

ASSEMBLY. J. R. McMillen, of Middleboro' tp. TREASURER. GEORGE M. NEFF, of Somerset hof. COMMISSIONER. F. J. COUNTRYMAN, of Brothersvalley tp. POOR HOUSE DIRECTOR. J. C. CRITCHFIELD, of Milford tp. AUDITOR. JONATHAN WELLER, of Summit tp.

THE Constitutional Convention has determined to constitute the House of Representatives of one hundred and fifty members, and it is rumored that the following plan of apportionment proposed by ex-Governor Butler, is likely to be adopted.

First. The ratio for a member of the House of Representatives shall be the one hundred and fiftieth part of the entire population of the State, according to the enumeration thereof by the last Federal census.

Second. Counties containing each a population of less than 50,000 shall be districts, and entitled to representation according to population, except that no district shall have less than one member. Any district having an excess of population exceeding one-half of a ratio over one or more districts shall be entitled to an additional member. Counties or cities having a population exceeding five ratios shall be divided into compact districts, as near equal in population as practicable, and entitled to not more than three members each.

Third. The power to make the first apportionment under this article shall be vested in a committee of ten members of this Convention to be selected by ballot, each member to vote five, and ten having the highest number of votes shall constitute the committee.

Fourth. As soon as may be after the Federal enumeration of the inhabitants of the State, in the year 1880, and every ten years thereafter, the Legislature may apportion the State for Senators and members of the House of Representatives according to the ratios and rules established by this article.

This plan would make the representatives for the next sixteen years as follows:

Table with 2 columns: Name and District. Includes Albany, Andover, Appleton, Ashfield, and others.

While fair in its face, and securing to each of the smaller counties a representative, the adoption of this method of districting, would cut down the representatives of the medium sized and growing counties, and give Philadelphia and Pittsburgh nearly one third of the House.

THE Republican nominations made last week in Philadelphia appear to render general satisfaction, except in one or two instances, and the nominees are admitted on all hands to be an improvement on those of late years, but the N. Y. Tribune laboring in its assumed task of decrying and misrepresenting every thing connected with the Republican organization of this State, insists that the gross frauds were perpetrated in the selection of this ticket, and virtually assails the personal integrity of the candidates.

The proposition made by a late Democratic convention in Allen county Ohio, to abandon the Democratic organization and form a new party, has stirred up the fossils who control the ancient machine and many and fervent are the appeals made to stand by the old name.

MECHANIC ADVISES THAT those guilty of participation in the massacre of the 19th, have determined to distribute their reservation, and to distribute their reservation, and to distribute their reservation, and to distribute their reservation.

OMAHA, NEB., June 21.—Yesterday, two men, a negro and a white man, entered the house of Mr. O'Donnell, who resides west of Sidney street, and robbed the house and shot Mrs. O'Donnell, dangerously wounding her.

THE COURTS OF OHIO are sowing the whirlwind, when the crop matures.

Within a few days past the Supreme Court of that State has decided, that School Boards have the authority, which cannot be interfered with, to exclude the bible and all religious instruction from the public schools, and Judge GAYNE of Columbus has decided that the laws for the observation of Sunday, in that State, do not apply to those who conscientiously observe Saturday, as the Sabbath; and that city and town ordinances prohibiting the sale of liquors on Sunday are void, which do not exempt from their operations those who sell to travelers or who conscientiously observe the seventh day of the week as the Sabbath.

FROM the report of its proceedings in the Pittsburgh convention, we infer that the Democratic convention held there on Tuesday to elect delegates to the State convention at Wilkesbarre, was a perfect pandemonium.

THE contest was between the friends of HUTCHINSON and BARR, rival candidates for State Treasurer, and they waxed very warm, such terms as liar, fox and scoundrel being freely bandied.

IT is considered a proposition that at least \$100,000 shall be annually appropriated by the Legislature, for the support of public schools, the Constitutional Convention, last week, by a vote of 55 to 10, forbade the application of any portion of the fund raised for educational purposes, to the use of sectarian schools.

IT is stated that the exact locality of Mount Calvary, where Christ was crucified, has been determined. The Oriental Topographical Corps, sent over from England to study the topography of Bible lands, think they have at last discovered the spot so hallowed to Christians in the hill outside of Damascus gate near the north wall of Jerusalem.

ARRANGEMENTS have been made for commencing the trial of the Modocs on July 5. General SHERMAN announces his intention to secure the fullest justice, and to prevent the violent operation of any prejudices that may have been engendered during the resistance of the prisoners.

THE MODOC TREACHERY. Statement of Commissioner Meacham. NEW YORK, June 21.—A. B. Meacham, Chairman of the Peace Commission to treat with the Modocs, and who narrowly escaped the fate of his associates Gen. Canby and Dr. Thomas, is in this city, on his way to Fort Klamath, where the military commission for the trial of the captured members of the band led by Meacham can make no use of his right hand, the nerves of which were paralyzed by a ball through the wrist and forefinger.

OF the issue of the forthcoming trial he expresses no doubt that the Modocs who participated in the assassination will be convicted and executed. He says that the Modocs, in their last moments, confessed their guilt, and pardoned after conviction, would be disastrous.

INCENDIARISM IN MAINE. SCARAPPA, ME., June 23.—This morning the house of B. F. Roberts was set on fire. The house was occupied by Roberts and his family, his grandmother and others. Mr. Roberts had just time to save his family when the only staircase in the house was cut off by the flames, and prevented the old lady and a Miss Bowditch from escaping.

EXTENSIVE DESTRUCTION OF TOBACCO BY FIRE. CINCINNATI, June 24.—The tobacco warehouse of Dr. E. R. Thomas, in the southern outskirts of Covington, Ky., containing about 400,000 pounds of tobacco, loss and in hogsheads, was burned this morning. The tobacco was valued at about \$40,000 and was insured for \$40,000 mostly in local companies.

THE BIBLE IN THE CINCINNATI SCHOOLS. COLUMBUS, June 24.—In the case of the exclusion of the Bible from the common schools in Cincinnati the Supreme Court decides that the school board had a right to exclude not only the bible and singing, but religious instruction, and the court has no authority to interfere with their discretion in the exercise of this power.

TWO MURDERERS KILLED. OMAHA, NEB., June 21.—Yesterday, two men, a negro and a white man, entered the house of Mr. O'Donnell, who resides west of Sidney street, and robbed the house and shot Mrs. O'Donnell, dangerously wounding her.

RAILROAD ACCIDENT.

ST. LOUIS, June 23.—At a very late hour last night a report gained circulation that a frightful collision had occurred on the Atlantic and Pacific railroad some twenty miles from this city. Two picnic parties went on that road yesterday. One by the bricklayers' union, numbering nearly two thousand men, women and children, spent the day at Osage Wood station, ten miles from the city; and the other given by the brotherhood of locomotive engineers, numbering about one thousand, went a mile this side to Rosewood grove. Nothing could be learned of the reported disaster, however, until between 12 and 1 o'clock this morning, when the train bearing the locomotive engineers' party reached this city and the following facts ascertained:

When the party was ready to return home their train was backed down on the main track, and while the people were getting aboard the bricklayers' train came dashing around the curve near by, and before its speed could be reduced below ten miles per hour, struck the stationary train smashing two baggage cars in the rear and badly damaging the rear coach.

The shock was very severe and nearly all the persons on the train were thrown from their seats and a large number hurt. So far as known no one was killed. Two boys named Gallagher and Hught had each a leg broken. Mrs. Maria Cummings had an arm broken. Mr. O. Blossing had her spine badly hurt and received internal injuries and Samuel Kane had a rib broken.

THE shock was very severe and nearly all the persons on the train were thrown from their seats and a large number hurt. So far as known no one was killed. Two boys named Gallagher and Hught had each a leg broken.

CLEVELAND, OHIO, June 25.—Two men named Joseph Shipley and Walter McGuire had an altercation on the Atlantic and Great Western train this morning near Warren, Ohio. Being separated in the car, they went on the platform, where Shipley pushed McGuire off the train, which was running at a high rate of speed, and McGuire was instantly killed. Shipley was arrested in Cleveland and taken to Warren. Both men were under the influence of liquor.

CHICAGO, June 27.—A terrible accident occurred near Farley, Iowa, on the Iowa division of the Illinois Central Railroad, about midnight on Wednesday night. A freight train was going down grade, when a rail being misplaced, precipitated the train from the track with such force as to hurt the freight cars on the rear of the engine on top, and over it, instantly killing the engineer and fireman, and wrecking seven cars.

BALTIMORE, June 26.—The first locomotive passed through the tunnel to-day. The tunnel will be open for business on the 30th instant. Trains from the north and west will then run through to Washington without stopping, and the opening of this tunnel, more the opening of this tunnel, which is a grand achievement of engineering skill, will be a great advantage and convenience to the traveling public.

SCARAPPA, ME., June 23.—This morning the house of B. F. Roberts was set on fire. The house was occupied by Roberts and his family, his grandmother and others.

CHICAGO, June 28.—An attempt was made last night to throw the South bound train on the Illinois Central Railroad off the track, about three miles south of Chicago, by planting ties across the track, but it proved unsuccessful.

FLORENCE, June 23.—Strong shocks of earthquake were felt in the north of Italy at five o'clock this morning. The shocks were severe in Venice and Verona, and caused a panic. There were several accidents in those cities, but no serious damage done to persons or property.

NASHVILLE, June 25.—Twenty-five deaths from cholera to-day, of which fourteen were white as reported. Specials from Gallatin reports the disease on the increase.

CINCINNATI, June 25.—Three deaths from cholera were reported at the Health office to-day. All fears of the disease becoming epidemic have disappeared.

DESTRUCTIVE FIRE IN DALE CITY.

DALE CITY for the first time in the history of the town, was visited by the fire fiend. Last night about midnight, the roof of the large building on the corner of Main and Center streets, known as Mr. N. D. Livenood's, was discovered to be on fire. The alarm was raised, and in a very short time a number of citizens were on the spot, and made efforts to extinguish the flames. For want of the proper facilities they failed in this, and hence they at once directed their efforts to saving the adjacent buildings. By the united effort of the people, the stillness of the evening being greatly in their favor, the fire was kept confined to the one building. Not even the roofs of any of the other buildings caught fire.

GREAT BRITAIN.

NEW YORK, June 26.—Irish papers contain the particulars of the terrible riot in the city in Dublin on the night of the 7th of the month, and a fire broke out in Kelly's timber yard and stores, in Thomas street, one of the most densely populated parts of the city. Within an hour after the fire commenced, from twenty to thirty thousand persons had assembled in the neighborhood, and the mob began to plunder the houses. Soon after the arrival of the fire engines, the principal water pipe burst, and the mob tore the hose from the hydrant, which they smashed. Capt. Inghram then had the street torn up, and a steam fire engine put in, which worked the waste water from the main. The fire spread to the alleys and causeways behind the street. The police were powerless to maintain order. The mob tore open the roof of the house of Mahoney, a wine merchant, pillaged his store, and carried off his goods to the roof, where they drank so much that some of them rolled off. The policemen were stoned, and some of them completely disabled.

A Large Robbery in Brooklyn.

THE particulars of a successful burglary at the office of a Brooklyn lawyer, and the theft of \$200,000 worth of bonds were learned by reporters yesterday, notwithstanding the endeavors of the police to keep the matter quiet, when they had failed to make any arrest. It appears that the office of John Z. and Abraham Loeb, attorneys and counselors at law, at No. 13 Willoughby street, was broken into between Saturday evening and Monday morning, the safe opened by skeleton keys, and bonds on the Susquehanna Canal, Shingle and Steam Lumber Drying Company—on market value; two checks representing \$30,000; three United States five-twenty bonds; and 50 bonds of mortgages upon Brooklyn and Flatbush property, stolen. The bonds were recorded in the Register's office, and consequently worthless to the thieves, as payment of the checks was promptly stopped. Altogether, the stolen papers represented about \$200,000, and it is believed that the object of the robbery was to hold the bonds until the owners should be forced to return. Mr. Z. Loeb states that when he entered the office on Monday morning he found the safe-door unlocked. He pulled the door open and a mass of papers fell out upon the floor, and from the appearance of things it was evident that the thieves had been alarmed and disappeared. The interest upon the bonds is half-yearly, and the bonds are usually left there by clients during the months of May and June for the purpose of having the interest collected on them. It will be a week before the firm can tell what has become of the stolen papers. A thousand or more papers piled up in the safe.
