Woman was not made to live alone where the devotion of his ragged constitu-We man was not made to live alone made manure. He had obtained good crops for thirty-six years, from very poor land originally by plowing ander clover once in three years; the rotation is cats, clover, wheat, and the yield of wheat is from eighteen to twenty-two bushels per acre. As I have said before, farmers can keep their lands in good state of fertility, without any manure of any kind, by plowing under green clover. Anoth-

been plowed." Another speaker said that clover is much better for sheep than timothy hay, as they like it better, and it keeps them in better condition. A good deal depends on the Women by themselves require lit.

Interest being, implanted in nership, and make it stronger than new young and righted. As for me, with nerves already overstrained, a regular panic came on. I knew hunters built fires to scare off wild animals, but after Kitty had made a blaze, a new fear came. The winding up on a Woodward avenue.

Riding up on a Woodward avenue.

you leed to good animals pays, but to feed scrubs is a great waste. The price you eventually get for the fatted animals, is what determines the question of profit or loss. It is lamentable sometimes to see how little a farmer cares about improving his stock. Clover hay is far ahead of timothy for milk, and if rightly managed the clover itself may be so managed the clover itself may be so during the pasturing season. It disdain; but there is something very prosit anywhere. A movement has select the sometimes to good animals pays, but thout ostentation, bustle or form; neither in beauty or raiment nor in delicacy of food can they find happiness, and the terrible condition of life insurance, has put the poor who have work and who, therefore, lamentable sometimes to see how the other sex before they can please to what they shall do with their money. There are thousands who of timothy for milk, and if rightly over their tea and gossip, and outlined the pasturing season. It disdain; but there is something very posit anywhere. A movement has sleep came again, to be broken again. during the pasturing season. It disdain; but there is something very should be made to continue blooming during the whole season, but most does anybody suppose that the renot be overcrowded with stock.

COOD MILKING COWS.

An old dairyman said: "In regard to the kind of animals kept, the first cross of Ayrshire on native secures three times in four as good milking qualities as are possessed by the thoroughbreds. We must not suppose that blood alone will answer, if good care be neglected, and indeed the thoroughbreds have a great additional and the survey of a colling of a pose that thood alone will answer, it may now the provided a control of the provided of the spect of the field, they are generally so much better treated than address on the sate remarks with an address on the sate of all better treated than an address on the sate remarks with an address on the sate respect, and on the retain address on the sate respec
