Terms, 850 Insurance. The season commences April 6th, and will continue to July 6th. These horses will be found on my farm at all times. Parting with a mare before she is known to be with foul, forfeits historance money. Insurance due when mare is known to be with foul. Best care taken but no accountability for accidents. Mares from a distance will be kept at reasonable figures.

To my fermer patrons I return my warmest thanks for their support, feeling confident that it will be to our mutual banefit to improve the Horse Stock of Somerset County, which is so much needed. The selection of Full-Blood Horses to breed from in my estimation, is the only way that a decided improvement can be made; consequently large prices were paid for full-bloods, rather than buy half and quarters at from one-half to one-puarter less for breeders, knowing that by breeding to a full-blood variety the halves, and the cost of breeding to a full-blood rather than a half is a secondary thought, when it is known that halt bloods self for about one-half more than quarters and the cost of raising is no more.
