A PPLETONS AMERICAN CYCLOPÆDIA

NEW REVISED EDITION.

Entirely rewritten by the ablest writers on every support. Frinted from new type, and illustrated with several thousand engine maps and maps. The work originally published under the title of The work originally published under the title of This Naw American Creater and was completed in 1851, alone which time the white circulation which it has attained in all parts of the United States and the signal developments which have bases place in every trainen of science, literature, and are, have housed the original and publishers no enfant to an exact and thereugh revision, and blesse a new edition entitled the American United to the American United Care American United Care American United Care American Care and Care and

Winin the last ten years the progress of dis-overy in every department of knowledge has under a new work of reference an imperative want.

The movement of political affairs has kept pace with the discoveries of science, and their trustful application to the industrial and useful affa, and the convenience and refinement of social life.

Oreat wars and emissioner revolutions have occurred, sectiving maticinal shanges of peculiar moneral. The civil war of our own country, which was at its beight when the last volume of the old work appeared, has happilly been ended, and a new course of commercial and industrial activity has been commercial.

Large according to our geographical knowledge have been made by the industrigable experience.

I be great political resulutions of the last decade, JAMES MORLEY the harman result of the lapse of time, have small into view a multitade or new men, whose unest are in overy one amount, and of whose lives are one is curious to know the particulars, Great these particulars are not be unfounded. cvery and a curious to know the particular steges maintained, of which the details are as yet pre-served this in the newspapers or in the transient publications of the day, but which ought now to take their place in permanent and antisentle his-D. McLAUGHEIN W. W. WALTERS

in preparing the present edition for the press, it may account may been the aim of the editors to tring own to innormation to the latest possible dates, and to turned an accurate account of the most recent discoveries in science, of every fresh producthen in Heristare, and of the newest faventions in the practical arts, as well as to give a succinet and original record of the progress of political and his-The work has been begun after long and careful
