The terror of the farmer just now is the tree pecker, who lacerates the horizontal soil with a book full of gorgeously colored and possibly poisonous insects, impossible fruit, such as never yet grown on earth.

The Government has furnished each of its railroad mail messengers with a handsome brass chain, by which they are compelled to keep their mail bags suspended, to avoid losing them. Dave says he would have preferred a gold one.

STRECHER into his room he sat upon the edge of the bed and soliloquized thus: "Fret not, right brood, a sore on one hand is a feather on my account, but no lack in 'moss. Sings got to be different. I'er I'mus get married, else get a boot-jack; wishal do!"

The Oxford Press says that a new disease among cattle has made its appearance in Southern Lancaster county. It attacks them in the throat, and prevents their eating or drinking. Lydia Ann Price, of that township, has recently lost two fine cows with this disease.

Now that the winter evenings have set in, would it not be well to get some sort of an arrangement whereby our people may be amused and benefited—by the establishment of a museum or a lyceum. Something of this kind would be interesting and at the same time instructive. Who will go with us in this movement?

TO-MORROW (Thursday) is the day appointed by the President and Governor as a day of thanksgiving and prayer. While the year has undoubtedly been a hard one financially, there are many other things to be thankful for in all parts of the county have been universally good and we have been freed from all epidemic diseases. Services will be held in different churches about town.

A correspondent writing from Caswell, asks: "What is the law in regard to hunting deer with dogs?" The substance of the law is: "Dogs pursuing deer or any other animal, shall be liable to a penalty of \$10 for each deer killed by said dog. This law applies in all parts of the State with the exception of Centre, Fayette, Schuylkill and Wyoming Counties."

"You pays your month and you take your choice." Here are two predictions: A Chester county gentleman who, on November 1, 1874, predicted the character of the winter and Spring, whose prediction was verified, now writes: "From December 1, through the entire Winter, there will be but a few cold days, and more than that, there will be no Spring fresh water like last year, and you will find your fires comfortable till the first of June."

A man named "Boo," somewhere in this State, predicts as follows: "This Autumn is to be the finest for a long time, and in many years, with no freeze of any consequence until the 20th of December, and then not getting to the heart of the matter until the 1st of January, with only a few cold days. More rain than snow during the winter and little or no snow in the Spring. A few cold days in February, just for change, with a cloudy and warm March. Variable in April, to be followed by a dry May."
