From the present indications, the call for the gold will place on the 23rd of January, of all persons who are desirous of the sale of intoxicating liquors, will be a success. The call has been signified by the arrival of the doctors, tavern-keepers, bankers, merchants, farmers, mechanics and laboring men.

WE have it from reliable authority that Meyer's ship, etc. N. G. Keim, of the Somerset, has a couple of moneyed gentlemen from that much-named town, intended for the cupola, engine, etc. of the United States, to the Mills, and carrying on the business extensively. In view of the extensive mining and manufacturing operations projected in that region, it is not surprising that the new establishment should be so successful. We will speak anon. The ground selected for the building is located a short distance from the depot.
