THE best Flour in town, kept at E. J. Boughley's.

ALL the Eggs and Butter wanted at E. J. Boughley's.

OATS at 65 cts. per bushel, cash, at E. J. Boughley's.

WHAT is better than a quart of milk and wheat together?

C. W. Peirce would point items to that long bench now by Mosley mont.

JAMES TURNER, of Addison twp., is erecting a new house near his old one.

DON'T forget to call at Altaffer & Co's and get the prices they are selling goods at.

LOOK out for sun-strokes. Keep a wet handkerchief on something damp in your hat.

QUITE a crowd congregated on the Diamond Monday evening to witness the foot races.

HORSE-THIEVES, attention! Buy your goods of Al. Ober & Co. and thereby save money.

DIPHTHERIA is of a very malignant type in Jefferson and in some sections of York county.

TOMATOES are said to be unusually scarce, and are commanding high prices this season.

MR. PETER ZUFALL is erecting a large new barn, and sufficiently filling it this fall, so may it be.

JUST received a fine assortment of new Groceries, at E. J. Boughley's to be sold at reasonable prices.

ALTAFFER & Co. have the largest stock of Groceries, Confections, Glass and Queensware in town.

HUCKLEBERRIES are in the market in great abundance. Blackberries will follow in rather time.

MR. VAL. HAY has gone to work to erect a new building on the site of the old Lutheran Church. It is to be a brick.

OUR foreman, Mr. Charles Rice, has the framework and portion of the weatherboarding on his new residence at Gravel Hill.

WE have a full line of goods to suit the times. R. J. BRUBAKER.

MRS. DAVID OBERT, who was hurt week before last by a fall, is still confined to bed, under the care of a physician.

JOHN FRANKHOUSER died from drinking whiskey here, and the people there say he died as a consequence in trouble with such a beverage.

THE Somerset Band express struck a new tune Wednesday Saturday morning. It was a little too much tutored and lacked the good feel.

THERE will be divine service, D. V., under the auspices of the Episcopalians, in the Good Templars Hall, on Saturday, August 7th, morning and evening.

MASONRY are at work on the spire of the Presbyterian Church. It is suspected that the church will be ready for occupancy by the latter part of September.

HARTMAN HOFFMAN of the *Democrat* has taken possession of his new house on Union street, adjoining Printing House Row. We welcome him to the neighborhood.

NOTWITHSTANDING the panicky times, history is somewhere now already commencing the preserving season. Large quantities of berries are daily put up for future use.

MR. ISAAC CONNELLSTAR is erecting a large barn on his premises on Gravel Hill. The frame was raised on Friday last by ten hundred, of hands were treated to a supper.

COME to Altaffer & Co's. You can for several weeks yet, but they will make up for lost time when they do ripen, by giving a larger yield than we have had for a good many years.

GO to the Grange, then trump, consider the matter well, and vote. Why load yourself down with whiskey when we will give you $2 per day for harvesting, and find you besides—and no whiskey.

MR. JOHN W. PARROT was exhibiting curiosity in the shape of a new potato grown on an upland old sate, the old one been having been planted to his friends for years.

SHOULD any accident happen the potato crop it will be the largest ever harvested in this county, the bugs to the contrary notwithstanding. The number of acres is greatly above the average.

JUST in, and offered at all times cheap for cash, or on time to suit purchasers, Flour, Meal, Corn, Oats, Chop, and Bran. Give us a call.

The People Want Proof.

There is no medicine prescribed by Physicians, or sold by Druggists that carries with evidence of its success and superior virtue as Boerstler's GERMAN SYRUP for severe Coughs, Colds settled on the Breast, Consumption, or any disease of the Throat and Lungs, a proof of that fact is that any person afflicted, can get a sample bottle for 10 cents and try its superior effects before buying the regular size at 75 cents. It has lately been introduced in this country from Germany, and its wonderful cures are astonishing to everyone that use it. Three doses will relieve any case.—Try it. Sold by G. W. Bentord & Co.

THE second Grand Concert by the National Normal Musical Institute will be given on Friday, July 30th, in the Court House. The faculty of the Institute announce that instead of four they will give but three concerts altogether. All who desire to hear a rare musical treat should be in attendance.

FARNEY'S Harrisburg *Patriot* says: Alexander Loughlin, of this city, has been missing since the 2d of June. Toward his children are very ill, and his family are in great distress at his disappearance. Exchanges will receive the thanks of the family by referring to the fact that Mr. Longdon is missing.

AN exchange makes the truthful commentary that when a boy carries a market basket home full of groceries, he usually swings it across his spine, and bending forward half way to the ground, groans with agony; but give him twice that weight of base ball bats and he will skip along with a sunny smile and think not of it.

CON. A. C. NOYES, of Lock Haven, one of the prominent candidates for the Democratic nomination for Governor, paid a visit to the shrine of is Goffroth last week, to set up the pins. Not being of the same political faith as those gentlemen we are unable to tell whether Coffroth helps make a Noyes, or whether the Col. makes a Noyes for Coffroth.

A DUTCH Count and Countess sojourn at Bellefonte, during the heated term. A real, live, royal Dutchman and his wife, bearing letters from King William—if they are genuine.—*Ex.*

That's nothing. We have a Baron and Baroness in our midst, and we are certain that they are genuine.

PIANO FOR SALE.

The beautiful toned piano, now in use at the Musical Institute, made by A. M. Mel'hail & Co., of Boston, can be bought at a bargain by applying to T. P. Ryder, pianist for the Institute; 7½ octaves, four round corners, elegant finish; was two weeks on the road from Boston and yet was in perfect tune when it arrived.

IN connection with the regular work of the Institute, a Juvenile Class will be held each afternoon at 2:30, in which special attention will be given to reading notes and Sabbath School music. Tuition to this class alone, $2 00.

THOSE not holding membership tickets can obtain tickets to the evening sessions alone by the payment of $5 00 each.

MUSSELMAN & FRIES, Somerset, Pa., are agents for the celebrated "Improved Willoughby" grain drill. The cheapest, most perfect and durable drill in market. It is the easiest for man and beast, and has all the latest improvements for sowing grain, grass seed, and fertilizers. These goods are kept on hand or order all kinds of farm implements and machinery, at shop prices.

VALUABLE deposits of limestone have been discovered on the farm of our friend Frederick Weller, three miles northeast of Somerset. The stones are in an accessible place, and will soon be put to use. The discovery makes considerable excitement among the neighboring farmers, as there is a good prospect that the vein is extensive. We hope they may all find this valuable material.

THE next annual exhibition of the Somerset County Agricultural Society will be held on the 22nd, 23rd, 24th and 25th of September. The fair grounds being small and very much crowded during the last, an effort will be made to raise a sufficient amount to purchase one of the adjoining lots of ground, so as to afford space sufficient for the accommodation of all exhibitors and visitors.

THE board of School Directors of Somerset Borough will receive sealed proposals for the putting in of an iron fence around the lot at the Union School House. Proposals should be handed in before noon on Monday, July 26th, 1875, and should be endorsed "proposals for fence."

Specifications &c., can be obtained from the undersigned.

W. H. WELFLEY,
Secretary.

HIS Excellency, Governor Hartranft, attended the morning service in the Lutheran church of this place, on Sabbath morning. It is quite too common a thing for even church members who go abroad, in summer, for rest and recreation, to refrain from attendance upon religious service on the Sabbath day, and we were heartily glad to see our excellent Christ Magistrate act all such a good example.—*Bedford Inquirer.*

THE Uniontown *Standard* learns that Robinson, Ens & Co., of Pittsburgh, have offered to put up a furnace, hot blasts, engine house, engine stock house, and, in fact, everything complete for making iron, for something like $81,000 for parties on the Fayette County branch of the Connellsville Railroad. They also agree to have it in running order in four months. The work will be of the very best.—Whether they will accept the offer is unable to say.

THE second number of *White Awake* (D. Lothrop & Co., Boston), surpasses the initial number. Rossiter Johnson, the compiler of Osgood's "Little Classics," has an excellent story. Three D. D.'s are represented by contributors. The serials grow in interest, and there is evidently first class work upon every page. We predict for this new juvenile a steady growth inwardly and outwardly. Price $2 per annum. D. Lothrop & Co., publishers, 38 and 40 Cornhill, Boston.

ON entering our sanctum the other day, we were greeted by the scent of a finely flavored Havana cigar, which, on investigation, we discovered was being smoked by our senior. Walking into the compositors' room, we noticed that all, from the *Chief* down to the *devil*, were armed with the same kind of cigars. It was a "set-up" by our neighbors, Messrs. Cook & Beerits. They were happy, the boys were happy, and everybody except the host was happy, and, he was mad because he had been left out.

A WORD TO OUR DEBTORS.—It takes money to keep a business of any kind in successful operation, but it takes still more to erect a building such as we now occupy to accommodate and supply our customers with such things as are daily wanted in every household. We therefore ask our debtors to do for us what they can in the way of money or short time notes, and last but not least of all to extend to us at least a portion of their cash trade.

Very Respectfully,
COOK & BEERITS.

WE doubt if any town in the United States as large as Somerset (population 15,00), can show as small a bill of mortality during the past year. In the past twelve months only two persons have died within the borough limits. One of these was an old gentleman of more than eighty years, and the other a lady of ninety-three. We are truly blest by nature with a salubrious climate. People in other places are waking up to the fact, and are coming here to spend the hot months in considerable numbers. Our landlords have good accommodations for more.

Notice to District Secretaries.

—Many of the Annual Reports and Certificates have not as yet been received. One of those already forwarded was found to be incorrect and returned. Secretaries should be very careful in making their reports, for a Superintendent cannot approve incorrect statements, nor will the department receive them. The District Secretaries will please forward to the County Superintendent as early as possible. My address until further notice will be Glade, Somerset county, Pa.

J. B. WHITING,
Co. Supt.

IT is a difficult matter with many people to keep cool during the summer solstice, while others suffer but little from the effect of the heat. The healthy body gives forth at every pore constant moisture, and if this is unchecked it not only carries off much effete matter from the system, but it evaporates and produces coolness. It is well known that among harvest hands those that perspire the most feel the best. Bathing in cool water and keeping the head protected from the direct rays of the sun greatly conduce to comfort. A wet cloth, green leaves or grass placed in the hat will prevent sunstroke. Farinaceous and vegetable food are quite sustaining enough in warm weather. Acidulous beverages have the effect of inflaming the blood and producing heat, but not with standing these facts they are probably more indulged in during the summer than any other portion of the year.

A YOUNG man, with a snake wrapped around his hand, was seen standing on the platform of a car as the train arrived here the other day. As the train started he took off his hat, deposited the snake therein; went in and quietly sat down. A queer plaything, and a queer individual.—*Newville Star.*

AS our efficient Sheriff was making his usual daily inspection last Wednesday morning, he discovered that the man Miller, who is confined on a charge of having defrauded Peter Hauger out of $600 was making preparations to escape. On lifting up his bunk the Sheriff discovered a newspaper covered with dirt and dust lying underneath. On its being removed there was found a hole three feet long by two feet broad cut through the floor. After a careful search the sheriff discovered a bar of iron about two feet long, and a chisel. Miller admitted that he had a saw made from a knife, but it had broken and fallen down between the joists.

THE hot weather is here now, and those who have a kindly feeling for their horses will be more than usually careful of their health and comfort. The brain of the horse is very sensitive, and if he is exposed to the intense heat of the sun without protection, his health and strength will be materially injured. In the heats of summer the wild horse will seek the shade of the woods, and will not graze at that hour, but in his domesticated state he is forced with reckless cruelty by many to perform the heaviest labor without protection from the summer heat. The mouth of the horse should be frequently bathed with cool water; and a covering of shade leaves provided for his head while engaged in farm work during this sultry weather.

ON Thursday afternoon last, six prisoners confined in the Indiana county jail, taking advantage of the absence of the Sheriff and Deputy, succeeded in getting over the wall of the jail and escaped. The prisoners were Arch. Pounds, Reed Spellman, David McCardle, Dock Lydick and Hadden. After getting over the wall they made a direct course for White's hill, and separated. On Friday the Deputy Sheriff, W. S. Dangherty, arrested Arch. Pounds near Georgeville and brought him back to his old quarters. On Monday morning Reed came back voluntarily and delivered himself up to the Sheriff. The other prisoners are still at large. If McCardle and Lydick remain away it will be a "happy deliverance."—*Indiana Democrat.*

GAME.—Almost every State in the Union has an organization composed of gentlemen interested in the proper preservation of game, fish, &c. Our own State has, so far, neglected this very important matter. But now it is proposed to organize a State game association, to be composed of delegates from each county in the State. In order to accomplish this it is suggested and recommended that those interested in this matter proceed at once to form associations or clubs in each county, and elect delegates (say one or two from each county) to represent them at a meeting that will be held at Harrisburg on or about September 1, 1875. Any information as to plans of organization, &c., can be had by addressing J. B. Speese, attorney at law, 205 Walnut street, Harrisburg, Pa., and enclosing postage stamp for reply.

The Wrong Side of the Meridian.

On the down hill side of life, which an old medical writer quaintly terms "the wrong side of the meridian," when the functions decay and the frame gradually bends under the weight of years, the system requires to be sustained under the burden imposed upon it. Innumerable physical ailments and infirmities then press upon it to which it had been in earlier life a stranger. The surest and pleasantest support and solace of declining years is found in Hostetter's Stomach Bitters, long recognized as the most wholesome and agreeable of diffusible stimulants, the most potent of tonics and alteratives. The aged and infirm may place implicit confidence in this invigorating elixir, which not only checks those maladies to which elderly persons are peculiarly subject, but in a measure retards the encroachment of time upon the constitution.

YESTERDAY morning a young man named George Menser, son of Mr. Isaac Menser, of Scalp Level, was on the way from his father's residence to the farm of a gentleman who lives in the neighborhood, for the purpose of assisting in the harvest field. While taking a short cut through the woods a singular and fatal accident befel him. A large, decayed limb from a tree under which he was passing fell down upon his head, and likely produced almost instant death, as when he was found, a short time after the accident occurred, the vital spark had fled. These particulars our informant gleaned from a gentleman who came in to notify a brother of deceased, who is employed by the Cambria Iron Company, of the dreadful occurrence. The deceased is said to have been a young man of noble qualities, and the tragic manner of his death brings the saddest mourning to the hearts of his surviving relatives and friends.—*Johnstown Tribune.*

SUPPER TO JUDGE HALL.—The members of the Bedford County Bar gave a supper to Judge Hall on Tuesday, July 15th, on the occasion of his return from Europe. The supper was given at the Washington House, and a large assemblage of the members of the bar and the county officials were in attendance.

To the toast, "Our distinguished Guest," Judge Hall responded by giving an elaborate and exceedingly interesting review of his travels through the old country.

As was to be expected, his intelligent observation of men and things rendered the narrative of his adventures and experiences in Europe, deeply interesting and instructive. His pictures of Parisian life were exceedingly vivid, whilst his descriptions of an Irish country court, were mirth provoking, and contrasted sharply with the rigid decorum which he witnessed in the Courts of Westminster.

A number of other speeches were made by different parties, and the whole thing was an occasion to be remembered by the participants.

BUTTER.—The Altoona *Mirror* is giving some attention to the quality of butter sold in that market, and closes a vigorous article with the following strong language:

"We almost wonder, sometimes, that the women who make such stuff, and the men who peddle and sell it, are not visited by some terrible evidence of the wrath of Heaven and punished for the foul perversion of one of God's best gifts to man. And could the poor dumb cows enter their protest against this abominable outrage, we are sure they would "kick the stuffin" out of half the hucksters and butter makers in the country. How long we are to suffer under this condition of affairs, it is difficult to conjecture; it may be for years, and it may be forever. In the meantime, we register our earnest hope that the time of our deliverance is near at hand, that strong butter will be at a discount and good butter at a premium. Then will the present hucksters and their conscienceless supporters—the bad butter makers—be forced to take back seats, that they may be known and despised of all men, and subjected to such punishment and odium as their many iniquities merit.

A SHORT TAIL RIDE.—Those of our citizens who were on or about the Diamond on Wednesday evening were treated to a sight whereat they were much surprised and amused. It was a beautiful night, the moon in her splendor looked down on the scene, the street lamps were extinguished, and all betokened the hour when well disposed persons should retire from the street and surrender themselves to the caresses of the drowsy god. The policeman yawned on his beat and whistled "Put me in my little Bed." Suddenly a door was thrown open and a young man clad in his night shirt emerged from its shadow astride of a broom stick. Around the Diamond he started, astride of his novel steed. The policeman rubbed his eyes, the passers-by burst into a laugh, while the boys sent up a shout that shook the house. Round and round went the rider, his strange steed, evidently fractious, striking his wire-covered hoof against the pavement with a clang that could have been heard a square off. Once, twice, three times, four times he went round, emitting a strange sound that resembled the whinny of a horse each time he passed the open door. On the fourth round as he reached the door way he darted into its shadow and was seen no more.

The policeman shook himself and pinched his arm as if to assure himself that he had not been asleep, and moved on down his beat, much wondering if it could have been a dream or a reality.

The question is, was the weird young rider a somnambulist or was it merely a boyish freak.

For the SOMERSET HERALD.

MR. EDITOR.—I humbly ask you to permit me, as a reader, to speak through your columns, which are found in almost every family circle within our county, upon a very degrading and insulting habit which prevails in every community. This is chewing tobacco in the house of God, and spitting its juice upon the floor. I shall speak plainly and distinctly, for the habit needs to be checked. From observation I claim there are very few churches in our county exempt from this, not only insulting but disgraceful habit. Does the user of tobacco think that he is the only person within the church? And is it becoming to any gentleman to enter a church and completely poison the air that all within it are required to inhale? And be it respectful towards God's house? Seeing this habit so prevalent, I have endeavored to awaken those who practice it to a sense of their duty towards mankind. And I would like to hear from others upon a subject of interest to all. "Remember that man should live to please others beside himself." THEOPHILUS.

TWO boys, aged respectively seventeen and fifteen, were brought here on Wednesday morning in charge of officer Augustus Madary, of Berkley's Mills, Summit township, and committed to Fort Knepper on charges of malicious mischief and horse stealing. The names of these two young culprits are Fred and John Werbright, and they hail from Frostburg.—The horses were the property of a Mr. Peter Shultz, residing near Frostburg, and were taken from the pasture field. The boys took possession of the school house in Berkley's Mills and mutilated the furniture and otherwise abused the house, and thereon is based the charge of malicious mischief. While being brought to jail the younger boy rolled himself off the express near Pine Grove. The train was running at the rate of thirty-five miles an hour, and he had his hands tied behind his back at the wrists and above the elbows. When the train ran back for him, he was found lying alongside the track in an unconscious condition. He was taken on board and brought to jail. Though considerably bruised and cut he is improving rapidly.

NOTICE TO JUSTICES OF THE PEACE.—The attention of the Justices of the Peace of the county is specially called to the act of Assembly 26th March, 1869; extended to Somerset county 1 March, 1870, in relation to the return of criminal cases. The act provides that returns shall be made to the district attorney within five days after the finding over or committal of any defendant or defendants charged with any felony or any criminal offence; and any wilful violation of the requirements of this section is a misdemeanor in office, and punishable with fine. See act 26 March, 1869, P. L. p. 539. Hereafter all cases, where the information has been made ten days prior to the session of the court to which it is returnable, and not returned as the law requires will not be put down for trial and the fact brought to the notice of the Court. Parties bringing criminal suits should be directed, by justices, to the district attorney to receive advice and information concerning their cases, and get a subpoena for witnesses, that they may be ready for trial. The attention of justices is further directed to settle only such cases as come within the act of Assembly.

JAS. L. POUR,
District Attorney.

THERE dwells along the classic waters of the Flaugherty, in the land of Meyersdale, a gentleman who answers to the name of Peter Sellers. Now among the earthly possessions of Mr. Sellers is, or was, a fine bovine of the masculine persuasion. This masculine bovine got obstreperous last week, and proceeded to gore a horse. Not content with this display of its powers, espying the majesty and dignity of the law in the person of Esquire Miller, it gave chase, thus not only greatly incommoding our jolly round friend, but setting the laws of the commonwealth at defiance. But the Squire, though not as supple as he once was, made a spurt that would certainly have done credit to any of the young collegiate athletes at the recent foot races at Saratoga, proving that the law was not to be despised nor trampled under foot.

The culminating event in the checkered career of this gentleman bovine, however, occurred on Friday last. The western bound express was swinging along near the cut, when he undertook to dispute possession of the track. There was a short, quick thud, and Mr. Bull was lying alongside the road in a badly demoralized condition.

PEOPLES' FREIGHT RAILWAY.—A meeting of the friends of this project took place in the Commissioner's office at this place, on Tuesday afternoon of last week.

On motion Hon. Wm. J. Baer was elected President of the meeting and Ed B. Scull Secretary.

Mr. Nathaniel McConaughy, Chief Engineer of the Peoples' Freight Railway addressed the meeting. He explained the route and the financial policy of the road, and appeared to think that it the surveys were made the road was a certainty.

Col. D. Yutzy then offered the following resolutions, which were unanimously adopted:

Resolved, That this meeting hereby expresses its confidence in the practicability and success of the Peoples' Freight Railway.

Resolved, That when this meeting do adjourn, it adjourn to meet with all the committeemen appointed to solicit subscriptions to defray the expenses of a survey of the Peoples' Freight Railway, and all others interested in the enterprise, at the Court House, in Somerset, on Wednesday, August 11, 1875.

Resolved, That the proceedings of this meeting be published in our county papers.

WE understand that the Odd Fellow Lodge of this place contemplate the purchase of a lot of ground to be converted into a cemetery. This would be a good move, in a double sense. There is no doubt but that it would be a good investment financially, and there certainly is nothing that is needed more. It is a disgrace to the community the way the present graveyard is let go to ruin. The eastern side of it is so filled up that it is almost impossible to walk through it without trampling upon the dust of some of our former townspeople. There are no walks in it and it is all overgrown with grass and weeds. Strangers are perfectly horrified by the manner in which we bury our dead. It is out of no lack of love or reverence for the departed that this state of affairs is allowed to exist, but it has got to be such a habit of our people to bury their dead in straight rows that it no longer strikes them as being peculiar.

There are several cemeteries in this county owned by this order which we are assured have paid for a number of years, and are still paying, from ten to fifteen per cent. on the money invested. There would be ready sale for a large number of lots in a cemetery that was nicely laid out, with walks and drives through it, and well planted with trees and shrubbery. We hope the Odd Fellows will carry out this project, or if they do not some other parties will.

"THE TUNKERS."—A few days since we took occasion to point out some absurd blunders in an editorial article which appeared in the New York *Tribune* on the religious sect commonly called "Tunkers." A member of this denomination of Christians sends us a communication from which we make the following extracts:

"As Christians the only name we have assumed is the one given by the Saviour when he said, 'Be not ye called Rabbi, for one is your Master, even Christ, and all ye are brethren,' but as a church organization we have the simple adjunct *German Baptist* to designate the organization hence we know the church by the name of the *German Baptist Brethren*. The first organization was in Germany soon after the Reformation, but in consequence of her non-resistant, non-swearing, and war, with other Scripture principles, persecutions compelled our fathers to flee to free America, to which country they came and organized churches in Germantown and the surrounding country in eastern Pennsylvania. Belief in baptism in immersion in water very readily commended itself to the mind of unbiased Scripture readers; great numbers believed and were baptised by triune immersion in water. These accessions principally came out of pseudo-Baptist churches, all of which were German, and naturally the spirit of opposition was aroused in them, and with the persecuting feeling of their fathers in the Old World, though powerless to persecute, they contented themselves with vile epithets, would not call the Brethren by the chaste German scriptural name Tauter, Baptists, but by the more vulgar Tunker, dippers. This being the origin of the name Tunker, or even Dunker, as some put it, its use in the English language is without a rime or meaning, and partakens an old vulgar German slander.

Our correspondent says that the German Baptist Brethren have emigrated to the West in large numbers, and are quite numerous in Ohio, Indiana, Illinois and other States. He further claims that they established the first Sunday School in the United States, and passed the first temperance resolution ever adopted by any religious body in the world; they never held slaves, never shed the blood of man in war or otherwise, and, excepting the Bible printed by the Iber. John Eliot in the language of the Natick Indians at Cambridge, Massachusetts, in 1663, they claim to have been the first to print the Bible in America. In 1743 Christian Saner, a member of this sect, published a Bible in the German language at Germantown, Pa., the first with the exception of Eliot's Indian Bible ever printed in this country.—*Baltimore Americans.*
