principle are now exempt from all mowing land, I took a lot of about taxation. Savings Banks receiving twenty acres of pretty dry land that had not been plowed for some lifteen subject, and it cannot be disputed that the Prof. Edward Heta, of Philaselphis, are the first in the market. Read the fallowing land, I took a lot of about twenty acres of pretty dry land that had not been plowed for some lifteen subject, and it cannot be disputed that the Prof. Edward Heta, of Philaselphis, are the first in the market. Read the fallowing, which we have clipped from a Groensbur paper. and in recognizing their meritorious hay off, and feeding in quite close. objects and operations it has been In the spring I turn them in in pleasdeemed only just and proper that ant days until they can go to pasture. Pianos & Organs, Having purchased the Shoe funds. This law in the'r favor is of The grass has improved both, in great consequence to Savings Banks, quality and in quantity every year saving for their depositors an immense since thus managed. While cutting

saving for their depositors an innutate the grass the past season, the hay makers said they should think there a single Savings Bank in New York was compelled to pay at one time \$40,700 tax on net earnings. The Dollar Savings Bank of Pitts- own experience that the sheep are as burgh paid, in 1872, \$5,356. As an much before cows to keep up the mowing, as they are in the pasture. To do this, we must have sheep that will stay where you put them, and that can be easily handled. I can be easily handled. I can

Savings Bank, if it had been taxed upon its deposits and earnings, as were other banks and bankers, would have paid for the year 1873 thirteen hundred and ninety dollars. The amount of this tax in ten years, with six per cent compound interest, would of itself create a fund of nearly tecentry thousand dollars.

A proposed New Mediterranean.

"The nation of ideas," says the London Daily Telegraph, "has it in contemplation at present to create a new Mediterranean. Such a conception might provoke the jealousy even of M. de Lesseps, who turned Africa into an Island; but it is his own its account a contemplation at Island; but it is his own into an Island; but it is his own its account a contemplation at Island; but it is his own is that can be easily handled. I can handle my sheep as I can my cows. The sale of Penagivants, published the following entract of a private letter, dated Vienna, May 24, 1872. I also met Abbe Lisut, the celebrated vienual and composer. He locks new very old, and his family cares may account a good deal for the snow of the farm.

Learning to Shoot.

A young hunter writes to Beadle's Saturday Journal for advice about learning to shoot. The advice was as follows:

To learn to shoot, first select a good rifle. Nowadays these are plentiful. There are many kinds of breech-loading sporting rifles, all good, and costing from \$30 to \$50, with fine sights adopted for fine sights and sights adopted for fine sights and sights and sights adopted for fine sights and sights and sights a Into an Island; but it is his own is that known as the "peep and globe" PROF. EDWARD HETZ'S country which entertains this bold sight, an American invention. The design, and the plan has been sub- rear sight has a little pinhole, through mitted to the Isthmus piercer, with which you look and see the mark mitted to the Isthmus piercer, with the result of obtaining his warm commendation. Nor would anybody call the thing impossible who has seen the region which it is proposed to convert into a sea some five hundred miles long by sixty broad. The Isthmus of Khabs, or Cabes, at the bottom of the Gulf anciently called Syrtis Minor, is a sandy ridge or neck which has been formed by the Mediterranean, and which now separates from it a long and deeply-depressed from the front sight, which is a should see the mark and also the front sight, which is a should see the mark and also the front sight, which is a should see the mark and also the front sight, which is a should see the long which is a should subject and the set now offered. Among the number of valuable autographs in possession of Professor Heat, we see the following celebrated names. Mescheles, Prof. Topter, Lechney. Heat, we see the following celebrated names. This will take you nearly a

ture, and the provinces of Constan- and when you come out for target and they prefer it to any they have put tine and Algiers, if not even part of practice at last, you will find that you wi Oran, would gain a double sea frontage. Can, then, the intervening wall be cut? M. de Lesseps and modern science reply, 'Undoubtedly.' The Khabs ridge is only eighteen kilometres through; it is light and easily managed soil, and the expense of driving a chappen through it is not know why you have missed, you will find that you wishing good instruments.

L. D. Pones.

From W. Showalter.

Latrong, May 10th, 1872.

Latrong, May 10th, 1872.

Lovely, that eighteen months ago, I purchased one of Prof. Edward Heir's "Grand Spuare Pitons," and it has given entire satisfaction in every to keep a record of every shot fired, and where it went to. Unless you will desiring to purchase.

W. Showalter. driving a channel through it is not know why you have missed, you will reckoned at more than half a million never know how to hit. Ten sho's a sterling. But where the water would go, and what it would do, and how long the Mediterranean would be believed to the work of long the Mediterranean would be before it indignantly built up the wall
again, and left the 'Algerian Baltic'
to exhale its pestiferous odors, is
more than we should like to pro-

so many snakes, porcupines and sometimes be individual departures Prof. Hetz. Arabs, and then soak away into the dry and endless sands of the interior.

None the less, it has its fascinating points as a bold scheme; and the matter is under serious consideration with the Algerian authorities and the with the Algerian authorities and the mouth, which projects ameter at the mouth, which projects and the sidewalk or where the way. I have purchased a first class Plano of Prof. Hetx, and find that it gives perfect satisfaction in all respects, and believes is second to none in the state. Proceedings of Mexican houses is the spouts which carry off the rain from the roof. These spouts are of clay-ware, are cylinders, and find that it gives perfect satisfaction in all respects, and believes is second to none in the state. Proceedings of Mexican houses is the spouts which carry off the rain from the roof. These spouts are of clay-ware, are cylinders, and find that it gives perfect satisfaction in all respects, and believes is second to none in the state. Proceedings of the rain from the roof. These spouts are of clay-ware, are cylinders, and find that it gives perfect satisfaction in all respects, and believes is second to none in the state. Proceedings of the rain from the roof. These spouts are of clay-ware, are cylinders, and find that it gives perfect satisfaction in all respects, and believes is second to none in the state. Proceedings of the rain from the roof. These spouts are of clay-ware, are cylinders, and find that it gives perfect satisfaction in all respects, and believes is second to none in the state. Arabs, and then soak away into the from the rule. The oddest feature a block, the latter looks for all the ducks are never to be geese, our geese the discharge will be of a character swans, and we cannot bear the truth that will leave no doubt in his mind when it comes upon us. Hence our either as to quality or quantity. The disappointments; hence Solomon roofs of houses are here made flat, cried out that all was vanity, that generally of tiles, overlaid with tin he had tried everything, easy pleas-ure, easy beauty, and found it very or three inches thick, and about nine Perhaps the bitterest feelings in inches square. Some of the ceilings our life are those which we experiof the better class of houses are formence, when boys and girls, at the fail. ed of tiles of some design or figure,

bir fortune, another gave his life.
Our friend is just of that sort; he is wonderfully generous. We talk of him, he will praise us. The whole people around who laugh at the sudden warmth, we regard as old fogies, who do not understand life half as well as we do. But by-and-by our friend vanishes; the image which we thought was gold we find made

we sing with the noblest poet—
"My days are in the yellow leaf.
The flowers and the fruit are give:
The flowers and the fruit are give:
The were, the marker, and the girlet
Are mises alone:"

We case to believe in friendship;
we quote old saws, and fancy ourselves cruelly used. We think ourselves cruelly used. We think ourselves philosophic martyrs, when the simple truth is we are disappointed.

A St. Joe (Mo.) father, with the aid of a friend, undertook to frighten his son, who was driving home with some lucre upon his person, by assuming the role of bighwaymen. The genial parent was somewhat disconverted when his offspring pulled a pistod from his pocket and biazed away at the author of his being. The old man rolled over into a dick, and does not believe in the timidity of his son as much as he did.

Surschild for the many controlled and one of the most competent minical pulgers, or site from the proposed power with a server of the most competent minical pulgers, or site from the power in the timidity of his son as much as he did.
