peadlers and roughs, so generally the we should raise first class wheat, milk. The better care and more small lumps by the dairymen, the especially noticeable, as it is com-mendable to your sense of right and thing we cultivate. This the world better will be her milk.

mendable to your sense of right and good morals. Your exhibition more than makes up in quality what it lacks in num-bers of exhibitors and articles dis-make poor butter we must take a bers of exhibitors and articles dis-played, and I know you will be en-couraged to largely extend its useful-ness another year, by bringing out ident of the county if possible. Will not sell to advantage. If we make poor butter we must take a much less price than our neighbor who makes good, and so throughout the entire list; if we therefore fail to produce a prime article we suffer ident of the county if possible. ident of the county if possible. I am glad to see more attention loss, while if we succeed and our to market your butter as fast as made, package.

given to the usefulness of horses rather than speed, and many remark that finer draft horses than some of those in Somerset County are not found anywhere. The display of cattle, especially of the best breeds of cows, is very good, and it is well that strention is being given this sub-ject, as the product and profit of your dairies may be largely increased by these means. Of hogs and shorp i am not a judge, but I think the speci-mens of both are good. The vegetai bie department of your Fair contains.

am not a judge, but I think the speci-mens of both are good. The vegeta-ble department of your Fair contains splendid specimens of what may be produced with good ground and the expenditure of muscle. Hoeing dees two things, kills the weeds and owny. The masses require botter does two things, kills the weeds and produces that delightful sensation the back ache. Some very fine but ter is displayed, and it is to be re-gretted that one side of the Fair Grounds is not filled with samples of this important product. The ladies' department well dis-the back ache. Some very fine but ter is displayed, and it is to be re-gretted that one side of the Fair Grounds is not filled with samples of this important product. The ladies' department well dis-

plays their gentle and useful handi-but because out taste is better calu-craft, and is most creditable to their

plays their gentle and useful handi-crait, and is most creditable to their industry and skill. I do not wish to provoke the ill-will of my Christian brothers by making comparison, but truth and justice compels me to say that the ladies' department of this Fair is superior to all the others, as coellent as they are. The great mumber of fine specimens of sewing and embriddery would prevent my their quality and utility.
There should be prevent and stagnant pools. There should be plenty of pure ran-ing water, either from a brook of well, easy of access to the cows. In the past few years a new sys-traite superior to all the others, as the we undertake, and the liberal premines here offered should ca-premines here offered should ca-trute and user of the specimens of sewing and embriddery would prevent my their quality and utility.
There have here and water the device of the age, the pro-portions are in favor of the present. It is, therefore, our duty to their quality and utility.
There should be plenty of pure ran-ing water, either from a brook of well, easy of access to the cows. In the past few years a new sys-trute of making butter has come into operation by creameries. They haudle the these creameries. They haudle the init of from 100 to 500 cows, and as as

even if I were capable of explaining their quality and utility. There have been some excellent samples of agricultural implements in a practical dairyman, though in displayed bere, one a fanning mill that separates not only the chaff from the old dash churn more than to noce if it unfortunately contains at the old dash churn more than to noce if it unfortunately contains that many. It makes me wish that many. It makes me wish that tha
