

BOILED TALK.

A SPEAKING PHOTOGRAPH AT WORK.

From the Philadelphia Times, March 9.

Were the veracious Munchausen in attendance at an exhibition which was given yesterday in the Philadelphia Local Telegraph Company's office...

There is no electricity about it for description, and for a stunner of hands were uncontrollably merry...

Women With Many Husbands. An article on Thibet (north of China) in the Cornhill Magazine this alludes to polygamy...

THE INSTRUMENT was operated sometimes by Mr. Bentley, but principally by Mr. Adams, a highly intelligent Scotchman...

COMING OUT OF THE "BOTTLE." "Now I turn the cylinder back to the starting place, in order that the steel point may cover the perforations which it made when I talked into the mouthpiece...

Mr. Adams having wrapped a sheet of tin foil around the cylinder, spoke into the mouthpiece in the ordinary pitch and time, but with distinct articulation...

Having reset the cylinder, and fixed the funnel in the mouthpiece he turned the crank, and the diaphragm repeated the rhyme, not only as distinctly as he spoke it, but with so perfect a mimicry of the Scotch accent...

AGRICULTURAL.

Experience in Plowing.

I give, in a few words, the results of experience in plowing. 1. Plow only when the ground is dry enough to leave it mellow...

There is no method or medicine—no food or any animal—that will arrest the wool from falling from the sheep when once it has begun...

Spreading Early Vegetables. The months of February and March are very busy ones to all agriculturists...

What Vegetables to Plant. Spinach.—The new "Large Virgily" is the best variety for this locality...

What Vegetables to Plant. Spinach.—The new "Large Virgily" is the best variety for this locality. Celery.—"Dwarf Crystal White" and "Giant White Solid" are my favorites...

What Vegetables to Plant. Spinach.—The new "Large Virgily" is the best variety for this locality. Celery.—"Dwarf Crystal White" and "Giant White Solid" are my favorites...

AGRICULTURAL.

Onions.—The "Queen" being very early and tender is well by none...

Potatoes.—The new "Beauty of Hebron" is the earliest which has yet come under my notice. The quality is also very fine...

Cauliflower.—The variety to be recommended for frames or forcing is the "Extra Early Dwarf Erfurt"...

Tomatoes.—The "Conqueror" is certainly the earliest variety; but for general use the "Hawthay Excelsior" and "Trophy" are to be recommended...

Peas.—Among the dwarf varieties, of an early crop, none can be better for the "Minnesota"...

Beans.—The earliest and prettiest is the "Egyptian," though inferior in quality. The sweetest is the old "Bassano"...
