

GOV. HARTMAN'S annual message which was delivered to our subscribers last week in supplement form, leaves no important question untouched and deals with every matter of vital import, in a manner that at once convinces the readers of the bold vigorous conduct of the Chief Executive of the State, his fearlessness to combat wrong, and manliness to assume the championship of the right.

The mechanics and laborers of the State are interested in one of the reasons given why Sam Randall could not be Speaker of the present Democratic House.

THE RETIRING SHERIFF AND HIS DEPUTY.—Among the retiring county officers, who stepped down and out, on Monday last week, there is none more regretted by the whole people than S. H. Rothwell, Esq., who has filled the office of High Sheriff for the last three years with such great satisfaction to the people.

THE NORTH GERMAN LLOYD STEAMER.—The North German Lloyd steamer "Mosel" was timed to start from Bremerhaven on her voyage to New York on Saturday morning, and at the appointed time the steam-tug "Simons" which had to tug her through the ice that intercepted her passage to the channel—lay under her bows and everything was ready for the departure except the mail bags from Lloyd's Hall.

MR. GEORGE W. DEPPIN who has filled the position of Deputy in the sheriff's office, has also won golden opinions for himself as a courteous and obliging gentleman, and thorough business man, for which we hope he may hereafter be more substantially rewarded.

THE AMNESTY BILL IN CONGRESS, has caused an exciting debate. Mr. Randall in refusing to take a vote on Mr. Blaine's still amendment requiring a petition and oath of allegiance, was signally defeated.

HILL said the south lured the Union now more than before, and never again would they be guilty of the folly of secession and disunion.

THE DEMOCRACY, since obtaining control of the lower House of Congress, have exemplified the old Jacksonian law by ousting every Republican holding position, from highest to lowest, including a large number of named Union soldiers, and have replaced them in many instances with ex-Confederates.

YANKEE DOODLE.—The Washington correspondent of the Boston Journal is trying to prove that "Yankee Doodle" is our national air, and he quotes this anecdote related by John Quincy Adams to sustain him: "After the Ministers Plenipotentiary of Great Britain and the United States had nearly concluded their labors at Genoa, the burghers of that quaint old Dutch city determined to give an entertainment in their honor, and desire to have the national air of the two treaty-making powers performed as a part of the programme.

THE Bankrupt law seems to find but little favor anywhere among honest dealers, and is universally denounced as an engine of fraud and corruption in the hands of dishonest men who are working ruin and disaster to unfortunate creditors.

THOMASSEN'S PLOT.—The full story of the Disaster.

LONDON, Dec. 18.—You will already have received by cable the outline facts of the terrible explosion at Bremerhaven, by which over 200 people were either killed or dangerously injured.

THE opening of the centennial year at Harrisburg has been marked with no more important event than the meeting of the Legislature. In the manner in which the majority of the House side was run last winter led some to predict that a similar failure would ensue—hence all interested were anxious to see the session of "Seventy Six" organized.

THE Carnival of Crime.

OUR NEW YORK LETTER.—NEW YEAR'S—CALLS AND CALLERS.—THE HELPLESS POOR.—THE CARNIVAL OF CRIME.—THE DILLON MURDER.—A MILLIONAIRE IN TROUBLE.—THE LAST TRAVEL.

THE week before New Year was one of fog and rain, with the English grand about the year closed in a heavy rain, which cleared in the evening, in the most amiable way. Watchers that night were startled by a sudden vehement din breaking the soft air, but the next minute it died.

private rejoicings in their own way, and "made things hum." The steamers sounded their whistles and fog-horns, and every factory, and church bell swung recklessly. It was impossible to distinguish anything that was not a fall of a loud humming, in which broken notes of bells, fog-horns, screams, and reports of rockets, were mixed like mad, for the coming-in of the hundredth year. The morning was so lovely it was a mockery to call it a winter's day—for it smiled clear and soft as April.

THE TROUBLES OF A MILLIONAIRE.—You have all heard of "Vinegar Bitters." The proprietor, or one of them, is a man named Walker, who married a wife in California. In making and selling this horrible tasting medicine, "Dr." Walker has amassed a large fortune, for his "bitters" taste so badly that people supposed there must be virtue in them.

THE HELPLESS POOR.—Vigorous efforts are made by the Benevolent Societies to provide for the helpless poor, before the cold, which we are taught will strengthen as days begin to lengthen.

THE DILLON MURDER.—Dillon was on board the Deutschland. On the day the vessel sailed he wound up the clock again, so that it should explode in mid-ocean and blow up the vessel, cargo and passengers, after he himself had landed at Southampton, where it is said he intended to put on board heavily insured cases and packages. At Bremen he shipped a worthless barrel, which he insured for 3,000 marks as caviar.

MR. BOWEN.—The fact that it has been made to appear that Mr. Bowen's paper, "The Independent," was used to some extent, to further the Pacific railroad scheme, is an advertisement upon severely.
