OF BERKSHIRE SWINE WAS MADE.

England WHAT IS THE SIAMESE BREED OF

with short small legs and head, thin ble. shoulders, a slender tail, thin skin, well mixed. and firm elastic flesh.

From the years 1837 to 1842, the writer of this possessed swine in his piggery answering to the above description, except they usually had springFeeding and Spring Pastoring. from two to three white feet, but no other white on them.

pigs then bred together; thus, estabthe Farmer's bog. SUPERIORITY OF RERKSHIRE SWINE

idering these, it is to be hoped that before the summer is out.

hams and shoulders; were fatter in good sound corn meal the sides, with more belly, fuller in the jowls, and had little lean meat in carcass. We have occasionally seen pigs called the improved Berkshire,

best substitute for natural grass is a large fresh turf thrown daily to each four or five bens. and even in town to in formed him that his father possessed them as far back as the year 1780, in great perfection, and substantially like the best of those bred in the shire at the time of his visit. Several other aged men informed him that the improved breed had existed in various districts there from their earliest recollection, but it took some time for them to prevade the country generally; the old unimproved maintaining their ground to a greater or less extent in all their size and coarseness down to the fore part of the present century.

best substitute for natural grass is a large fresh turf thrown daily to each four or five bens. and even in town tawn town the pown of the turn oat, by way of disting him from other princes of the same name of that house.

Cruel Papa.

A papa in Greenville, Ky, has a daughter Kate, and Kate has a lover distasteful to pape. On the lover's birthday Kate bought a nice gilt and put in to it: "The contents are as delicate and innocent as your paying some child a few pence to bring fresh-cut grass daily, cutting it up and mixing it with their soft of the present century.

The batter plan is how we actually and coarseness down to the fore part of the present century. of the present century. COLOR AND MARKING OF BEST BREED

BERKSHIRE SWINE

8. The most favorable color among the best breeders in 1841, was a deep rich plum, with a slight flecking on the body of white or buff, or a mix-ture of the two; a small blaze in the face; two to four white feet and more can combine different coffees, like the or less white hair on the tail. The parts of fine wine, to produce certain plum color was preferred to the black rare boquets, or aromas, for the epior slate, because it carried rather cure. Not more than a half a pound then spread over it a layer of jetly ore higher style and finer points what it of coffee should be rousted at a time strained apple; and the eggs beaten a superior quality of flesh, softer hear for domestic use; it should be ground and thinner skin. In fact to use a just and expressive phrase, the animals thus marked are should be allowed for every the sugar over the top and set in three cases.

IMPORTATION OF BERKSHIR SWINE

history of this breed, made to the we can find any record, was made in ployed in the extraction of indigo in recent Swine-Breeders' convention, the year 1823, by Mr. Brentnall an India: "The valuable tinctorial matwith the report of the committee to English farmer, who seatled in an ter is furn shed by the young shoots, 1. The committee appointed to The second was made in 1832 by Mr. believed. The gathering of them is report on the above, respectfully sub- Harves, another English farmer who a delicate operation, as, when they
