If they vote for Reitz, they vote to deprive the west side of any representative in the Board of Commissioners, and what is worse, elect the poorest, and most irefficient candidate of the four. It they vote for Durham they vote to be represented in the Board, as they are entitled to be, and should be. Besides they know Mr. Dur-

OUR pugilistic neighbor of the Democrat says that we lied, and that he is none of the "impersonal" chaps. That may be a good way for our neighbor to get out of a bad scrape, but then it don't alter the case any, as a number of persons heard him say that Hottenstein was a fool. We were willing to grant him the privilege of thinking about that as he pleased, however, and believe that he was pearer correct then, than he is now. As to the charge that we are a liar, that is also an opinion of Jake's which may have found expression in a little "palpitation of the heart." It we wished to reply to our neighber properly and of a journalist in Philadelphia lately, who said his cotemporary was a "red-headed liar and mischief maker." But if we were to accuse our neighbor in such a manner, be could not be convinced of the truth, and would probably deny it, and say that he was only an "impersonal" liar.

During the two years he occupied that position, matters were more closely investigated in that office than ever before, and the result is, that thousands of dollars were saved the county. The remuneration he received for his services were comparatively small when compared with that of previous solicitors for the county. While his predecessors were not required, perhaps, to render similar services, they undoubtedly charged equally as much, if not more than Mr. Sober, in proportion to the services rendered. During Mr. Sober's incumbency a number of cases involving thousands of dollars occurred, which by his advice and counsel, he saved the county. We will enumerate a few, viz : the Bacher, Cake and Lenker road cases. The first of these. A number of meetings were to be held throughout the county, but as no audience could be rallied, many of them proved a fizzle. The people throughout the county have informed themselves much better than in times past, and understand the situation better than many of their speakers, sent out to instruct them how to vote. Every Democrat in the county knows that one of the cardinal principles of that party was the resumption of specie payment, and that they were the following resolution:
