that badge of authority? It stood attention.

I dare say more hog or cow-feed can be obtained from thin, poor land by raising a crop or buekwheat than from any other grain, that is by fair culture.

As much as sixty bushels are known to have been raised from a single peck of seed sown, and on land that would not yield ten bushels of wheat to the acre or twenty of corn. Buckwheat should be sown very thin on rich land, almost as thin as corn is planted. It is a crop that will branch out very much, the stalks growing in initiation of young trees, the lateral branches producing more abundantly than if sown thick and the crop grown on top of the known, to plow under green as a fertilizer and pulverizer of rough land; the distance of the land, where it remains brighter and that were the minute of salt and spice, on the mouth stalk and spice, or work of the context of the land, where it remains brighter than when on the bureau, as deanly on the grown on top of the stalks. The buckwheat plant is the readiest and cheapest vegetable known, to plow under green as a fertilizer and pulverizer of rough land; the distance of the land, where it remains brighter than when on the bureau, so death that the part of the land, where it remains brighter than when on the bureau, as cleanly and ends.

An Indian and true economist will to the best the and true caving which ever done by electricity—something two dever done by electricity—something the veridone by electricity—something than hands to down so so composible for human hands to down so as coomas possible. ters at one-half to one-quarter less, for breeders, knowing that by breeding to a halves, and the cost of breeding to a full 'closd rather than a hair, is a secondary thought, known that half-bloods self for about one-half more than quarters. I believe the day has a men of intelligence will breed to mongrets and serules.

In offering the services of my Horses to Breeders and Stock raisers of the county, I fectual saying that I believe my horses are second to none in the State. The above horses need to be appreciated. Parties beesing colds can breed the following season at half the usual states.

The enterprise and nerre exhibited by Mr. Heilley far surpotempted by any other farmer in this community. To him in a very great the many stock raisers of this county indebted for the great improvements

in our stock of horses. It is a fact evident to every one, that the advanta ing to thorough, full bred horses are immense. Certainly no one who is business will for a minute stand in his own way because of the difference THE NEW IMPROVED BED LOUNGE, Manufactured and Sold at HENRY BERGER'S Extensive Furniture Warehouse

THE REASON WHY THIS LOUNGE IS SUPERIOR TO ALL OTHER LOUNGES INVENTED Tables furnished with the best the market at fords, in its season.

Because it is the latest invention of the kind, being therefore an improvement over all other Lounges yet invented. The matteres off to clean the inside of the Lounge. The Lounge opens and shuts without hinges, which break so easily in all the other Lounges, and the simplest and easiest operated of all, and therefore the most durable. The Bed is higher up off t e floor than in any other Lounges.

The Price is as Low as that for any of the old Inventions.

Pleease call and see how it operates.
