

REPUBLICAN STATE TICKET

FOR JUDGE OF THE SUPREME COURT, HON. ISAAC G. GORDON...

FOR JUDGE OF THE SUPREME COURT, HON. ISAAC G. GORDON...

REPUBLICAN COUNTY TICKET

ASSEMBLY, J. R. McMILLEN, of Middlecreek tp., Treasurer, GEORGE M. NEFF, of Somerset bor., Commissioner, F. J. COUNTRYMAN, of Brothelville tp., School Board Director, J. C. CRITCHFIELD, of Milford tp., Auditor, JONATHAN WELLES, of Summit tp., Jury Commissioner, GEORGE C. LIGHTY, of Somerset tp.

THE Harrisburg State Journal predicts that Gordon and Mackey will be taken from thirty-five to forty thousand majority in Pennsylvania this Fall.

THE late President Johnson has not many political friends in this section of the country, but we are sure that the bitterest of his foes will be sorry to learn that all the money he possessed \$60,000 was lost by the failure of the First National Bank at Washington.

SAYS the Pittsburgh Commercial: Information from all quarters of the State is to the effect that the Liberals who last year voted with the Democracy are rapidly returning to their Republican allegiance—a very natural proceeding for them to take since, if they tamely submit to the repeated snubbings they have received at the hands of their late allies, they can hardly hope to ever again command the respect of anybody whose esteem is worth having.

It is highly probable that trusting to the inertness of Republicans, the Democracy may attempt to steal a march on us, and by quietly bringing out their last vote, carry off the prize. We confess to not harboring many fears on this score, but still it is always well to be prepared for any emergency. Moreover it is the duty of every Republican to give emphatic expression to his sentiments on every fitting occasion, whether it is necessary or not, to secure the supremacy of his party. We urge, therefore, upon all our friends the duty of going to the polls and electing, by an old fashioned majority, their entire ticket.

On Tuesday of last week the following article was, upon motion of Governor CURTIS, adopted by the Constitutional Convention: "The members of the House of Representatives shall be apportioned among the several counties according to population, on a ratio to be obtained by dividing the whole population of the State, as ascertained by the most recent United States census, by two hundred: Any county, including Philadelphia, having more than one ratio, shall be entitled to a member for each full ratio."

This will give a total of two hundred members of the House of Representatives. The Cambria Iron Works at Johnstown have published the following: NOTICE TO EMPLOYEES. CAMBRIA IRON WORKS JOHNSTOWN, PA., Sept. 24. The decline in the price of Iron and the difficulty in making sales at any price, caused by the disturbed condition of the financial world, renders it necessary for this Company to reduce the cost of its rails or cease production.

Notice is here given that the current wages of employes, not regulated by the gold value of Iron, will subject to a reduction of from ten to twelve per cent., on and after the first of October next. The Foreman will be notified of the new schedule of wages established for each Department. D. J. MORRELL, Genl. Manager.

We are glad to note, that all the eastern journals agree in the statement that the money panic which so unexpectedly and rapidly swept over the country last week is at an end, and that confidence is being restored. Several of the large houses, such as Fitch, Hatch & Co. and Henry Clews & Co. have given notice of their intention to immediately resume, while Jay Cooke & Co. make a statement showing their assets to be several millions of dollars greater than their liabilities. The failures were confined almost exclusively to houses carrying large amounts of Railroad bonds, and their inability to realize on them in time to meet matured liabilities, caused the trouble and compelled them to temporarily suspend payment. The action of the Secretary of the Treasury, in coming forward promptly and purchasing \$13,000,000 of Government bonds, thus measurably supplying the demand for credit, did much to relieve the market and restore confidence. Thus far the trouble has been solely confined to dealers in stocks and those banks that were connected with them, not a single mercantile or manufacturing firm having been compelled to fail or suspend.

On the whole we are inclined to believe that this flurry will be event-

ually productive of good. The precarious nature of the stock business has been amply demonstrated by the fact, that the suspension of a single banking house largely engaged in it, has created all this panic and brought ruin on so many. Millions will now be withdrawn from that business and invested in legitimate trades, this will make money more plentiful, and investors will seek more stable security in real estate, values will shrink, living is more cheap, and the general business interests of the country that have passed unharmed through this crisis, will be strengthened and improved. Possibly for some weeks, perhaps until Congress has met and the financial measures of the session have taken shape, some inconvenience may have to be suffered. But unlike in other great financial panics, the general business interests of the country have not suffered, we are hopeful of much good from this alarm.

During the panic last week, the political enemies of our candidate for State Treasurer—Mr. Mackey—started the report published in the Pittsburgh Post and elsewhere, that he had lost heavily of the State fund, through the failure of several banking houses in Philadelphia.

Mr. Mackey promptly authorized the Pittsburgh Commercial to say that the State Treasurer did not lose anything by suspension of the Union Banking company of Philadelphia. His deposit there, on the day of the suspension, was less than ten thousand dollars, and this sum is fully secured. The State loses nothing by the suspension.

Not is there any deficit in Mr. Mackey's account growing out of the deposit with Yerkes. When Yerkes failed, Mr. Mackey assumed the full amount of the deposit there, and paid it to the State. The Commonwealth did not lose a dollar by Yerkes' failure.

The State Treasurer invites the fullest scrutiny into his accounts, and conducts investigation into their condition. If the correspondent of the Post, or his editor, or any one else, chooses to institute one, let him come on and satisfy himself.

As to the kindred story in circulation that the State Treasurer had a large deposit with Jay Cooke & Co., we are authorized to say that he had not a cent on deposit there, and that not a dollar has been lost to the treasury by that suspension or any other.

We have not heretofore deemed it necessary to say a word relative to the candidacy of Mr. Alexander Walker, whose card has been advertised in our columns for several weeks past. But let our silence should be misunderstood, "we want to remark, and our language is plain," that Mr. Walker has not a single claim to the support of the Republican voters, and that his persistent assertion that he is a good Republican is a snare and a delusion. That he has always supported the Republican ticket, and that he has an indefeasible right to be a candidate, are propositions we will not dispute, but that he is still a good Republican, worthy of party support, when he sets himself up in opposition to regular nominators, we do most emphatically deny. It is only by organization that a party can be held together and hope to be continuously successful, and the man who bolts a regular and fairly made nomination, and sets himself up as a candidate on some side issue, has no claim whatever to party support. We have been singularly free for many years from all attempts to overthrow party nominators by running volunteer candidates, and this effort of Mr. Walker's to create disorganization in our ranks should be rebuked, as we have no doubt it will be.

Mr. Millen was re-nominated at the primary election without opposition and without a dissenting vote in the county. He is eminently worthy, and capable, and has been tried, and is entitled as a matter of honor and of right to the solid vote of the party. We urge, therefore, upon all true Republicans, the duty of attending to his interests in their respective districts.

Descriptive Fire at Allentown. ALLENTOWN, September 22.—At two o'clock this morning a fire broke out in the engine room of Gabriel's grocer mill, which spread with rapidity in spite of the strenuous efforts of the fire department, entirely consuming the buildings. The heavy rain of last night and the east wind was all that saved the adjoining bark mill and shed of Messer & Grims, tannery. The loss is \$40,000; insurance \$20,000, \$15,000 of which is in Allentown companies, \$15,000 in the Susquehanna Mutual, of Millersburg, and \$3,000 in the Hope, of Philadelphia.

A Terrible Fight. INDEPENDENCE, Mo., September 22.—Yesterday J. J. Chiles met Deputy Marshall T. Peacock on the street and slapped him in the face. A fight ensued, during which a pistol fell from Chiles' pocket, which was picked up by his son, 14 years of age, who shot Peacock in the back inflicting a mortal wound. Peacock was slain, shot young Chiles wounding him fatally. City Marshal Farrow, who came up to the fight, was slightly wounded in the breast, but by whom is not known.

Great Storm and Loss of Life. AUGUSTA, Ga., Sept. 22.—The following dispatch was received from Tallahassee, Florida, dated September 21. A terrific storm occurred throughout this section of the country on Friday morning, September 20th, was unroofed, thirty or forty houses blown down, and several killed and injured. A large number of lives were lost, and the crops were destroyed, and the crops are considered completely ruined. Three or four lives were lost and several persons wounded. A large amount of stock was killed. The

Lynchings in Louisiana. The troubles which we last week anticipated would occur between the citizens of Vermilion parish and the hoodlums of the town of Thibodaux, that region have at last broken out with terrible violence. The committee, urged to despatch by the cool audacity of the robbers, have given vent to their long pent-up feelings of indignation, and commenced the work of retaliation. Up to now some twelve of the gang have been swung up. Our streets are full of vague and exaggerated rumors concerning the operations of the vigilance committee, the number executed, etc., and it is next to impossible to obtain a correct and detailed account of the extent of the trouble. From the best sources at hand we elicit the following information.

A delegation of citizens from Abbeville had called upon Governor Kellogg with a view of laying the facts of the case before him and ascertaining their course of action in the matter. The Governor told them, it is said, to go on and to intercept the exigencies of the case seemed to require.

Armed with this permission they proceeded at once to seize and hang three or four of the worst characters, among them two sons of ex-Sheriff Lege. A prisoner was taken out of jail and shared the same fate; a butcher was seized and executed. Persons who came from Abbeville last Monday testify to having seen three or four bodies swinging from trees in the neighborhood. The most intense excitement prevailed and the members of the committee were scouring the country in search of the "spots" indicated and hanging them as fast as caught. Two of the leading thieves are known to have passed New Iberia on Sunday, the day after the hanging commenced, on their way to the bay. One of them is said to have thrown his saddle into the bay, and turned his horse loose upon arriving there, preparatory to making his way to the city. He was, however, telegraphed for and arrested. On Tuesday a man named Pagnol was hanged.

The up boat was boarded this (Tuesday) morning while at Jennerette by a party of fifteen or twenty men, armed with shot guns, and a prisoner on board, supposed to be the one who had been telegraphed for. Parties who afterward met this same crowd declare the prisoner was not then in their possession. This morning he is said to be on a tree near Dr. Dungan's plantation.

The foregoing are the only details we have been able to gather in regard to this fearful affair which may be considered at all reliable. It is not known here how many thieves have been executed up to this time. The most reliable reports put the number down at twelve.

Weeks of the Schooner Whiting. GRAND HAVEN, Mich., Sept. 25.—The schooner Whiting went ashore near this city last night and since daylight the wind has been blowing a terrific gale from the west. The vessel is heavily loaded with salt and her deck is even with water. About nine o'clock this morning the captain and one man leaped into the water and to the amazement of the assembled crowd succeeded in reaching the beach. Soon after this one of the crew was seen to be making a dash for the vessel's side, but swamped before the men could leave the rigging.

1:30 P. M.—The Miranda succeeded in getting alongside the schooner Whiting and took off three men. The bodies of the two men who were drowned have not yet been recovered.

Shocking Suicide at Chicago. CHICAGO, September 24.—A shocking suicide occurred at Oak Park station a few miles west of this city on the Northwestern Railroad last evening. A G. Lyon, President of the Adams Blackman & Lyon Publishing Company of this city, who resides in Oak Park went to the depot and taking his stand by the track waited until the locomotive came along, when he suddenly threw himself on the track in front of it, was struck, and was literally torn to pieces. Mr. Lyon was aged 50 years, and had labored for 23 years at times from severe mental depression caused by ill health, he has lately been in better health. He was the originator of the national Sunday school lessons and author and editor of many Sunday school publications.

Another Balloon Tragedy. WINDFORD, Ia., Sept. 25.—A balloon ascension by Prof. J. W. Bailey was advertised to take place at the Fair grounds near this city this afternoon, and a large crowd gathered to witness it. At five o'clock the balloon was set free, Bailey hanging from the horizontal bar beneath the basket. When the balloon, which was inflated with hot air, left the ground it took fire near the mouth. Bailey did not apparently see the fire till it was too high to get with, and he fell but he was rescued at an altitude of twelve or fifteen hundred feet, when the canvas that held the loop frame to which he was fast, reaching the earth a quarter of a mile from the point of starting. His body was frightfully mangled, his legs broken, driven into the hard ground to the knees.
