The continues of the continue of the continues of the continues of the continues of the con

the best for crops generally. If we harrow in the manure much of it is left upon the sorface of the ground, and its virtues exaporate. So it is in some degree when it is covered very lightly with earth, if the weather begin for tarmers to decide, whether it is not better to take a little more time in some cases, and use a one-horse plow to cover manure. Good crops, of course, are grown by covering manure at the first plowing; but for an acre or two of strawberries, or other small fruits I think it would pay to use a one-horse plow in covering the manure, so as not to cover it too deep.

The rows in the field culture of the too the depth, eight creten inches the total earth of that depth, eight creten inches the hard believe it. If you have no money have a martial wisdom teaches that.—

who have decided to be cause will be carth to that depth, eight creten inches the too the resulting in a circle cating bit indifference to death and that he would commit the same crime again and again, that he was justified. Before he was pinioned he took up the of an owl, and the crack of their guns rang out through the wools.

Hardly had the smoke cleared the wools.

Hardly had the smoke cleared the wools.

Hardly had the smoke cleared the though the wools.

Hardly had the smoke cleared the two cover in the beam above him to bis feet. He handled the rope and examined the nones, and said that the fall was not enough; "I want a neck-breaker fall of ten feet." The Sheriff length-occuping from the number of guns discharged that the enemy was to find the rope to a fall of about eight the wools the motion, "Described in a day of two resembles the Joneses, the work of such when the total party of red-kins opened fire upon the whites.

Two of Brady's men fell at his side, and not red to the crawk, the the same crime again, that he was justified. Before he was pinioned the took up the wools.

Hardly had the smoke cleared the trope in his hands. It was dangling from the beam above him to bis feet. He handled the rope to a fall of about e

too deep.

The rows in the field culture of The rows in the field culture of strawberries may be three to three and a half feet apart, and the plants

and a half feet apart, and the plants money suah. Ize just perspiring to set from 12 to 15 inches apart in the death for de want of strawberries." tivator to run between the rows, after they have become widened with plants from runners, so that the epen "Does any the grocer.
"No, sah."
"Then how pace between them is not over two any money?" or two and a balf feet. Many strawberry grower recew their plantations as follows: As soon as the berries as follows: As soon as the strain, berries as follows: As soon as a transfer and the soon as the strain, as soon as the strain as soon as the strain, as soon as the strain many years; but it would be necessary to apply manuse once a year to the spaces between the rows when they are plowed. It is a rather remarkable fact that strawberry growers, who sell their fruit in the large in New Haunshire. Of roomse the

The horticultural editor of the "Country Gentlemen" says: "Planters are often disappointed, after having set out a fine fruit garden of large and small fruits, to find, after a lapse of years, that their supplies have diminished, and some of their favorites have "run out." They made the mistake in supposing that a fruit garden, once well under way, does not make the state of the supposing that a fruit garden, once well under way, does not came a vast crowd. The woman to surround him, although they were to surround him, although they we den, once well under way, does not need frequent renewing. The best cultivators make additions or replacements every few years at farthest. When not too late, every low years owner may do wall to look over his grounds and see what he can add in the fall or spring." He is correct, as no place is ever "finished," as regards the expiration of the time agreed up had not go to the time agreed up an appear on, but Satan did not put in an appearance. Mr. Greeley early in the bis escape.

Suddenly he saw the channel before him, which, with the savages behind, formed the jaws of a trap as merciless as fate. A glance at a point where he could see the nature performance from Mr. Greeley's field, where he was hoeing corn—when not looking for the devil.

Ministration of the time agreed up an appearance in the relicion on, but Satan did not put in an appearance in the relicion on, but Satan did not put in an appearance in the performance. Mr. Greeley early in the bis escape.

Suddenly he saw the channel before him, which, with the savages behind, formed the jaws of a trap as merciless as fate. A glance at a point where he could see the nature of the channel should be the savages behind, formed the jaws of a trap as merciless as fate. A glance at a point where he could see the nature of the channel before him, which, with the savages behind, formed the jaws of a trap as merciless as fate. A glance at a point where he could see the nature of the channel before him, which, with the savages behind, formed the jaws of a trap as merciless as fate. A glance at a point where he could see the nature of the channel before him, which, with the savages behind, formed the jaws of a trap as merciles.
