Miscellaneous.

NEW REVISED EDITION.

with several thousand cogravings and maps.

The work originally published under the title of The New Amanican Cyclor-hola was completed in 1863, since which time the wide circulation which it has attained in all paris of the United States, and the signal developments which have taken place in every branch of science, literature, and are, have induced the editors and publishers to submit to an exact and thorough revision, and to issue a new edition entitled The American Cyclor-Abda.

The movement of political affairs has kept pacwith the discoveries of science, and their fruitful application to the industrial and useful arts, and the convenience and refinement of social life.—

the convenience and refinement of social tite.— Great wars and consequent revolutions have oc-curred, involving national changes of pseuliar mo-ment. The civil war of our own country, which was at its height when the last volume of the old work appeared, has happily been ended, and a new course of commercial and industrial activity has been commerced.

Large accessions to our geographical knewledge have been made by the indicatigable explorers of Africa.

have been made by the indicate above the last decade, with the natural result of the lapse of time, have brought into view a multitude of new men, whose names are in every one emouth, and of whose lives every one is curious to know the particulars. Great sattles have been fought and important sleger maintained, of which the details are as yet preserved only in the newspapers or in the transient publications of the day, but which ought now to take their place in permanent and authentic history. In preparing the present edition for the press, i

rical events.

The work has been begun after long and careful reciminary labor, and with the most ample recurred for carrying it on to a successful termina-

suggested by longer experience and entarged closing. c illustrations which are introduced for the the Hinstrations which are introduced for the time in the present edition have been added for the sake of peterial effect, but to give in-y and tobes to the explanations in thetext, y embrace all branches of science and of matu-history, and deplet the most fumous and re-kable features of scenery, architecture and as well as the variets processes of mechanica manufacturers. Although intended for in-sition rather than cabellishment, no pains a been spared to insure their artistic excel-ient court of their execution is emarmous, and believed they will find a welcome reception as imirable feature of the Cyclopadia, and wor-of its légic character. This work is sold to subscribers only, payable
