

A bill has passed both houses providing for the transmission by mail of seeds and cuttings in packages not exceeding four pounds each.

The special election on Tuesday to fill the vacancy occasioned by the resignation of Hon. Ulysses Mendenhall, to take his seat upon the Supreme bench of the State, resulted in the choice of F. C. BUNNELL, Esq., Republican.

The severity of the winter is shown in the fact that between Huntington and Peru, Indiana, sixty locomotives were frozen up for nearly forty-five hours.

Susan B. Anthony, and fourteen other women who insisted upon voting at the last general election, were arrested at Rochester, N. Y., for illegal voting, and were held to bail by the U. S. Commissioner in the sum of \$500 each to appear before the U. S. District Court, at its next session at Albany the third Tuesday of January.

The snow storm prevailing over the Eastern, Middle and South-western States for the last week, is the heaviest experienced for years.

The removal of our establishment to its new, and we hope permanent quarters, on the site of the old building destroyed by the fire of May last, has occupied so much of our time for the past week, that we could not devote our usual care to the editorial and make up, of this number of the Herald.

Mr. BLAINE will not have a walk over in the race for the Speakership of the Forty-third Congress, it is talked of as a candidate, and HORACE MAYNARD, the wheel-horse of the Southern Republicans, will be made a strong one.

The editor of The Scranton (Pa.) Free Press made free with the character of a Mrs. Silkman, charging her with having eloped with another woman's husband. Upon this Mr. H. O. Silkman and his brother-in-law visited the office. They began by administering to the editor corporal punishment of the severest description.

The last "cold snap" extended from New England, as far west as the Missouri river, and was prolific of Railroad disasters, fires, the bursting of steam flues, and other damaging incidents of extremely cold weather.

The list of casualties and deaths all over the country, from these ranges, proves them to be as dangerous almost, as ghno powder or coal oil, and our citizens who propose introducing them into their new houses, had better think twice of the matter, before indulging in the destructive luxury.

The Post office committee of the U. S. Senate has reported a bill to carry into effect the President's recommendation that the government establish a system of postal telegraphy.

When the crash came then went up a tremendous wall from mangled humanity. Children wildly shrieked for their parents, and the groans of the wounded and dying filled the air.

A FRIGHTFUL ACCIDENT.

WESTFIELD, N. Y., December 24.—A frightful accident occurred this afternoon at the cross-cut railroad near this place. A bridge over which a passenger train was passing gave way and precipitated to the ground below, wrecking the entire train.

THE WASHINGTON LETTER.

WASHINGTON, Dec. 26, 1912. A WHITE CHRISTMAS. Christmas day was very quiet and cold in the capital.

Christmas day was very quiet and cold in the capital. The morning was dull, and a snow storm commenced here about one P. M., which continued all night and most of the following day.

A large delegation of the Warmoth party, of La., are here apparently trying to make minnies of themselves. They occasionally rush into print when their peculiar views are not admitted by the administration circles.

The removal of our establishment to its new, and we hope permanent quarters, on the site of the old building destroyed by the fire of May last, has occupied so much of our time for the past week, that we could not devote our usual care to the editorial and make up, of this number of the Herald.
