To Butter Shippers.

We would again advise all to push their butter into market by express, as fast as made and packed this spring. It has opened high on account of its scarcity—receipts so far having been placed @ 40 to 45 cents —but prices will gradually decline as the season advances and supply increases. So rush it along soon and we will do our best for you.

JESSE SLICK.

Shade, April 16th, 1872.

PITTSBURGH, Jan. 3d, 1872.

We have used Beyer, Bauman & Co.'s brand of Strictly Pure White Lead, in our manufactory for the last five years, and find it uniformly ground, very fine in excellent covering qualities, and in the amount we prefer it to any other we have used here or elsewhere, and we have used most all the brands during the five years we have been in the painting business in this city.

W. R. BOGGS & Co.

A LOT of seasonable goods at Hyimyer's Hardware Store.—The best Meat Cutters in the world, Sausage Stuffers, Coal Buckets very low, Coal Shovels, Forks, Butter Knives, Slaw Cutters, Horse Brushes, Sea of Ladies, Sleigh Bells—All-Patent Mop and Brush Holders, Soap Stands for Buckets and Tubs, Porcelain Lamps, Iron Stands, Stone Sludges, Wire Coal Lines, Baskets, Step Ladders—in fact if you want anything at all in the hardware line, go to Hyimyer's Store for it.

WE are glad to learn, as we do from one of our directors, that arrangements have been consummated for the speedy ironing and completion of the Buffalo Valley Railroad to the thriving town of Berlin to connect with the Pittsburgh, Wash. Junction & Baltimore Railroad at Garrett Station. The first installment of rails is to be delivered on the 15th of May next, when the work or track laying will be commenced and rapidly pushed to completion. We congratulate our friends along the line of the important route at the prospects of completion.

THE HARDEST OF THE HEAD.—When the weeds are as a rake, bringing away a ton of parted liberty every time it is passed through the hair, baldness would soon be forgotten. But even in this case, forlorn as it may seem, the mischief can be arrested, if not repaired. Lyon's Kathairon, used by a brisk application of the brush to promote the absorption of the fluid by the scalp, will stop the thinning-out process in very short order. The roots from which the dead filaments were shed will soon be endowed with vitality and a new growth will speedily spring up on the denuded places. This work of reproduction will go on until the damage is completely repaired, and the luxuriant crop of hair thus produced will never wither or fall out as long as the vitalizing application is regularly continued.

BRICK! BRICK!!

W. W. DAVIS & BRO.,

Have for sale at their yard or delivered, 300,000 brick.

Notice.

By order of the Council, the following is published for the information of all concerned:

BOROUGH ORDINANCE, Sec. 23.—That the erection, construction, or building of any barn, stable, shed, or other out-buildings on Main, Main Cross, Ursina or Patriot streets, from and after April 15th, 1872, is hereby prohibited.

Attest— G. W. BENFORD,
J. G. OGLE, Burgess.
Secretary.

THE Hotel Keepers of Chambersburg have adopted the following scale of prices to take effect on and after Tuesday, April 1st, 1872: For boarding Jurors or Witnesses, per day, $1.50; single meals, 50 cents; horse feed, 35 cents; horse per day 75 cts; man and horse over night, $2.00; Oats per peck 50 cts; horse in stable, not less than 25 cents.

The above rates are an advance on the old prices of from 25 to 50 per cent., the reason for the advance being the adoption of local option, at the late election.

MUSIC.—We would call the attention of our readers to the card of Charlotte Blume, to be found in our advertising columns.—Her house is one of the oldest in Pittsburgh, and in her warerooms, will be found, constantly stocked some of the finest instruments manufactured in this country.—"Knabe" Pianos, for which she is agent, have long been acknowledged superior to all others. Haines Bro.'s Pianos are the finest and most durable low priced instruments in the market; while Geo. A. Prince & Co.'s Organs are acknowledged, for tone and durability, to be unequaled. She also keeps on hand a large stock of small instruments; also Sheet Music, Books, &c. Persons ordering from a distance are assured of receiving most prompt attention. Catalogues and price lists mailed to any address. Her ware-rooms are located No. 19 Sixth Avenue, just opposite Trinity Church.

COUNTY PAPERS.—Under the above caption the following is what the Cincinnati *Trade List* thinks of those characters who complain of their County paper, and instead of helping to support it, send off for large city papers and thus support them:

A gentleman writes to us that his county paper is so poor that he has stopped taking it, therefore sends us three dollars for the *Trade List*. We repeat that we dont want subscribers on those terms. A man's county paper is worth more to him than any other paper in the world, or if it is not it is his own fault. If the county paper is properly encouraged, it may be relied upon for information of more value to the people in whose interest it is located than can be found in all the city papers in the United States. No man can afford to stop the paper that publishes the official advertisements of the county, the public sales, the market, court news and other local intelligence. If the paper is poor the people is more to blame than the publisher for not giving it liberal patronage. However poor the county paper may be it is always worth more than it costs to those interested in the affairs of its locality.

UNITED STATES SPECIAL TAX.—Liquor and tobacco dealers should note the fact that all special (license) taxes expire on the first of May next, and must be renewed forthwith. In lieu of receipts heretofore given, a stamp will be furnished, which is to be posted in a conspicuous place in the establishment. The Assessor's office having been abolished, all business connected with the Internal Revenue will now be transacted at the office of the Collector. Hereafter a blank form of application for tax has been used, but now there is to be used a blank in the shape of an affidavit, setting forth the nature of the business to be carried on and the place where. The nature of the form may be gathered from the following notice attached thereto. "Every person or firm liable to special tax must, on or before the 30th of April of each year, on or before commencing business, if such business is commenced subsequent to April 30th, file with the Collector or Deputy Collector a sworn return on this form, and pay to such officer the amount of tax, when he will be furnished with a *special tax stamp*, which must be at all times conspicuously displayed in his place of business.

LUNG DISEASES.—DR. KEYSER.—Your medicines have been going off slow during the Summer, but an increased demand seems to have sprung up in the past few weeks, and I am well nigh out of all your preparations. Your Lung Cure, I think, will find ready sale this winter, and if you will put in pamphlet form the article you published in the DISPATCH, it will prove a blessing to your fellow men, and fully repay you for all your trouble and expense by a largely-increased demand for your medicines. I hope you will conclude to do it. The good advice contained in that article may save many from untimely graves, and render life happy where it would otherwise prove a burden.

W. W. WILLIAMS, Leslieville.

The above letter was written in reference to an article published in the DISPATCH last Winter, all the important part of which is now contained in an essay of thirty-two pages, entitled "Chronic Lung Diseases." Dr. Keyser's Lung Cure is sold at 167 Liberty street, Pittsburgh, Pa., $1 50 per bottle, or 4 bottles for $5. Dr. Keyser has private Consulting Rooms in the rear of his Medicine Store. Office hours from nine A. M. until one P. M., and from two until six P. M., and on Saturdays at night.

By the following notice taken from the Cumberland *News* of the 15th, it will be seen in what esteem Miss Annie McBeth is held by the people of Cumberland:

Too much cannot be said in praise of the progress evinced by the pupils in this room, or of the skill and tact of their teachers. As long as Miss Macbeth and Miss Funkenberg continue in their positions the official examinations will be as satisfactory to all concerned as was the one of yesterday. Prof. McKay, in an address to the school at the close of the examination, said that twenty-four hours before not even he knew upon what studies the pupils would be examined and therefore there could not possibly have been any preparation made either by teachers or scholars, and that the pupils had evinced a thorough appreciation of their studies, and by the apt and ready answers had shown that they fully understood what they had been taught. No higher compliment could be paid a teacher.

Considerable interest was taken in the examination by our citizens. Among those present were Hon. Lloyd Lowndes, Jr., Hon. H. W. Hoffman, Rev. W. H. Holliday, Rev. S. V. Leech, Rev. H. C. Holloway and other prominent citizens.—Mr. Hoffman, at the request of Miss Macbeth, addressed a few words of praise and encouragement to the pupils, which they seemed to fully appreciate.

Early Foals.

Most farmers are prejudiced against raising early foals for the reason as some say, the mares do not give milk; others that it is better to have them come when grass is good, as the extra care is then avoided. Has that not been one of the very reasons why our stock generally is far below the average class in sister counties. Too much trouble, no doubt much of the stock now being raised, so far as the profit for that kind goes, it were better they were turned over to the knacker and the trouble and expense is saved. Raise none but first-class stock, such as will command and remunerative prices. Breeders of fine stock in Orange county, N. Y. have their foals to come early in February and March, they find no trouble arising from the want of sufficient nourishment from the dams. All must admit that have raised early calves, the advantage gained over those two months younger. The same holds good in the raising of colts. The early foal gets a good start and is better able to withstand the rigors of its first winter without being stunted in its growth, besides being better able to withstand the gratest of pests fly times. On the other hand an early foal may be weaned in time to become accustomed to solid food and can easily be kept in good condition during the first winter, coming out strong, vigorous in the spring, always making a larger, stronger animal, than the late one. To persons wishing to breed early foals, I would say: feed your mares liberally with good ground oats, barley and wheat bran, mixed with good clean cut upland hay. This will produce a bountiful supply of milk, and when spring comes on, the mares will be in condition to put to the plow and the foals are old enough to follow the mares or be left in the stable for several hours at a time.—This is an important consideration for the farmer who depends on his mares to do the work of his farm.

ELDER L. F. BITTLE, Disciples' Minister of this place, will deliver an address to the young people, on Sunday evevening, May 5th, 1872.

MURDER IN WESTMORELAND.—A fatal shooting affray occurred early on Sunday morning at Penn Station, Westmoreland county, a man named Beveridge being killed by his son-in-law named Adamson. The perpetrator of the deed resides at Turtle Creek, and in company with his family on Saturday night visited Beveridge with the intention of spending Sunday there. During the evening the parties, or the male portion of them, got to drinking and continued it till a late hour. A quarrel ensued between the persons named and Beveridge was shot twice. The first shot took effect in the shoulder, but appears to have been only a flesh wound. Mrs. Adamson interfered, but was injured in the effort to induce her husband to withhold, and she was compelled to desist. A second shot was fired which killed Beveridge immediately, taking effect in his heart. The murderer fled but was apprehended on Sunday, and is now confined in the Greensburgh jail. Other parties, it appears, united in the melee, and several were injured.—One, a man named Gibson, was severely injured. Beveridge was about sixty years of age. The parties are coal miners.

A HUMAN BRUTE.—Some time ago a rumor was current in this neighborhood of a most brutal act near Scalp Level, this county. We said nothing in regard to it at the time, for the simple reason that we did not believe any human being was possessed of brute attributes to such an extent. To-day, however, the story is confirmed, and we now lay the following facts before our readers:

About a week since a farmer—whose name is in our possession, and which we withhold for the present—living near Scalp Level, attempted to catch a horse, which was running loose in a field. After securing the horse by the mane, it began to kick, when he took hold of it by the nostrils. The horse's tongue at once protruded, when this wretch seized the tongue, twisted it several times, and finally tore it out by the roots. He then beat the horse over the head with the member, when the animal broke from his grasp, rushing about the field groaning terribly.

This is the story as told us. Of its truth we presume there can be no doubt. What should be the punishment meted out to this inhuman monster—this fiend incarnate?—Lynching would be mercy, death in any shape would be leniency. A slow and torturous justice—long, ample and exquisite agony should be inflicted upon him who would thus mangle and torture a helpless dumb brute.

We shall make further inquiries into the matter, when the man's name will be given in full.—*Daily Mountain Voice.*

The epizootic has subsided in our town and vicinity, and everything seems to be in a splendid condition.

We are happy to say that our town and vicinity has never been known to be more free from sickness and disease than at present. We hope it may be a long time before we shall have to chronicle the presence of scarlet fever and other dread scourges now prevailing in other localities.

Dr. H. R. Mitchell, recently from Falls City, Pa., has located in our town.

Messrs. Kreger & Gerhard are doing exceedingly well in their mercantile business, and have good prospects of doing better in the future.

Our carpenters are very industrious and seem to excell all others, but we are sorry to say that one of the principal ones is dealing in watches at present.

Our singing school is still in progress, and we hope it may continue in the good cause. But we are sorry to say that our respectable friend [J n F-d]had announced singing for this place, but was not successful on account of the inclemency of the weather and the turning of the key.

Somebody "went" for Joseph Keim's sugar last week. After taking as much as he could carry he filled a large kettle and raising a board in the floor placed it there for a future visit; unfortunately for his enterprise, it was discovered by a young son of Mr. Keim's, and that part of his scheme has come to grief. What a sweet tooth the fellow must have!

We have been informed that a young son of Jere J. Engle, dec'd., was very seriously injured by a cow belonging to Daniel Hershberger of Elk Lick, on Monday of last week. The horn of the animal pierced the child's arm near the shoulder, stripping the flesh from the bone down to the wrist. Dr. Carr was called in and dressed the ugly wound. Hopes are entertained the arm will be saved.

We regret to learn that our old friend Josiah J. Engle, now residing on Joseph Keim's Summit township farm, had the misfortune to have one of his fingers nearly torn from his hand. Have not learned the particulars of the accident, but hope he is doing well as can be expected.

Samuel H. Miller, an employee of the Keystone Company, had his head crushed by a fall of coal from the roof of the mine on Saturday last. Mr. M. is well known here and much sympathy is expressed for him in his misfortune.

Peter J. Livengood is erecting a dwelling house on Grant Street; Casper Wahl will build a new addition to his house before long; C. R. Hasselbarth will entirely remodel his large stone dwelling during the coming summer; B. Frank Johns is building on Boyer Street and Stewart A. Smith is excavating a cellar on Union street for a large two-story dwelling.

JOHN I. SCULL, Esq., Somerset, Pa.

Dear Sir.—Enclosed please find $2 for which you may give me credit on your books, as a subscriber, for your valuable paper. With the exception of the first two months, at the beginning of last year, your paper has made its regular weekly visits to our family, so by this time it has become almost a necessity in the household. The mystery to me is, how I got along the many years out here in the West, without the faithful old chronicler of my native County of Somerset, but we do a great many things that we can hardly account for. I have come to the conclusion to become a regular subscriber for the HERALD, and pay for it too, which I presume is one of the most essential things to an editor, only endeavor to send it regularly every week, otherwise you may get some sour faces from my family. The first question when I come from town is, "have you got the HERALD," if I have it, all right, if not, somebody if to blame, and generally the editor comes in for a big share. Now while on the subject, I think you newspaper men are very often wrongfully blamed for the failure of your paper to reach its many readers, scattered all over the country, there are other men and companies who have a hand in the pie. We must even remember that after a paper leaves the office, Uncle Sam has a hand in it, then the railroad companies have something to do with it, then last, but not least, the postmaster, at whose office the paper comes, very often makes very great blunders, so a reader should be very sparing with his abuse until he knows who the real transgressor is. I have been lead to make these remarks on the great amount of grumbling done when their paper happens to miss coming, as it will sometimes do with the very best efforts the editor may use. My surprise is, that the mistakes are so few and the papers come as regularly as they do. Now Mr. Editor, while I am on the subject, I may as well let you know what they are doing out here, in the West. To begin with, we are having a big time with Monopolies in regard to transportation—We have a large crop of corn on hand, which to a great extent must be moved, and the railroads are our only means of transportation. The railroads are so very exacting in their rates, so cruelly disregard the rights of the producing classes, overriding law, legislature, supreme court, and are a law unto themselves. And as the people fail to get the protection necessary, they have opened and are waging a bitter war against railroad extortion and will fight it to the bitter end. They are forming into grangers farmers clubs, and in other large bodies. How it will end, I can not predict. This state of things is forced upon us and necessity knows no law."

No one of the various industries of this great nation can be safely crippled and especially is this the case with the producing interests. There are many other things I might advert to, but being a stranger to you, will close for this time.

Yours Respectfully,
DANIEL UHL.

A little while they stayed,
And gathered all our love;
Then gently spread their wings,
And left for home above.

Centaur Liniment.

There is no pain which the Centaur Liniment will not relieve, no swelling it will not subdue, and no lameness which it will not cure. This is strong language, but it is true. Where the parts are not gone, its effects are marvelous. It has produced more cures of rheumatism, neuralgia, lock-jaw, palsy, sprains, swellings, caked breasts, scalds, burns, salt rheum, ear-ache, &c., upon the human frame, and of strains, spavin, galls, &c., upon animals in one year than have all other pretended remedies since the world began. It is a counter-irritant, an all healing pain reliever. Cripples throw away their crutches, the lame walk, poisonous sores are rendered harmless, and the wounded are healed without a scar. It is no humbug. The recipe is published around each bottle. It is selling as no article ever before sold, and it sells because it does just what it pretends to do. Those who now suffer from rheumatism, pain or swelling deserve to suffer if they will not use Centaur Liniment. More than 1,000 certificates of remarkable cures, including frozen limbs, chronic rheumatism, gout, running sumors, &c., have been received. We will send a circular containing certificates, the recipe, &c., gratis, to any one requesting it. One bottle of the yellow wrapper Centaur Liniment is worth one hundred dollars for spavin or unwounded horses and mules, or for screw worm in sheep.—Stock owners—this liniment is worth your attention. No family should be without Centaur Liniment. Price, large bottles, large bottles $1 00.
