Since that time the brakemen have been exceedingly civil to Knapp,

Planting Flower Beds There are two distinct modes o furnishing beds with flowering plants. One is, to plant in each bed only one kind of plant; an other may, for distinction, be called the mixed style The former ensures a bold and decided piece of coloring, for a short period of the year, rarely exceeding three months, the latter style secures to the amature a constantly changing source of pleasure for at least seven the judicious distribution of plants of all kinds over your beds and borders in such a way that as month after month calls fresh sorts into bloom a pleasing effect is maintained. This effect may be obtained either entirely from hardy perrennials, which, for those who cannot spare much time for amount of care and attention; or season free from the attacks of insects. summer flowering annuals and half- what expensive; some cover them hardy plants. In very small gardens, with dry wood-ashes and pack in it will be advisable to keep only one barrels and cover thoroughly with plant of each kind; but where space pine shavings; but we think the best
