(The proper season again approaching, farmers and others who are anxious to improve the stock of horses in this county, will do well to consider the advantages offered above. It needs no argument to convince our people of the superior blood of the horses here advertised, nor of the fine points of high breeding in their progeny. Every one has had ample opportunity of seeing these marks of improvement demonstrated in the superior offspring of these horses, and the extraordinary prices which these colts command, should make it to the interest of all to breed only from stock of this kind. Advantages like those offered by Mr. Heffley, can not be overlooked or disregarded by ecommunity without detriment to itself and the county at large.)
