Boots and

Which is fast becoming a universal favorite throughout the country. Shoes. HATS AND CAPS,

This Iron contributes its full share towards economy in domestic life, and is well worth the attention of every housekeeper. It is heated simply by a tree inside, like an ordinary stove. They are of different sizes, weighing from five to eight pounds. It saves one third the time—an ironing is done with much less fatigue—to danger of smurting the clothes, and when trouble they have a much better facility. Leather and Shoe Findings. J. H. Zimmerman It leads to the framer a great degree of common dince, by the use of it, hot rooms are avoided, am the person is not subjected to the almost insuffera de next of a slove or furnace in warm weather. A sufficient proof of the satisfaction which it gives, and the favor with which it is received, is the directly large and still increasing demand for it and which tells how fast it is coming into general use throughout the country.
