Having known the deceased from early childhood, it is with teelings of sadness that we record the death of one we es- teemed so highly. The writer, having been her teacher for several terms of school, never had occasion to give her an unkind word, so excellent was her being- tior. And later, when officially connected with a Sunday school, of which she was a member, had ampte opportunity to notice her punctual attendance and christian de- portment. For years she hveit a plous, consistent member of the Lutheran church, and we have a right to hope, from her christian character and conversion dur- ing her last illness, that she has gone to her rest in the beiter home. The MILTER.—The Pittsburgh Post of the 18th lost, says "During the past month or two complaint has been made to the County Commissioners by a number of the officers of the Sixth Division, on ac- count of the failure in the enforcement of the ison of 1864, which imposes a fine of 55 on members of the Nithonal Guard who neglect to attend the drills of their re- spective companies and encamptment of their regiment. The Commissioners have therefore been in doult as to whether it is their duty to enforce this law, and they referred it to County Solicitor Geyer for examination. He vesterday gare it as his opinion that it was their duty, and they hereafter propose to enforce the law to the letter whenever complaints are made by officers. Should the officers report promptly all absentees there will no doubt to a lively time among the boys. SCUESSFUL SCROLAL OPENATIONS.— A few weeks ago, Dr. W. F. Fundenberg, of Cumberfand, Md., who is still at the "Bedford House," operated upon the care of Mr. William H. Davis, of Charlesville, this county. Mr. Davis had been in poor health and almost totally deaf to a number of years, caused by tumors growing from the drums of both ears, filling up the ex- ternal anditory canal entirely. The de- licate operations were successfully per formed after having boon lost for years. Mr. Davis' delight in regaining his best- ing is unbounded. We congratulate the Doctor upon his success and advise such of our report his success and advise such of our report his success and advise such of our report his success and advise such of our supor his success and advise such of our supor his success and advise such of our sub of at a terrible gait; but for man- ual labor he has an unconq	 got a whole toad of goods. JAKE. Why, how does it come that you are buying so many goods this time a year? Joux. Well, that's easy enough to explain. It is because goods are so eary choop now, much cheaper than ever, and who knows how long this may last, although the storekeeper told me there was no danger of any advance in prices soon; but we must not always trust these tellows, they don't know any more about the turner than we do. JAKE. If that's the case, I ought to buy some goods too, but money is so earner with me. JORN. Indeed, Jake, it takes so little money now to buy all the goods you want that you will hardly miss it, and besides that, you can get nearly a wagon load of goods gow for an armful of produce, while out a few years ago it took a wagon load of produce to buy an armful of goods. JAKE. And then you can exchange produce tor buy an armful of goods. JAKE. And then you can exchange produce to the store in the 'morning' have got a little money, and I know my wife can gather up aome produce, and ell have some of these cheap goods too. But I almost forgot to ask, what store were you at? P. says he heard no grammar recitations in my school, which is true; and if he felt aggrieved, why didhe not ex- plain at the time, and I would have been agreeably and properly corrected. But this is not D. L. P.'s object-out after chaffing for a whole month, (and presum- ing on the 'informace of school directors') concluded he might easily misrepresent and cast ridicule upon them. What is a grammarian? One well vers- ed in languages—Webster. I ask, have we one in our corps of teachers? I think not; and I should not expect to find one among the pupile. I have since visited most of the schools in the township, and find some very prom- ising classes; but they are all of this term's growth. What have the schools been doing? But D. L. P. complains further, that he made a better speech in the school than at the Directors' meeting. If it was so, was there anything disparaging in that? Do not all men talk better on some occasions? But D. L. P. appears to be poorly gilted in memory; he is hardly a competent judge after a lapse of time. And again, some subjects are much more agreeable to some persons, and their judgment is warp- ed by their partialities. SCHOOL BEFORTS - Report of Pleasant Valley school for the second month.
