow this fall a mixture of Timothy and June grass. It is probable that the land is not rich enough, and in that case sow a mixture of Orchard grass and Clover next spring with one bushel of Oats and Barley per acre. The Clover will be the chief crop the first year, and should be let grow without pasturing till it is in blossom. Orchard grass will spread rapidly as the Clover runs out. Do not pasture the Orchard grass until the sod is fully established. After that the closer

growth .- J. H., in Ohio Farmer.

amount of nourishingment which his simple

[From Godey's Lady's Book of Sept.]

BEEFSTEAK PIE .- Make some forcement with crams, a little chopped parsley, thyme, a small nion and some mushrooms; add seasoning of salt, pepper, and nutmeg, pound in a mortar, noistening with the yelks of two eggs. Take a tender rump steak (or the undercut of a sirioin of beef), cut it in thin slices, season with salt, pepper, and a little shallot. Roll each slice like a sausage with some forcement inside. Border a pie-dish, put in the beef and forcement, fill it up with good gravy, flavored with a sharp sauce. Cover with puff-paste; bake in a moderate oven. Make a hole in the top, and add some reduced

WHITE SOUP .- Take two quarts of good stock, put it into a saucespan with half a pound of lean yeal, a slice or two of ham, two whole onions, a carrot, a head of celery, mace, and a faggot of herbs; boil gently for an hour and strain. Pound up the white part of a cold fowl with one ounce of sweet almonds (blanched), and one slice of crum of bread previously soaked in boiling milk. When quite smooth add this to the soup and press it through a hair sieve. Mix the beaten-up yelks of four eggs with threequarters of a pint of cream and a desertspoonful of arrow-root; add it to the soup and stir it over the fire till quite hot, but do not let it boil; add salt, pepper, and a little powdered sugar.

pepper, a piece of mace, half a dozen cloves, and an onion. When the milk is well flavored, strain it ; then melt a piece of butter the size of an egg, stir rute it a tablespoonful of flour, then gradually the flavored milk and the artichoke pulp. Boll it up, mix well, and lastly stir ingill of cream, adding more milk if the soup be too thick, serve with small dice of bread fried FORCEMEAT CRITICETS WITH GREEN PEAS.-Take one pound of any underdone meat, mince it in the sausage machine, or pound it in the mortar as if for potting; season with pepper and salt, and mix it smoothly with the raw yelks of two eggs. Press it out to the thickness of a lamb
