Smoothing Irons, This Iron contributes its full share towards eco

HATS AND CAPS. This from contributes his full share towards even-eany in domestic life, and is well worth the atten-tion of every housekeeper. It is beated simply by a fire inside, like an ordinary slove. They are of different sizes, weighing from five to eight paunds, it saves one-third the time—an ironing is done with much less fatigue—no danger of smutting the clothes, and when ironile they have a much better floish. Leather and Shoe Findings. J. H. Zimmerman It lends to the ironer a great degree of comfor ince, by the use of it, hot rooms are avoided, and he person is not subsected to the almost insuffera-Takes pleasure in calling the attention of the cit-izens of Somerset and vicinity to the fact that he has epened a stere in his residence on Union street, where there will always be kept on hard a com-

use throughout the country.

Not only are the virtues of the fron appreciated at home, but the true worth of it is becoming so apparent everyhere, that thousands of them are now being sold to various foreign countries. Such is the confidence of the manufacturers in Such is the confidence or the manufacturers in the excellency of this iron, that they say it only needs a trial to prove itself valuable to every house-keeper, and we warrant them to give satisfaction if the directions are fully observed.

38 No change of Iron it required.—ONE being all that is necessary for a family, as it can be kept costantly hot while in use, and only reputring HATS AND CAPS. One Cent's Worth of Charcoal for an Ironing. Leather and Shoe Findings
