It is thought the wheat crop the coming year in the United States will reach the round sum of 400,000,000 bushels.

It was a popular mistake that all the Ohio politicians had been provided with offices, as we see it announced that of the ten new special agents of the National Revenue Department, authorized by the late Congress, two have been appointed from Ohio.

THE PRODUCE OF wheat in the State of Minnesota is remarkable. Judge Mitchell, of Winona, writing to a friend, states that the crop this season will reach to the enormous aggregate of 40,000,000 or 50,000,000 bushels.

PERSONS in positions to know estimate the amount of counterfeit coin now in circulation in this country at fully \$2,000,000, much the greater part of which is spurious silver.

THE STEAMERS leaving New York Saturday, June 27th, carried large cargoes. In the list we note: The France takes, among other items, 487 head of live cattle, (the largest shipment of the kind hitherto made), 70,000 bushels of grain, 1,050 cases of canned goods, and 290 bales of domestic.

THE GASHING OF teeth that is heard from the "Independent" press at the frequent mention of Grant's name for the Presidency in 1880, shows how confident they feel that a nomination in his case is equivalent to an election.

EVERY voter should carefully ponder the following weighty words from the Tribune: "It ought to be the first duty of men who care for the business prosperity of the country, whether capitalists or workmen, bankers or brokers, lenders or depositors, manufacturers or operatives to take care that a Democratic House shall not be elected next fall.

HON. DANIEL J. STURGEON died at his home in Uniontown, Pa., Tuesday evening, at the ripe age of 89 years. He held many important State offices, being a member of the Senate in 1825, Auditor General in 1830, and Treasurer from 1833 to 1839.

THERE is evidently an intrigue afoot to defeat the re-nomination of Speaker Randall for Congress. Immediately after the Pittsburgh Convention it was announced that Senator Wallace had determined on his rivals overthrow, but this being repudiated, was speedily denied by him.

THE OHIO DEMOCRACY receives a black eye on the very threshold of their campaign. The Democratic Treasurer of Stark County, Mr. Geo. Tressler, has levied with \$65,000 on the public funds.

THE BOASTED PRIDE of corruption of our distinguished men of the Republican party has not been forthcoming. The Democratic party stands today before the nation as the promoters of discord, the stirrers up of sectional strife—albeit to accomplish their political ends.

DOORKEEPER POLK, whose character was white-washed by his Congressional friends before he was dismissed, has turned up again, and this time he furnishes State's evidence and squeals on his colleagues.

IN 1876 the Democrats made a great parade over the claim that the Democratic House had made a saving of \$30,000,000 on appropriations. The Republicans at the time insisted that the reduction was only temporary, as it was effected not by actual economy, but by withholding for a time from some of the departments appropriations which it would be found necessary eventually to grant.

GRANT'S OPINION of Senator Cameron. General Grant is a familiar figure in Scriber street, where almost every day he goes to the American Conservator. While present for fifteen or twenty minutes he heard him speak unreservedly on several subjects. He expressed his opinion of public men with the same freedom. He thought Don Cameron very clever, not as a writer or speech-maker, but as a convincing talker in a quiet way, off on a sofa.

OUR PHILADELPHIA LETTER. Terrible Catastrophe at Pittsburgh on the Fourth. The storm which passed over the city on the afternoon of the Fourth was terribly destructive in its results. So far as learned twelve persons lost their lives, and a large number were injured.

THE GREAT DISASTER. The great disaster of the day occurred at Sugar Camp Grove, on the Ross farm, about three miles above Sharpsburg. The congregation of the German Lutheran church, of which Rev. Charles Waltz is pastor, were holding a picnic in this grove, which is not very large, but was composed of very old and large maple trees.

THE INJURED. All the injured, with one exception, it is presumed to state, are in a fair way to recover. August Berglund, aged thirteen, residing with her parents in the basement of the German Lutheran church, was severely injured internally.

ACTIVITY OF THE COUNTERFEITERS. WASHINGTON, June 28.—The "Dollar of the Daddies" seems to afford rich prey for counterfeiters, inasmuch that the Secretary of the Treasury is becoming alarmed. The agents of the secret service report the country flooded with spurious standard dollars, trade dollars and sub-dollar coins.

A SMALLER DISASTER. Sandy Creek is an insignificant stream which empties into the Allegheny river, almost at Ross' grove, where the disaster to the picnic occurred. The storm was of special violence here, and later on, the water rushed down the valley with great velocity, to the depth of eight or ten feet, sweeping everything before it.

A BROTHERSHIP with the Indians. CAMP LEWIS, south of the south fork of John Day river, July 9.—The following is official: The hostiles crossed John Day river, near this point, on Sunday, June 29. They are now in Fox valley. The indications are that the hostiles will make a dash for the mouth of Grand Ronde, keeping on their journey under cover of the forests of the Blue mountains.

FEASLER'S DEFLECTION. CANTON O., July 5.—George Feasler, the defaulting treasurer, was brought here to-day from his refuge in Canada by Marshal Webb, of Canton, and lodged in jail. Feasler was not sufficiently sharp, and made confession to Webb that three him made to the Penitentiary under the law of Canada. A strong pressure was brought to bear on him by Lynch and Shields, attorneys from Canton, which resulted in his voluntary return to Canton, with the relics of the money stolen by him.

A TOWN ON FIRE. Oil City, Pa., July 5.—A fire broke out in the depot at Petroleum Center yesterday. It is supposed to have caught from a spark from a locomotive. Everything was done that could be to extinguish the fire, but without avail, the greater part of the town was burned.

ATTEMPTED MURDER AND SNAKE. ELmira, N. Y., July 1.—Col. Alrah Buckner, a prominent resident of this city, shot his wife, his mother-in-law, and then his own brain, dying instantly, this afternoon. His wife, the daughter of T. S. Reed, left him some weeks ago, and he went to the house of her parents, where she was stopping. He importuned her to return and live with him, but she refused, and he drew a revolver, shooting her twice in the head.

CEREMONIES AT WILKESBARRE. A Procession Four Miles Long Reviewed by the President. WILKESBARRE, Pa., July 4.—The second day's demonstration commemorating the battle and massacre of Wyoming was held in this city to-day. The three railroad-which intersect this place ran local trains, singly, during the morning. At ten o'clock this morning fully 9,000 people had congregated along the streets through which the procession was to pass. The decorations were beautiful.
